

**County of San Diego
Ramona Community Planning Group
FINAL MEETING MINUTES
August 6, 2020
CONFERENCE CALL MEETING
(DETAILS)**

7:00 PM @ the Ramona Community Library, 1275 Main Street, Ramona

**Meeting shall be a public telephone conference call held at 7:00 P.M
Call Number: 978-990-5330
Access Code: 8612750**

A Temporary email address has been created to request agenda item information via email.

Please send an email to: rcpgcovid19meetinginfo@gmail.com to request documents for each item to follow along with during the teleconference.

Requests for documents will be responded to before and during the meeting as possible to accommodate any member of the public wishing to participate during the meeting.

Members of the public are requested to make a speaker request via email prior to the meeting as well. This request is to ensure everyone is heard and has an equal opportunity to speak during the meeting as well as providing the RCPG a chance to organize our speakers ahead of the meeting to ensure we have ample time for each item. Please indicate if you are speaking as PUBLIC COMMUNICATION or as an AGENDA ITEM and note the agenda item you wish to respond to and please limit your written response to 3 minutes or less.

Written comments to be read into the record will also be accepted via email prior to the meeting. Please indicate the item number you wish to respond to and please limit your written response to 3 minutes or less.

ITEM 1: PLEDGE OF ALLEGIANCE

ITEM 2: ROLL CALL (Lynch, Chair)

In Attendance:	Torry Brean	Jim Cooper	Scotty Ensign
	Debbie Foster	Lynn Hopewell	Casey Lynch
	Kristi Mansolf	Robin Joy Maxson	Donna Myers
	Elio Noyas	Dawn Perfect	Paul Stykel
	Dan Summers	Richard Tomlinson	Kevin Wallace

Absent: *None*

Casey Lynch, RCPG Chair, acted as Chair of the meeting, Robin Joy Maxson, RCPG Vice-Chair, acted as Vice-Chair of the meeting, and Kristi Mansolf, RCPG Secretary, acted as Secretary of the meeting.

ITEM 3: SEATING OF NEWLY ELECTED/APPOINTED RCPG MEMBER, DEBRA FOSTER TO SEAT 1, REPLACING THE SEAT LEFT VACANT BY CHRIS HOLLOWAY

The Chair welcomed and swore-in newly appointed RCPG member Debbie Foster.

ITEM 4: APPROVAL OF MINUTES 7-2-20 (Action)

MOTION: TO APPROVE THE MINUTES OF JULY 2, 2020.

Upon motion made by Robin Maxson and seconded by Lynn Hopewell, the motion **passed 14-0-1-0-0**, with Donna Myers abstaining.

ITEM 5: Announcements and Correspondence Received

Ms. Mansolf announced that the Registrar of Voters would be closing the opportunities for candidates to sign up in the election the next day, Friday, August 7, at 5 pm.

The Chair announced that he was going to run for the RMWD, to represent his area, because he thought no one would be representing his area, but now Jeff Lawler has signed up for the RMWD seat, so the Chair will be running for the RCPG seat.

ITEM 6: PUBLIC COMMUNICATION:

CALL FOR ANY ADDITIONAL SPEAKERS

CO-CHAIR SHALL ANNOUNCE EACH SPEAKER REQUEST BY NAME, THE SPEAKER SHALL STATE THEY ARE ON THE CALL AND BEGIN. THE TIME LIMIT IS 3 MINUTES AND THE CHAIR SHALL CALL TIME AT THE END OF 3 MINUTES AND THE SPEAKER WILL STOP ON THE CALL.

Opportunity for members of the public to speak to the Group on any subject matter within the Group's jurisdiction that is not on posted agenda.

ITEM 7: APPROVAL OF ORDER OF THE AGENDA (Action)

MOTION: TO APPROVE THE ORDER OF THE AGENDA.

Upon motion made by Torry Brean and seconded by Dan Summers, the motion **passed 15-0-0-0-0**.

