   d) Status of vacant/vacating positions. Chair will be preparing advertisements for the vacant positions.

7) SUB-COMMITTEE REPORTS
   a) Mobility – Coultas reports that there is a Board of Supervisors’ agenda item that would provide for $1,000,000 for improvements to Old Highway 395 in the Bonsall Area. The Hidden Meadows Sponsor Group has also requested improvements to this road as it runs through the area but has gotten no response.
b) Trails & Parks – Coultas reports that there is nothing new to report.

c) Meadow Lake Golf Club – Dauber reports that he will put an article in the Meadowlark, and passed the article to the members. Course will be shorter by about 5 strokes which makes it shorter than a full length course, but longer than an executive course. Coultas asked if there is a time line. Dauber mentions that the next step is to meet with the Fire District. Chagala adds that there is no filing with the County and therefore no timeline.

8) PUBLIC REVIEW / ACTION ITEMS

a) DEH-00102. On-Site Wastewater Treatment Systems. Notice of intent to adopt a negative declaration for Onsite Wastewater Treatment Systems (OWTS) – Amendment to County Code of Regulatory Ordinances to Implement San Diego County Local Agency Management program for OWTS. Chair indicates that there are some technical changes to the County Code, but he did not send the information out to the Group. Chagala indicates that it primarily focuses on the use of alternative septic systems which now are not permitted. Chair suggests there are two courses of action: he can send the information out and let individuals comment on their own, or we just communicate to the County that we have no comment. Decision is made that the information will be sent out and if any member feels the Group should comment, it can be brought up at the next meeting. Chagala mentions that this is a request for comments on the Notice of intent to adopt a negative declaration so he supports the suggestion, but also indicates that this is an important issue in that there are many septic systems in the Planning Area.

b) Project Cornerstone presentation. Project Cornerstone is a San Diego-based grassroots organization dedicated to educating the public about the importance of local construction aggregate resources like sand, gravel and crushed stone. Chair indicates that the organization is double booked for tonight and asks that it be placed on the February Agenda.

c) La Mesa RV Presentation. Potential relocation of headquarters to the vicinity of Mountain meadow Road and Center City Parkway. La Mesa RV is looking at this location as a possible site for their headquarters. Presentation will likely be 3-4 months down the road.

d) Newland Development. Chair announces that Newland has put together its latest updates and he will get a link out to the Group so that the dropbox can be accessed.
