Procedure of HPG Public Requests During HPG Meetings

During public comment periods of HPG meetings, public members sometimes request a variety of things directly or indirectly in their comments (e.g., information/clarification, data, investigation of a circumstance, etc. or may assert circumstances that require clarification to address either in 1:1 communication or in a subsequent meetings).

The process/procedure for responding is as follows.

During each HPG meeting (including the one in which the direct or indirect request is made), the chair or vice-chair will:

Explain the process for a response and indicate that:

1. HPG Support Staff has placed their email and phone number in the chat so that the speaker can contact the staff to discuss and clarify the request. The staff will obtain contact information for any needed follow-up (name, email address, phone number, and preference for communication).
2. When the speaker contacts HPG Support, staff will respond within one business day via email or phone call to obtain contact information and the basic details of the request.
3. The day following the HPG meeting, an internal debrief meeting will be held which includes the review of follow-up items. Follow-up items are discussed and assigned to appropriate personnel to respond further to obtain the required information/clarification. The requestor will be contacted the same business day as the meeting is held. *Items that involve or require provider contract information are assigned to Recipient staff.*
4. If the situation requires further research or data gathering, Support Staff will inform the requestor and provide a good faith estimate of the time required for the research and when the requestor may expect a fuller response from the staff.
5. Every attempt will be made to obtain and communicate the requested information within a 10-day period.
6. When a full response is provided, the follow-up item will be recorded as completed.

- Mental Health Services providers are still exploring possible interventions given recent discussions and findings from the May and June meetings. Project updates and implementation plans will be shared in the coming months.**

Ryan White Part B

Ryan White Part B is funded by the California Department of Public Health on behalf of the Health Resources and Services Administration (HRSA). Ryan White Part B seeks to serve low-income and un/underinsured people living with HIV, and to improve the quality, availability, and organization of HIV health and supportive services in California.

The current Part B grant is funded for a five-year period from April 1, 2024, through March 31, 2029. We are now in the third year of the grant cycle.

Current fiscal year (FY): April 1, 2026 – March 31, 2027

HRSA has updated the Part A allocation formula, resulting in reduced Part A funding for six of California's eight Part A jurisdictions. To help offset this reduction, HRSA increased the Part B allocation for Years 3 – 5. The total grant award for Part B is \$2,426,948 for FY26-27.

Funded activities:

1. Legal Services - \$285,264
2. Linkage to Care (Bridge/Outreach Program) - \$92,480
3. Fiscal Intermediary Services (Emergency Financial Assistance, Residential Substance Use Treatment, Representative Payee) - \$1,153,817
4. Administrative Services - \$115,000
5. County of San Diego HSHB - \$780,386
 - a. CoSD Medical Case Management
 - b. CoSD Early Intervention Services (Data to Care)

Program Update:

- Focused HIV Testing contracts expired on March 31, 2026. Community-Based Testing efforts are now conducted under HIV Prevention (PS24-0047).
- Legal Services are now being funded under Part B (previously funded under Part A).

HIV Prevention
PS24-0047

CDC funding for HIV prevention is entitled “High-Impact HIV Prevention (HIP) and Surveillance Programs for Health Departments.” Activities are based on the Office of AIDS HIV prevention strategies which are to 1) Strengthen disease investigation infrastructure; 2) Expand and provide navigation services; and 3) Expand access to syringe services for people who inject drugs.

PS24-0047 is a five-year funded grant (August 1, 2024 – May 31, 2029).

Current fiscal year: June 1, 2026 – May 2027

Funded activities (6/1/26-5/31/27):

- HIP/Community-Based Testing - \$744,293
- Social Media - \$80,238
- Data/Evaluation Support - \$38,800

Program Update:

- The GY26-27 Notice of Award was released June 25, 2026 for the total amount of \$1,570,868.

For more information on HIV Prevention services, please visit our [HIV Prevention Services Dashboard](#).

CDC EHE
PS24-0047

CDC Ending the HIV Epidemic funding is part of the federal Ending the HIV Epidemic (EHE) Initiative to reduce new HIV infections in the United States by 75% in the next five years and by 90% in the

next ten years. EHE program activities focus on extending the goals to 1) Diagnose; 2) Treat; 3) Prevent; and 4) Respond.