ITEM 8: ACTION ITEMS:

8-A: ABC 20-003, AL California LLC ABC License for Aldi Market, NWC Main St and 16th St., 215 16th St., Grocery store including off-site sales of beer and win

Skip Janes, representing the Aldi Market project, said they plan to break ground in the fall of this year and hope to open beginning to mid second quarter of 2021. The size of the property for the project is 2.5 acres. The overall building will be 19,900 square feet of which 96 square feet will be for the selling of beer and wine for home consumption. They will have about 130 types of wines and about a dozen types of beers for sale. They sell beer and wine due to demand and because it complements grocery sales. Right now due to Covid-19 they have had to make adjustments, and they are also using adjusted hours to better assist the senior population. They will be coming back for the mural and project sign in the future.

Mr. Brean said the CUDA Subcommittee approved the project. One of the questions/suggestions from the subcommittee was for Aldi to consider selling Ramona wines.

Mr. Ensign said that regarding the signage, that aspect of the project will go to the Design Review Board. The mural will go to the Mural Association and then to the Design Review Board.

Mr. Stykel asked if we had approved the project in the past?

The Chair said the project had been approved but the ABC License was not included in the approval.

MOTION: TO APPROVE AS PRESENTED.

Upon motion made by Torry Brean and seconded by Dan Summers, the motion **passed 15-0-0-0-0.**

8-B: Recirculation of the Draft Mitigated Negative Declaration for the Boulder Oaks Preserve Improvement Project – Recirculation of Section XX (Wildfire). Project is located 5 miles south of SR-67 and west of Mussey Grade Rd. and encompasses approximately 2,000 acres. Project proposes improvement to the Boulder Oaks Preserve in preparation of opening the preserve to the public for day use. Public comments due 7-29-20 (notice dated 6-30-20)

Lorrie Bradley, an environmental planner with the County, presented the project. The Boulder Oaks project has been in the making for 7 years. Improvements to Boulder Oaks for day use are being planned. Currently the park is not open to the public. They are adding ADA parking spaces, one equestrian staging area, 2 vehicle staging areas and renovated restrooms and fencing.

The southern portion of the property was purchased in 2007 and the northern portion of the property was purchased in 2012, and the park will be about 2,000 acres. They have worked with the Mussey Grade Road Alliance (MGRA) and the Latter-Day Saints (LDS) camp on the Boulder Oaks project. There will be 13.9 miles of total trails, existing and new. On site they plan to have volunteers to help oversee the park and a park ranger. They are planning for low intensity usage. There will be 32 parking spaces. Of those 8 will be equestrian parking spaces.

Mr. Noyas gave the South Subcommittee report. He said there were 4 subcommittee motions from the meeting. He would like everyone to speak first, as the information will be more in-depth from the speakers. When the information is put together, it changes the scope. One thing the South Subcommittee wanted to see was for Boulder Oaks to be closed on National Weather Service (NWS) Red Flag Warning Days. It was mentioned that 32 spots for parking is probably not enough. They would like to see permits issued online for parking ahead of time, then if the park was closed, the public would know before coming. The speakers are not looking to stop the project but to make it better.

Speaker: Diane Conklin, Ramona Resident

Ms. Conklin asked that the RCPG support the recommendations on the Recirculated Draft Mitigated Negative Declaration (MND) made by the South Subcommittee. She is the spokesperson for the MGRA and will be introducing the MGRA speakers. Mussey Grade is a deadend road. The MGRA defeated the Sunrise Powerlink from coming through Ramona. Ms. Conklin introduced Joseph Mitchell, fire expert. He created the Wind Enabled Ember Dowsing System (WEEDS). He has his PhD in high energy physics.

Speaker: Joseph Mitchell, Ramona Resident

Mr. Mitchell said he is a Kimball Valley Road resident. Mussey Grade Road lost two-thirds of the homes on lower Mussey Grade Road in the 2003 Cedar Fire. There are evacuation issues down Mussey Grade Road, with hundreds to evacuate. The Recirculation of the Draft MND came about because of comments made by the MGRA on the original MND for Boulder Oaks. He believes the park should be closed on NWS Red Flag Warning Days. The Rohde and Associates, Boulder Oaks Fire Operations Assessment shows a fire from Holly Oaks reaching Mussey Grade Road in one hour. In the Cedar Fire there were no firefighters down Mussey Grade Road. No evacuation study has been done yet, and they would like to see a full EIR, and a full fire and evacuation study done for the Boulder Oaks Preserve.

