## Ending the HIV Epidemic: A Plan for America

HHS is proposing a once-in-a-generation opportunity to eliminate new HIV infections in our nation. The multi-year program will infuse 48 counties, Washington, D.C., San Juan, Puerto Rico, as well as 7 states that have a substantial rural HIV burden with the additional expertise, technology, and resources needed to end the HIV epidemic in the United States. Our four strategies – diagnose, treat, protect, and respond – will be implemented across the entire U.S. within 10 years.

### GOAL:

**75%**  
reduction  
in new HIV  
infections  
in 5 years  
and at least  
**90%**  
reduction  
in 10 years.

HHS will work with each community to establish local teams on the ground to tailor and implement strategies to:

**Diagnose** all people with HIV as early as possible.

**Treat** people with HIV rapidly and effectively to reach sustained viral suppression.

**Prevent** new HIV transmissions by using proven interventions, including pre-exposure prophylaxis (PrEP) and syringe services programs (SSPs).

**Respond** quickly to potential HIV outbreaks to get needed prevention and treatment services to people who need them.

The Initiative will target our resources to the 48 highest burden counties, Washington, D.C., San Juan, Puerto Rico, and 7 states with a substantial rural HIV burden.

### Geographical Selection:

Data on burden of HIV in the US shows areas where HIV transmission occurs more frequently. More than 50% of new HIV diagnoses\* occurred in only 48 counties, Washington, D.C., and San Juan, Puerto Rico. In addition, 7 states have a substantial rural burden – with over 75 cases and 10% or more of their diagnoses in rural areas.

\*2016-2017 data

Ending  
the  
HIV  
Epidemic

[www.HIV.gov](http://www.HIV.gov)

AS OF DECEMBER 31, 2019

34,800 estimated  
new infections

1.2 million living  
with HIV

## Four Goals:

- Prevent new HIV infections
- Improve HIV-related health outcomes of people with HIV
- Reduce HIV-related disparities and health inequities
- Achieve integrated, coordinated efforts

## NINE INDICATORS

↓ Unaware

↓ New HIV  
Infections

↓ New HIV  
Diagnoses

↑ PrEP Coverage

↑ LTC for Newly  
Diagnosed < 30  
days

↑ Viral  
Suppression\*

↓ Stigma

↓ Homelessness

↑LGBTQ-  
supportive policies  
in secondary  
schools

“...not every objective or strategy will speak to or be actionable by all readers...”

## PRIORITY POPULATIONS

Black MSM

Hispanic  
MSM

Transgender

Women

Youth and  
Young Adults

Persons who  
Inject Drugs

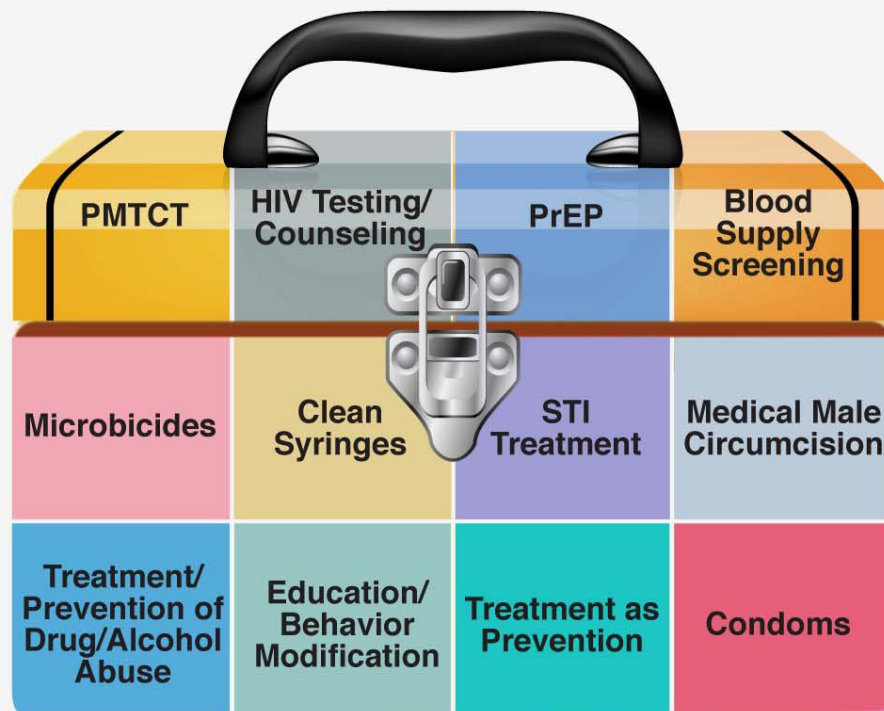

Aging Adults

## Treatment

## Prevention

## INTEGRATED PLAN