PS24-0047 is a five-year funded grant (August 1, 2024 – May 31, 2029).

Current fiscal year: June 1, 2025 – May 2026

Funded activities:

- Wrap Around Services for Persons Who Inject Drugs (provide comprehensive testing, navigation services, and linkage to SUD treatment and resources) - \$300,000
- Mobile PrEP (provide PrEP-related medical evaluation and care, testing, and linkage to benefit navigation) - \$265,606
- Routine Opt-Out Testing (ROOT in primary care, urgent care, and emergency departments) - \$350,000
- Getting to Zero Mobile Application (GTZ) and Resource Guide (develop and maintain mobile application and guide) - \$23,500
- Benefits Navigation (help clients enroll in necessary benefits programs, including Medi-Cal, Covered California, ADAP, PrEP-AP, CalFresh, pharmaceutical patient assistance programs, etc.) - \$175,000
- Transgender Services (address the needs of and reduce health disparities for transgender persons) - \$200,000

Program Update:

- The GY26-27 Notice of Award was released June 25, 2026 for the total amount of \$1,829,774.
- HSHB has started procurement planning for next iteration of services.

For more information on CDC EHE services, please visit our [HIV Prevention Services Dashboard](#).

HRSA EHE
25-063

The federal Ending the HIV Epidemic (EHE) initiative focuses on achieving two ambitious goals: a 75% reduction in new HIV infections by 2025 and a 90% reduction in new HIV infections by 2030.

Update May 2026

- HRSA EHE Current Fiscal Year: March 1, 2026-February 28, 2027
- Final Notice of award issued by HRSA on 5/12/2026 and received by the County on 5/20/2026 for a total budget of \$2,837,918.
- Funded activities:
 - Leadership Training and Development: provide leadership training and development to 3 cohorts of 15 persons living with HIV. This activity is being implemented by Christie's Place
 - Medical Advocacy for persons living with HIV implemented by The San Diego LGBT Community Center
 - Community Engagement for AAPI and people over 50 conducted by The San Diego LGBT Community Center
 - Emergency Housing Assistance implemented by La Maestra Family Clinic

- Psychosocial Support Groups in collaboration with Ryan White Part A, implemented by UCSD MCAP
- Housing Supportive Services for HOPWA eligible clients, implemented by Stepping Stonne, Fraternity House, St. Vincent de Paul and Townspeople.
- Request for information meeting on Low Barrier Medical Care held on 5/7/2026
- Planned activities for this fiscal year
 - Expansion of Home Delivered Meals in collaboration with Ryan White Part A that will be implemented by Mama's Kitchen
 - New procurement for Short-Term Rental Assistance

Update June 2026

- Year 6 EHE Carryover request budget to be submitted to HRSA on 6/29/26
- Currently receiving proposals from Ryan White providers to expand retention in care using year 6 Carryover funding
- Planned activities through new procurement and/or amendment
 - Short-Term Rental Assistance
 - Low-Barrier, Low-Demand HIV primary care

Update July 2026

- Year 6 EHE Carryover Notice of Award was received on 7/14/26
- Carryover funding will be added to 5 Ryan White contracts to expand emergency financial assistance, medical transportation and case management.

Status Neutral Approaches 23-126

While there is extensive treatment and prevention infrastructure in the region, there remains a critical service gap for those most vulnerable to HIV. These residents can be difficult to reach through traditional prevention programming. In order to bridge the gap, the County of San Diego is launching a two-pronged Status Neutral Approach or Whole Person Care strategy, including Social Networking Strategies (SNS) and Non-Medical Case Management (NMCM).

Current fiscal year: September 1, 2025 – November 30, 2026

Funded activities:

This is a three-year HRSA grant with \$500,000 annually.

- Social networking strategies - engages community members as recruiters to identify people in their social networks, who are likely to engage in the same behaviors and are unaware of their HIV status. This activity is being conducted by Family Health Centers of San Diego.
- Non-medical case management for HIV-negative individuals - offer HIV-negative individuals vulnerable to acquisition ongoing support through care coordination, services planning, and medical and support services navigation that those living with HIV currently receive through Ryan White. This activity is being conducted by San Ysidro Health.