Speaker: Chris Meador, Ramona Resident

Mr. Meador's property borders Boulder Oaks for 4,000 feet. It is the only home overlooking the preserve. He feels the fire safety plan falls short. One scenario not planned for is no firefighters on the scene in a wildfire situation. In 2003, his father got lost during the evacuation. There were no fire personnel around. He found one police officer but no other emergency responders. An east, Santa Ana wind driven fire scenario is not mentioned in the fire plan. Camp Wildwood can have up to 500 people. Their feature mitigation is clearing along the sides of the road. The study says rangers will sweep the 2,000 acre Boulder Oaks property when necessary. This should be addressed in a full on evacuation plan.

Speaker: Mark Hutton, Ramona Resident

Mr. Hutton asked Ms. Bradley if there is still a pathway that is part of the project running along Mussey Grade Road to the Ranger Station? He remembers a pathway being part of the project previously.

Ms. Bradley said it is now referenced as a trail.

Mr. Hutton said his comments were sent out prior to the meeting and then he revised his comments after reading a Ramona Sentinel article on Boulder Oaks in the August 6 edition. He is responding to Captain Sanchez's comments that it is not the willingness of firefighters to fight fires down Mussey Grade Road, but when large fires strike, it impacts their ability to fight the fires. He saw the Cedar Fire leapfrog one-half mile. Mussey Grade Road has been called the "tunnel of death." Houses in Fernbrook burned for hours after the fire front burned through. If resources are needed elsewhere, they won't be available. The Boulder Oaks Fire Study doesn't address all of the impacts. Also the original notice of the Boulder Oaks MND was sent to a past RCPG chair, so the RCPG did not know of it or review it. For the Recirculation of the MND, neither the current chair or the secretary of the RCPG received the notice. If the MGRA had not notified the RCPG of the Recirculation of the MND, the RCPG would not have known. Mr. Hutton asked that the County hold off on making a decision on the Boulder Oaks Preserve until after the RCPG September meeting, and that Boulder Oaks be on the RCPG September agenda.

Speaker: Jeron Hopkins, Ramona Resident

Mr. Hopkins lives on Mussey Grade by Hwy 67. There are significant fire fuels down Mussey Grade Road. The area is combustible and people coming from Boulder Oaks may not be from around here. He has concerns about impacts and asked that all of the traffic impacts be considered for the project.

The Chair said to Ms. Bradley – when there is a big item, we usually get a phone call or other notification. This is a County project on a self imposed timeline. Can we continue to review the project? He is hearing a sense of urgency. Is there time for us to review the project?

Ms. Bradley said the project started 7 years ago. She has been involved with the project for 6 years and worked through planning and CEQA. She will take the comments.

The Chair said the CEQA review is out of our hands. How was the property purchased?

Ms. Bradley said it was purchased with MSCP general funds.

The Chair said this purchase was similar then to the Mt. Woodson parking lot, which was also purchased with MSCP funds.

Mr. Noyas asked about the environmental review process and about doing an EIR for the project?

Ms. Bradley said they start out doing an initial study. They determined that an MND could be done for the project. What would be gained with an EIR? They have done alternatives for the project, they have done archaeology for the project, and they have added the fire study.

The Chair said we can't regulate community behavior but we can try to be flexible and address community comments. We can send the comments to Ms. Bradley to get responses. The people on Mussey Grade Road have lived through a lot as it relates to wildfire. We have spent a lot of time on fire evacuation and there is no evacuation plan. The fire service Ready, Set, Go seems to be information close to and relating to evacuation.

Mr. Summers had a point of clarification. He is comfortable with the preserve being closed on NWS Red Flag Warning Days. It is hard enough to get everyone else out.

Ms. Bradley said County Parks are normally not closed on NWS Red Flag Warning Days. However, the Director has the authority to close Boulder Oaks on a NWS Red Flag Warning Days. The closure would not require an EIR. The Fire Department was involved with review of the Boulder Oaks documentation and they have accepted their reports. The level of significance has been mitigated. She does not believe an open preserve requires an EIR.

