E. ACTION ITEMS (Agenda items may be taken out of order upon request):

1. **NOVEMBER 9TH VIRTUAL PUBLIC MEETING TO HELP IDENTIFY ENVIRONMENTAL JUSTICE COMMUNITIES WITHIN THE UNINCORPORATED REGION:** The County is requesting public input to expand the identification of "Environmental Justice Communities". Discussion and potential action. Meeting starts at 6 PM via: <https://bit.ly/COSDEJElementWorkshop> . Contact: Denise Vo: PDS.LongRangePlanning@sdcounty.ca.gov ; 858-505-6677. Project website: <https://sandiegocounty.gov/content/sdc/pds/longrangeplanning/ejcriteria.html> .
2. **ROUNDUP SPRAYING ALONG OLD HWY 80 AND OTHER LOCAL ROADS:** Public concerns have been raised with the current spraying of the weed killer Roundup and the potential for runoff concentration into local drainages and groundwater. While the EPA and FDA have concluded that glyphosate is safe for human use, the the International Agency for Research on Cancer categorizes glyphosate as possibly carcinogenic to humans—essentially saying it may cause cancer. Should the County be contacted with a request to use less toxic weed killer options in groundwater dependent areas?
3. **PRIVATE PONDS / LAKES:** Currently, it is not unlawful for private property owners to use finite groundwater to fill vanity lakes / ponds regardless of the potential for adverse impacts on adjacent property owners / wells. In light of recent allegations of adverse impacts to neighbors' wells, should authorities be contacted to request exploring potential regulation options in regards to vanity bodies of water that are filled / supplemented with well water in groundwater dependent areas, especially during extended drought conditions?
