Dear Ms. Baass:

On behalf of the County of San Diego, Health and Human Services Agency (HHS), we are pleased to provide this Letter of Support (LOS) for UnitedHealthcare Community Plan of California's Request for Proposal (RFP) submission for a Managed Care Plan (MCP) to the Department of Health Care Services (DHCS).

In 2021, the County of San Diego Board of Supervisors committed to a bold *Framework for the Future* built on health equity, social and environmental justice, sustainability and government transparency. The County developed LOS requirements based on core values of the *Framework* along with input from County Departments and a local community advisory group, and published guidelines and instructions in a dedicated section of the HHS website

<https://www.sandiegocounty.gov/content/sdc/hhsa/programs/ssp/CalAIM.html>.

To receive an LOS, applicants must commit to meeting requirements in the following key categories:

- Meaningful Coordination, Collaboration and Transparency
- Enhanced Care Management Data Sharing
- Person-Centered Care Coordination
- Data Sharing/Information Technology and Infrastructure

UnitedHealthcare affirmed its commitment to being an active partner in the County's health and social delivery systems by entering into a Memorandum of Agreement with the County of San Diego HHS. UnitedHealthcare has attested that they meet the requirements for an LOS in the four categories listed above. The County of San Diego has reviewed, vetted, and endorses UnitedHealthcare in their proposal to the DHCS.

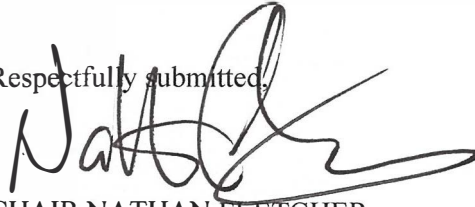

If awarded, UnitedHealthcare commits to provide to eligible Medi-Cal members and citizens of San Diego, person-centered care, focusing on equity, access, accountability, and transparency. Members will receive holistic care that considers social drivers of health, cultural and linguistic differences, and physical and behavioral needs throughout a member's life span.