Mr. Brean likes the design of the preserve. A preserve is not housing and is open to the public. The Mussey Grade area does not support projects that are too intensive of use. He would like to see the park be closed on a NWS Red Flag Warning Days. Maybe it should be closed on days when there is excessive heat. He believes his dad was the one officer Chris Meador saw during the Cedar Fire. As far as parking – if there is an overflow, where would people go?

Ms. Bradley doesn't think there will be large crowds. There is not a lot of shade. There are no special features at Boulder Oaks. There will be "no parking signs" 1 mile above and below the park entrance. They may use technology to manage parking. People can see on their phone if there is available parking. They don't want to impact the neighbors. She can't promise to close the park on NWS Red Flag Warning Days, but she can bring it up to management.

Mr. Tomlinson asked what is the end result of an EIR? They can cost \$200,000, \$300,000 or \$400,000. The area is dangerous in a fire – it is called the "tunnel of death." Why did the County let people rebuild after the fire? He is hearing that people don't want this project in their neighborhood. He lives one-half mile from the Montecito Ranch project and wants the County to come to his neighborhood and make a park.

Mr. Ensign noted the discrepancy between the agenda item description for the project – the location being 5 miles down Mussey Grade Road, and Ms. Bradley saying it was 1-1/2 mile down Mussey Grade Road. He would like to see overflow parking. The neighborhood may be impacted if there are only 24 parking spaces (not counting equestrian parking spaces). He would like to see overflow parking.

Ms. Hopewell thinks the park should be closed on NWS Red Flag Warning Days. She has concerns for fire and evacuation of the Mussey Grade area.

Ms. Mansolf said no traffic control can be expected during major fire events. Everyone evacuating from down Mussey Grade Road will be having to make a left turn at the intersection of Mussey Grade Road and Hwy 67 with to evacuate out of Ramona. Although the numbers on lower Mussey Grade Road have been the focus of the discussion, there are also substantial population numbers on upper Mussey Grade

Road, just south of Hwy 67, and also on Dos Picos Park Road. Dos Picos Park is a big County park that also has overnight camping and spaces for recreational vehicles. All of these people will have to make the left turn at the intersection of Mussey Grade Road and Hwy 67 with no traffic control. And the people down lower Mussey Grade Road will be the last ones in line. People evacuating all over Ramona, from points east, north and south will be evacuating, channeled onto Hwy 67 prior to reaching Mussey Grade Road.

Ms. Myers said mitigation is an important factor here. Negative impacts should be reduced to a less than significant level. The terrain is difficult and there is past fire history. She believes the park will be successful. She would like to see this item moved to the September agenda.

Ms. Maxson said Boulder Oaks may become a popular hiking destination. One great photo opportunity in the preserve is enough to make it go viral.

Mr. Stykel said he is not hearing “not in my backyard,” but he feels there is an operational issue. He doesn’t think Boulder Oaks will be as popular as Potato Chip Rock. He thinks it will be more like the Grasslands Preserve in terms of popularity. He thinks approval of the MND should move forward and discussions with the County should continue about closing the preserve on NWS Red Flag Warning Days.

Mr. Noyas said he would like to separate the motions. This will be a great preserve if done correctly. It is not about “not in my backyard,” but rather more about closing the park on the NWS Red Flag Warning Days to make it safer.

MOTION: 1) TO RECOMMEND TO THE COUNTY THAT THE DEPARTMENT OF PARKS AND RECREATION INSTITUTE A MANDATORY CLOSURE OF THE BOULDER OAKS PRESERVE TO THE PUBLIC ON NATIONAL WEATHER SERVICE RED FLAG WARNING DAYS.

2) THE RCPG TAKE UP THE ENTIRE BOULDER OAKS PRESERVE PROJECT DURING ITS NEXT MEETING IN SEPTEMBER DUE TO THE FACT THAT THE PROJECT HAS NOT BEEN PREVIOUSLY REVIEWED BY THE GROUP.

