3. Property Specific Requests (PSRs) General Plan Amendment & Rezone (GPA12-005; REZ14-006) – CPG Review of 4 PSR Analysis Areas in Fallbrook. Project Description: During the hearings of June 20, and June 27, 2012, the Board of Supervisors (Board) directed staff to process a General Plan Amendment (GPA) to analyze 47 separate PSRs along with their associated study areas (added for mapping consistency). Four PSRs were handled in a separate process and approved by the Board in 2014 and a fifth PSR was withdrawn in 2016, leaving 42 remaining PSRs. A PSR is a request/petition to the Board to change the General Plan land use designation. In cases where multiple PSRs were in the same area and proposing the same or similar change, with a common study area, these PSRs and study area were grouped together in what's referred to as an analysis area. PDS staff will be providing some preliminary analysis of the four Fallbrook PSR analysis areas and soliciting any input from the CPG (links to analysis to be sent prior to meeting). In addition to providing any project recommendations for each Analysis Area, the CPG can provide input on a potential land use map alternative for each Analysis Area, (for analysis in the Subsequent Environmental Impact Report). Additional information on the project along with information on the four Fallbrook PSR analysis areas (FB2+, FB17, FB19+, and FB21+) can be found on the project web page at - <http://www.sandiegocounty.gov/content/sdc/pds/advance/PSR.html>.