Program Update:

- A No Cost Extension has been granted through November 30, 2026.

Harm Reduction Services Program
[Harm Reduction Services Program | Engage San Diego County](#)

The goals of the Harm Reduction Services Program (HRSP) are:

1. Reduce transmission of HIV, hepatitis C, and other blood-borne infectious diseases.
2. Decrease the number of fatal overdoses among people who inject drugs.
3. Increase the number of syringes that are safely discarded.
4. Increase community understanding of harm reduction services.
5. Improve the quality of life of people who inject drugs.

Current fiscal year: ongoing

Services:

- Health and risk-reduction education
- Sterile syringe services and used syringe disposal
- Naloxone and fentanyl & xylazine test strips
- Safer smoking and sex supplies
- HIV and HCV testing & linkage to treatment
- Linkage to substance use treatment, mental health services, housing support, self-sufficiency services, and other needed services

Program Update:

HRSP operated with reduced staffing this month due to a vacancy and scheduled absences among staff, volunteers, and interns. Several County staff, including many from HSHB and EISB, assisted in maintaining services.

HRSP recruitment and onboarding efforts continued. The Community Health Worker (CHW) position was posted June 25, and additional interns are scheduled to begin in late August and September. The COPHRI (CA Overdose Prevention and Harm Reduction Initiative) grant from the Sierra Health Foundation was executed on June 18, and which will add Peer Support Specialists to program services by the end of July.

Service levels remained steady, with the team supporting 89 individuals on June 29, including 80 participants and 9 supply-only - this surpassed our previous participant record set in April.

**SERVICE ELIGIBILITY CRITERIA AND SERVICE GUIDELINES
BY SERVICE CATEGORY
FOR RYAN WHITE PART A/B SERVICES**

Approved <>

The Health Resources and Services Administration (HRSA) requires the income eligibility criteria be the same for all Ryan White service categories. Different income eligibility criteria for different services create barriers to receiving care and treatment.

Thus, to be eligible to receive Ryan White Parts A/B services in San Diego County, one must:

- Live in San Diego County
- Have an income at or below 600% Federal Poverty Level (FPL)* (\$95,760 annually for a household of one)
- Have a confirmed HIV diagnosis (except in service categories that permit services to HIV-negative and unaware)
- Have no other payer for the service

All clients must be re-assessed for eligibility every 12 months.

The chart, beginning on page 2, notes service-specific guidelines for each Ryan White service provided in the County.

*The FPL changes every year and is usually published within the first few months of each calendar year. The 2026 600% FPL is \$95,760 annually for a household of one (adjusted for additional family members).

SERVICE SPECIFIC CRITERIA

Service Category/Ranking	Criteria	Limitations	Requires Referral
1.  Outpatient Ambulatory Health Services (OAHS)	No additional guidelines Medical Specialty: Must have a referral from Ryan White HIV Primary Care provider	Emergency room or urgent care services are not considered outpatient settings. There are no annual limits on the number of services provided. Medical Specialty: Requests triaged based on medical necessity, HIV relatedness and urgency. Limited to those services authorized by the County of San Diego HSHB specialty services provider.	• Medical Provider for Medical Specialty
2.  Oral Health Care (Dental Care)	Must have a referral from Ryan White Primary Care provider	Primary dental services are available as medically necessary or as required to treat pain. Dental specialty is limited to procedures to support palliative and medically necessary dental care outside of primary dental care setting. Service specifically excludes dental implants (with four specific exceptions)	• Medical provider • Dental provider for dental specialty service
3.  Mental Health	Counseling and Therapy/Support Groups may be requested or be referred by providers or case manager. Must have a confirmed mental health diagnosis, and/or referral for specialized psychiatric care from a medical or mental health provider	Case is closed when all action items on the care plan are completed, and medical care is stabilized. There are no annual limits on the number of services provided.	• Self-Referral • Medical or Mental health provider for Psychiatric Medication Management
4. Housing	Partial Assistance Rental Subsidy (PARS) Must not receive other subsidized housing, either tenant-based or project-based Because all housing support provided under Ryan White is temporary, a housing transition plan is required to ensure clients maintain housing self-sufficiency at the conclusion of assistance. All clients enrolled in the Partial Assistance Rental Subsidy (PARS) program must also enroll in housing case management. Emergency Housing Eligible to receive RW services.	Partial Assistance Rental Subsidy (PARS) Provides 40% of a client's monthly rental costs not to exceed 40% of the fair-market rent for San Diego County as determined by the U.S. Department of Housing and Urban Development (HUD). Clients shall not receive PARS if they receive tenant-based or project-based rent subsidy including, but not limited to, subsidized low-income housing, or subsidized independent housing associated with any program such as Public Housing, Affordable Housing, HOPWA, or Section 8. Housing services may not: • Be used for mortgage payments • Be in the form of direct cash payments to clients	• Case manager