Upon motion made by Elio Noyas and seconded by Donna Myers, the motion **passed 14-0-1-0-0**, with Kevin Wallace abstaining.

8-C: Rangeland Rd and Highland Valley Rd – update on construction work with tools sitting along side of the road for 2 months

Mr. Tomlinson said the Transportation/Trails Subcommittee verified construction has been completed.

8-D: Review status of RCPG inquiry of early 2019 regarding County application of the Ramona Community Trails Master Plan, regarding obstructions of trails – Under review by Supervisor Jacob with updated input expected from the Ramona Trails Association.

Mr. Tomlinson said there is still information to be followed through for this item. This item was tabled until next month.

8-E: Review status of RCPG letter of December 2019 requesting a review of hazardous roadway conditions at the intersection of main Street and 6th Street as related to pedestrian traffic.

Mr. Tomlinson wrote a draft letter to Caltrans and presented it to the RCPG on this issue. One thing missing at the 6th and Main Street intersection is a light – like a streetlight. This section of downtown is darker, and it made such a difference when they put in a streetlight by 16th, as we requested - another place where people run across in the middle of the street without walking to the light. By not having some sort of traffic control at this intersection, people with disabilities will have to go to the light to cross, which will make it more difficult for them. The subcommittee wanted Caltrans to look at this request again.

Mr. Wallace asked if they were asking Caltrans to review the intersection to put in a traffic light?

Mr. Tomlinson said they were asking for a review of the intersection for improvements.

The following motion was made:

MOTION: TO SEND THIS LETTER WITH MINOR WORDSMITHING, ASKING CALTRANS TO TAKE A SECOND LOOK AT THIS INTERSECTION.

Upon motion made by Richard Tomlinson and seconded by Torry Brean, the motion **passed 15-0-0-0-0.**

8-F: Update on SR 67 funding/budget

Mr. Summers said the RSRS Subcommittee did not have a quorum, and so did not hold a meeting. This item and the next 3 items were deferred to the September meeting.

Mr. Summers said there is \$21 million allocated for SR 67 design and environmental. There has been no expenditure yet, but it is anticipated that it will take 4 years to complete the work of the EIR. Mr. Summers said he will communicate with Mr. Canton to get some options for meeting with him in the future on this topic. He would like to have the first update in September.

8-G: Update on plan for Marvin Canton to give a progress report on SR 67 every two months. – *Deferred to September*

8-H: Update on adding the RCPG to SANDAG's "Regional Plan Stakeholders List". – *Deferred to September*

8-I: Discussion on the "Weighted Vote" procedure at SANDAG. – *Deferred to September*

8-J: Discussion by the (Parks) Chair regarding the conference call with County representatives and members of this sub-committee regarding the approved plans for the Wellfield Park projects and the approved changes thereof.

Mr. Wallace meets with Mr. Formeller once a month. There are 4 items getting off of the ground.

Ms. Perfect said the projects took so long to come to fruition. The cost has increased since 2013, since she wrote a grant for the projects. Improvements started last week at Wellfield Park.

8-K: Determination of the Current PLDO Funds Available via Latest Documentation from the County

Ms. Perfect said PLDO funds collected from developer fees were \$1.83 million, and the RMWD awarded \$541,000 of those for the park improvements. \$1.29 million is the remaining balance and \$250,000 has been designated for the Ramona skatepark, resulting in a remaining balance of \$1.4 million

9-L: Briefing from the RPRA on the Status of the Various Wellfield Parks/PLDO Projects by Dawn Perfect, and Follow-on Discussions/Possible Actions.

Ms. Perfect said the projects made it through the environmental assessments and FEMA. The projects cost more because they got stale.

MOTION: TO PUT FORWARD A REQUEST TO THE COUNTY FOR \$700,000 PLDO FUNDS FOR INSTALLATION AND IMPROVEMENT FOR THE SPORTS FIELD LIGHTING PROJECT.

(Discussion on the motion)

Speaker: Jeff Lawler

Mr. Lawler requested that the Wellfield Park motion be approved. His kids played sports and kids are still playing sports at this location. If he is still on the RMWD Board, he will support.

