- F. **Prioritization of this Meeting's Agenda Items**
- G. **Organized / Special Presentations**
 1. The County of San Diego Dept. of Public Works proposes improvements to prevent scour from occurring under the footings for Willows Road Bridge. The 400 foot long bridge was constructed in by Caltrans in 1933. In November 2000 Caltrans conducted a bridge scour evaluation that resulted in classification of Willows Road Bridge as "scour critical" (i.e. vulnerable to scour). Hydraulic and scour evaluations indicate that a 100-year flood event is expected to result in scour below the existing footings of the bridge, several of which are known or suspected to be located between 1 and 12-feet above non-scourable bedrock. These footings are therefore susceptible to scour below the footings, which could undermine the integrity of the bridge. Footings at each of the piers will be retrofitted to prevent scour by construction of piles extended into the bedrock around the perimeter of each footing to effectively deepen and strengthen the foundation of the bridge. Construction is expected to begin fall 2017 and be completed in spring 2018 and is estimated to cost approximately \$2.8 million. The project is fully funded by Federal Highway Administration grant funding through the Caltrans Highway Bridge Program. The county is requesting a recommendation from the ACPG regarding the proposal to complete these improvements. **Presentation, Discussion, & Action.**
- H. **Group Business:**
 1. ACPG Seat #13 vacancy – Candidates interested in filling the vacancy are invited to make a presentation of qualifications (up to 5 minutes) to ACPG. ACPG may consider making a recommendation for filling this vacancy. **Presentation, Discussion, & Action.**