Service Category/Ranking	Criteria	Limitations	Requires Referral
	Because all housing support provided under Ryan White is temporary, a housing transition plan is required to ensure clients maintain housing self-sufficiency at the conclusion of assistance. Non-Medical Case Management for Housing Eligible to receive Ryan White services Upon intake, all eligible clients will be required to enroll in all available housing assistance waiting lists, including Section 8, Housing Opportunities for Persons with AIDS (HOPWA), and Tenant-Based Rental Assistance (TBRA). Sta A housing plan must be developed within 60 days of enrolling in housing case management and no later than 90 days after enrolling in PARS. The client & case manager should review the plan regularly, and at least every quarter.	Emergency Housing Services prioritize hotel/single room occupancy (SRO) vouchers over rental assistance. Service can be used once in a 12-month period. Service is not available to individuals who: • Receive Housing Opportunities for People with AIDS (HOPWA) funds. • Receive a tenant-based or project-based rent subsidy including, but not limited to, subsidized low-income housing, or subsidized independent housing associated with any program such as Public Housing, Affordable Housing, Section 8, HOPWA, or PARS rental assistance. • Have previously been terminated from receiving emergency housing assistance or tenant-based rental assistance, have violated program guidelines in their use of emergency housing funds, or have been identified as ineligible for services. • Can include sober living and assisted living. Housing services may not: • Be used for mortgage payments • Be in the form of direct cash payments to clients Non-Medical Case Management for Housing Housing case management does not provide support or guidance for accessing other services, and it is required that housing case managers closely coordinate client needs outside of housing with medical or non-medical case managers as part of a treatment team approach.	
5.  Substance Use Treatment: Outpatient Care	Cannot currently be in a residential substance abuse treatment program	Case is closed upon successfully completion of treatment and client chooses not to participate in any other aftercare program activities. There are no annual limits on the number of services provided.	
6.  Medical Case Management Services	Limited to individuals who are unable to access or remain in HIV medical care as determined by medical care managers based on whether: • Client is currently enrolled in outpatient/ambulatory health services • Client is following his/her medical plan	Services are not intended for individuals who are able to access and remain in HIV medical care. Case is closed when all action items on the care plan are completed, and medical care is stabilized. There are no annual limits on the number of services provided.	

Service Category/Ranking	Criteria	Limitations	Requires Referral
	- Client is keeping medical appointments - Client is taking medication as prescribed		
7. Non-Medical Case Management Services	Must demonstrate ability to access or remain in HIV medical care	Services are not intended for individuals who are unable to access or remain in HIV medical care. Case is closed when all action items on the care plan are completed, and medical care is stabilized. There are no annual limits on the number of services provided.	
8. Referral for Health Care and Support Services	Must currently be receiving case management, non-case management, mental health, substance abuse or outreach services	Services focus on linkage or re-engagement in care and are not intended to be ongoing.	- Self-Referral - Case manager - Early Intervention Services
9. Childcare Services	Available for children living in the household of individuals with a confirmed HIV diagnosis and their affected family members while attending medical visits, related appointments, and/or Ryan White-funded meetings, groups, or training sessions.	For children from infancy through 12 years of age. Services are also available, if permitted at the appointing clinic, for parents and caregivers attending medical, dental, and mental health care appointments, including support groups, on-site childcare is prioritized for appointments, so family members can access support service needs. It may be available for other purposes as determined appropriate. For parents and caregivers utilizing on-site services, at least one parent or caregiver must remain on-site.	Case manager
10. Food Bank/Home Delivered meals	Must be physically and/or mentally incapable of preparing own meals to qualify for home delivered meal services. Individuals who can prepare meals may still be eligible for food vouchers and food bank services	Services do not provide: Permanent water filtration systems for water entering a home; Household appliances; Pet foods Other non-essential products. Case is closed when the service is deemed no longer medically necessary. There are no annual limits on the number of services provided.	- Case manager - Medical provider
11.  Medical Nutrition Therapy	Must be referred by a medical provider	Case is closed when all action items on the nutrition plan are completed, and medical care is stabilized. There are no annual limits on the number of services provided.	Medical provider

