CAO Recommended Operational Plan Message

The County of San Diego is Invested in Community.

Our new budget, the services we provide, and our work are all built on community input—your input. From community meetings to surveys, to interacting online, we value and use your help to shape the services that all San Diegans rely upon.

The budget is built on the values written in our County General Management System – belonging, equity, access, sustainability, integrity and excellence.

And it addresses issues that are important to us all. Homelessness, building healthy and safe communities, investing in working families, mental health and substance use disorders, sustainability and justice reform.

In sum, it continues to build a just, sustainable and resilient future for all San Diegans. This recommended budget has money to help build affordable housing. And it will increase services and housing to help people, including families, seniors, veterans and the LGBTQIA+ community, who are experiencing homelessness.

It increases money and staffing for safety net programs including CalWorks, CalFresh and MediCal. It has increased funding to help people with behavioral health issues, to expand public health and help seniors, children and families. It includes money to increase treatment for mental health and substance use disorders, to address climate change, take environmental action and help foster children.

It continues to invest in an equitable justice system. It dedicates money and staffing to help keep young people out of the criminal justice system through alternatives to incarceration like job training, mental health and substance use treatment, and permanent housing. It has money for drug courts, homeless courts, reentry courts and veteran courts.

The budget also continues to build to improve our communities. It will build “One Safe Place South: The South County Family Justice Center” to match the one opened last year in North County. It will build a new Jacumba Fire Station and a new 52,000 square-foot, state-of-the-art Public Health Laboratory.

As I retire this year after 25 years of serving the County of San Diego, this is the last recommended budget that I have the honor to submit. It is one that I am proud to bring to you and our Board of Supervisors. I am confident that this budget and our new generation of County leaders will continue to build a better San Diego. A County and a future that is Invested in Community.

Budget Equity Assessment Tool

To advance equity, each County department uses a questionnaire to ensure their respective budgets positively impact historically marginalized, vulnerable communities and people.

Budget Process and Timeline

The Chief Administrative Officer (CAO) submits a recommended budget to the Board of Supervisors in May. After budget presentations at Board and community meetings, public hearings take place. Throughout the process, the public may give their feedback. A revised budget is prepared. In late June, the Board deliberates and adopts a budget.
