## PRESERVATION OF ROADWAY MAINTENANCE LEVELS: STREET SWEEPER

### Section F.

1. Project Description: This project would include the purchase of a replacement Street Sweeper in the County of San Diego Southern Maintenance Division (Division I, South County). A Street Sweeper, also commonly referred to as a sweeper, is a type of heavy engineering equipment used to sweep debris (human litter, natural, or otherwise) from County Maintained Roads. Sweepers used in the County of San Diego perform the important task of keeping the roads clear of debris, thus improving roadway operation for the driving public, as well as assisting the County's efforts to minimize or prevent stormwater pollution.
2. Relationship between the project and impacts from casinos: The major and minor interconnecting roads adjacent to Casino operations have doubled in roadway traffic volumes in conjunction with enhanced casino operations in the last decade. This increase in traffic corresponds to an increased amount of litter and human-caused debris on the roadways. The increased debris and litter results in an increased requirement for road sweeping. An additional new sweeper will help keep the County Maintained Roads near and adjacent to the Barona and Sycuan reservations cleaner and in better operating condition.

The addition of this replacement sweeper will greatly assist the County in meeting its customer, stormwater, and general public health and safety needs on County Maintained Road System.

3. Mitigation of Impacts: A new sweeper will assist the County in collecting and removing additional trash and debris resulting from the related increase in traffic that is generated on the roads to the Casinos. Sweepers greatly benefit the road-related public health and safety, assist the County in meeting its environmental goals and regulatory requirements, and offer general customer service and aesthetic benefits for Casino patrons as well as the residents of San Diego County.

**Section M**

**NOTICE TO THE PUBLIC THAT THIS PROJECT RECEIVED FUNDING FROM THE INDIAN GAMING SPECIAL DISTRIBUTION FUND**

- 1.) The purchased equipment shall be branded with a clear and understandable logo informing the community that the equipment was funded through grant money made available from the Indian Gaming Special Distribution Fund. It should be noted that sweepers are used more frequently on our more active roads, and the logos and notice (similar to what is on the motorgrader previously provided by Barona and Sycuan) will be observed by hundreds, if not thousands, of road users and residents each work day as the sweeper conducts its work.