Ryan White Programs (RWP) Parts A/B
Regional Service Availability**

May 7, 2026

The table below identifies **service gaps** in availability for **only** those services funded by the Ryan White Programs (RWP) Parts A/B. ***If RWP services are not available* in specific areas, they may be accessed in other regions of the county.*** Additionally, non-Ryan White funded services may or may not be available through other community resources.

A RWP service is considered to be not available in a region if it is: 1) not available at a provider site in the region; 2) not out stationed in the region; and 3) not available in a client's home.

The following RWP services are currently **not** available in the given regions:

Region(s)*	RWP Parts A/B funded services <u>not</u> available
Central/ North Central/ Southeast	• All services available
East	• Substance Use Treatment Services (Residential)** • Substance Use Treatment Services (Outpatient) • Minority AIDS Initiative (MAI)
North Coastal/ North Inland	• Substance Use Treatment Services (Residential)** • Substance Use Treatment Services (Outpatient) • Minority AIDS Initiative (MAI)
South	• Substance Use Treatment Services (Residential)**

*County of San Diego Health and Human Services Agency (HHSA) defined regions. See reverse side for map

**Substance Use (Drug & Alcohol) Treatment Services (Residential) are available countywide, regardless of the regions in which clients reside because clients will reside at the service site while they are in treatment.

Overall Findings

- Prevalence: Total PLWH² in San Diego County: **14,783**
- Recent Cases¹ (2021-2025): **2,192** (*subset of the total/prevalent cases*)
- People aged 20-39 make up the most cases in the county (*age at time of diagnosis*): **62.7%** (n=1,374)
- Notably, an increase in age for PLWH is being observed, depicted by the green bars. Nearly **50%** of PLWH are aged 50-69, and **10%** of PLWH are aged 70+

Figure 2. Age* Group of HIV cases,
San Diego County

- **15%** (n=329) of all recent cases were females (current gender)
- Females (PLWH) make up **10%** of total HIV cases (n=1,478)
- The largest proportion of recent cases (**39.1%**) were in the Central Region (n=856), followed by the South Region at **21.3%** (n=467)

Figure 5. Race and Ethnicity* of HIV Cases,
San Diego County

¹ **Recent Cases** = HIV disease diagnosis, regardless of stage of disease, between 2021 and 2025 while residing in San Diego County

² **Persons Living with HIV disease (PLWH)** = Residing in San Diego County and alive as of December 31, 2025

³ **Late Testing** = having an AIDS diagnosis soon after HIV diagnosis, assuming the patient is further along in infection process

- The majority of recent HIV diagnoses were **people of color**
- The proportion of **Non-Hispanic White** cases decreased over time, while the proportion of **Hispanic/Latino** cases increased over time
- Latine PLWH make up **54%** of all recent cases (n=1,183)

Figure 6. Transmission Risk of HIV Cases, San Diego County

- The largest proportion of recent cases were men who have sex with men (**48%**, n=1,052)
- **10%** of all cases are among people who identify as heterosexual
- Late testing³ generally increases with age, and the South Region along with people who inject drugs (PWID) have the highest percentages of simultaneous diagnosis.

2026 Key Data Findings
Care Continuum/Viral Suppression
Approved <date>

Data Source: Data is provided from CDPH, Office of AIDS, and contains data up to 12/31/2025

Definitions

Care Continuum (aka Continuum of Care) includes:

1. **Receipt of care** (sometimes called “Linkage to Care” or “In Care”): of those diagnosed with HIV disease, persons who had ≥ 1 CD4 or viral load (VL) tests in 2024
2. **Retention in care**: of those diagnosed with HIV disease, persons who had ≥ 2 CD4 or viral load tests at least 3 months apart during 2024
3. **Viral suppression**: of those diagnosed with HIV disease, persons virally suppressed (<200 copies/mL) at most recent test during 2024

Care Continuum/Viral Suppression Overall

- “In care” for all persons living with HIV (PLWH) = **75%** (up from 70% from the previous year)
- “Retained in care” for all PLWH = **50%** (up from 47% the previous year)
- **Viral Suppression** of all PLWH in San Diego County was **62%** (up from 58% the previous year) which includes those without a VL test on record
 - For Ryan White (RW) clients, viral suppression was **93%** (for those who had a VL test on record)

Viral Suppression by Gender

- Viral suppression was similar between **cisgender men (73.8%)** and **cisgender women (71.5%)**
- Viral Suppression among **Transgender women** (n = 134) was **63%** (up from 53% previous year)

Viral Suppression by Race/Ethnicity

- African American/Black PLWH had the **lowest viral suppression (68%)** (up from 48% the previous year)
- Among **RW Clients**, viral suppression was high across racial groups: African American/Black (91%), White (94%), Latine (93%)
- **Asian PLWH** (n=489) had the highest viral suppression (**78%**)

Viral Suppression by Age

- Viral suppression increased with age, reaching **81% among PLWH aged 65 years and older** (n = 2,421), compared to **68% among adults aged 25–44**
- **PLWH under the age of 12** (n=61) had the lowest viral suppression of **64%**, while RW clients in the same age group achieved 100% viral suppression

Transmission Risk by Category

- **People who inject drugs (PWID)** had a lower viral suppression (**69%**) than other transmission groups
- **Men who have sex with men (MSM)**, the largest transmission group (n=8,934), had a viral suppression of **75.3%**
- Among those with a VL test, viral suppression exceeded 85% across all transmission risk groups

Clients In Care

- Adults **aged 20-29** have the highest percentage of **in-care rate** (88%; n=680)
- Adults **aged 70 and older** were the lowest in care at 76%
- **Latine/Hispanic** (n=6,707) had the lowest in-care rate (**77%**), followed by **Black/African American** individuals (79%; n= 1,720)
- **MSM + PWID** (n=891) had **the highest in-care rate (84%)**, followed by **MSM** (82%; n=10,101)
- **PWID** (n=765) had **the lowest in care** at 72%
- People residing in the **South Region** (n=2,861) had the **lowest in-care rate (74%)**, while those in the **East Region** (n=1,436) had the **highest (87%)**
- **Central Region** (n=6,493) had the highest **in-care rate of 81%**

Revised Key Data Findings
2026 Co-Occurring Conditions/Poverty/Insurance

Data regarding co-morbidities or co-occurring disorders is important to the delivery of services for people living with HIV disease (PLWH) for all the following reasons:

- Co-occurring health conditions make providing medical care more complex, require greater provider expertise, and **increase the cost of care** for PLWH.
- PLWHs who live with other health conditions often have many service needs, so case managers and other service providers may need to spend more time with fewer clients.
- Substance use, homelessness, and mental illness can **interfere with HIV care**, treatment, and medication adherence.
- When a PLWH has tuberculosis (TB), a sexually transmitted infection (STI), or hepatitis, both the person's HIV and the other disease(s) can **progress faster** and have more serious effects.
- STDs make it easier for a PLWH to **transmit HIV** to someone else.
- Support services keep PLWH in care and improve medical outcomes, especially those of women, African Americans, and persons with lower incomes.

Notes:

- Research reveals higher incidences of additional co-occurring conditions for PLWH, including gastrointestinal diseases, circulatory diseases, endocrine/nutritional/metabolic diseases (including diabetes), nervous system diseases, and neoplastic diseases (cancer, lymphoma).
- Women living with HIV experience an increased incidence of some HIV-related conditions, including gynecological conditions such as genital herpes, pelvic inflammatory disease, human papillomavirus, and candida; additionally, there is an increased incidence of diabetes, heart disease, hepatitis C, cancer, mental illness, and substance abuse.
- PLWH 50 years of age or greater experience an increase in age-related diseases; causes of morbidity and mortality for older PLWH include non-infectious comorbidities, such as cardiovascular disease, hypertension, bone fractures, chronic kidney disease, liver disease, diabetes mellitus, and non-AIDS-defining cancers. Many of the age-related diseases are seen in the population greater than 50 years of age PLWH approximately 10 years earlier than in the general population. ^{15, 16, 17}
- Most research on substance use as it relates to HIV has focused on HIV acquisition, rather than substance use patterns among PLWH. Generally, PLWH with HIV are more likely to experience substance use disorders than those without HIV. PLWH have higher rates of consistent and former use of tobacco, inhalants, methamphetamine, cocaine, and heroin than those without HIV. Most significantly, they are 45 times more likely to have used inhalants in the last year and 16 times more likely to have used methamphetamines in the last year than people without HIV. They are also more likely to have polysubstance use.²¹ Substance use is associated with increased prevalence of several acquisition behaviors, such as condomless sex, needle sharing, and decreased PrEP and ART adherence.²²

SENATE BILL (SB) 707: THE USE OF JUST CAUSE (2026)

(An Amendment to AB 2302)

If the physical attendance quorum requirement is met, SB 707 permits a member who is not physically present to request virtual attendance at the local legislative body's meeting under "just cause".

Qualifying Reason	Provisions to Attend Remotely	Requirements /Limitations
"Just Cause"	▪ Childcare or caregiving need of a child, parent, grandparent, grandchild, sibling, spouse, or domestic partner that requires them to participate remotely. ▪ A contagious illness prevents the member from attending the meeting in person. ▪ A need related to a physical or mental condition not otherwise accommodated by any reasonable accommodations provided. ▪ Travel while on official business of the legislative body or another state or local agency. ▪ An immunocompromised child, parent, grandparent, grandchild, sibling, spouse, or domestic partner of the member that requires the member to participate remotely. ▪ A physical or family medical emergency that prevents a member from attending in person. ▪ Military service obligations that result in a member being unable to attend in person because they are serving under official written orders for active duty, drill, annual training, or any other duty required as a member of the California National Guard or a United States Military Reserve organization that requires the member to be at least 50 miles outside the boundaries of the local agency.	A member is limited to two (2) virtual attendances due to "just cause" per calendar year.

Note: The criteria for "emergency circumstance" from AB 2302 are now combined with "just cause" for remote participation.

Additional Information for Members Participating Remotely

In addition to making a request for "just cause" for remote attendance, SB 707 imposes the following three (3) additional requirements on legislative body members seeking to appear remotely at public meetings:

1. The member shall notify the support staff at the earliest opportunity possible, including at the start of a regular meeting, of their need to participate remotely for just cause, including a general description of the circumstances relating to their need to appear remotely at the given meeting.
2. The member shall publicly disclose at the meeting before any action is taken, whether any other individuals 18 years of age or older are present in the room at the remote location with the member, and the general nature of the member's relationship with any such individuals.
3. The member shall participate through both audio and visual technology.

Furthermore, a member of a legislative body may request reasonable accommodation, pursuant to the applicable law, to participate in meetings remotely. Remote participation due to reasonable accommodation shall be treated as in-person attendance (counting towards quorum) and shall adhere to the following requirements:

1. The member shall request reasonable accommodation to participate remotely at the time of quorum check prior to each meeting.
2. The member shall participate through both audio and visual technology. Any member with a disability, as defined in Section 12102 of Title 42 of the United States Code, may participate only through audio technology if a physical condition related to their disability results in a need to participate off camera.
3. The member shall disclose at the meeting before any action is taken, whether any other individuals 18 years of age or older are present in the room at the remote location with the member, and the general nature of the member's relationship with any such individuals.