Speaker: Becky O'Campo

Ms. O'Campo has been involved with activities at Wellfield Park for several years. The Soccer League has grown. She supports funding for the park which is well used by the community. More lighting will allow for more exercise.

Ms. Maxson asked Ms. Perfect if the funds are in the PLDO bucket?

Ms. Perfect said they were.

The Chair asked if people understood that money will be added to the total project cost that will be charged for various land act fees, etc.?

Mr. Wallace said the money is set aside.

The Chair said this potential expenditure has not been reviewed at the community level. For the expense, there will not much of a return. This is \$700,000 for 6 fixed light poles.

Ms. Perfect said that the sports fields are very well utilized, and lighting will enhance their use. Mr. Formeller said the cost is \$644,000 with a 10 percent contingency for the bid price.

The Chair said PLDO funds take time to build up. He would like to see an article written in the Ramona Sentinel about the meaning of these funds. He wanted to have public comment on this issue.

Mr. Wallace said no article on this topic has been written yet and submitted to the paper.

Ms. Perfect said the fund balance is from developers for subdivisions. Some was earmarked. It costs more now, and because there was a delay some things have to be redone. There are new rules identified from the County, such as for stormwater management. The County takes out money. The lights were the

impetus for the project. Ms. Engel voted for one-quarter million for the skatepark. The County is not ready to build the skatepark.

Mr. Cooper said the lights were the impetus for 3 projects. One was the horseshoe pits and 2 are other projects to be proposed for Wellfield Park, such as an athletic course. The disc golf is a separate issue. Mr. Cooper recommended identifying funds availability and getting input from the public.

Mr. Brean said that when he was on the Parks Subcommittee, the lighting project cost \$600,000. The ballfields are used by so many kids. Finally everyone started working together on this.

Ms. Maxson said lights are needed on the field. There are not a lot development opportunities on the horizon.

Mr. Tomlinson said his concern is that it is taking 10 to 12 years. Every year there is a \$30,000 fee for not spending. He would rather see the money spent on a worthwhile project.

Mr. Summers agrees with Mr. Tomlinson and Mr. Brean. There has been a lot of time with nothing to show for it.

The Chair said ground has broken. Money is getting spent.

Mr. Summers said something tangible is getting done. The lighting was bifurcated a long time ago.

Ms. Perfect said that it was separated because everything went up in price. No other area of the community is used like this. This is the center for our recreational community.

The Chair said he wants to communicate with the community.

Mr. Brean called a Point of Order for the Chair. He said we all have an equal opportunity to speak and be heard. You have spoken multiple times and have been arguing your point with other members, which is not how we conduct ourselves.

Ms. Myers said she wants time to inform the community, but she doesn't want to lose any more money due to the lapse of time.

Ms. Perfect says she wants to finish projects proposed now before starting more.

(Voting on the motion)

Upon motion made by Dawn Perfect and seconded by Lynn Hopewell, the motion **passed 10-3-1-0-1**, with Jim Cooper, Casey Lynch and Donna Myers voting no, Debbie Foster abstaining and Paul Stykel absent.

- 8-M: Discussion of the Following Items for Assessment Integration with the Ramona –
Moved to September Meeting
Revitalization Matrix**
- 1. Item A-11 Ramona Skate Board Park**
 - 2. Item A-57 Horseshoe Pits (should read Horseshoe Pitching Concourse)**
 - 3. Item a-58 Ramona Soccer League Field Expansion**
 - 4. Item A-59 Disc Golf (Course)**

5. Item A-60 Ramona Girls Softball League Field Enhancement Solar Powered LED Scoreboard and controllers

8-N: Discuss the Impact of the Recently Approved RICC on the Ramona Skateboard Park, and Its PLDO Funding

There was discussion of the impact of the recently approved RICC funding on the Ramona Skateboard Park and the PLDO funding for the Skateboard Park.

8-O: Consideration of Developing a Newspaper Article Describing PLDO Funds and Advertising the Availability of PLDO Funds for Qualified Projects

Under discussion is development of a letter to talk about involving the public and inviting them to bring projects forward that may qualify for PLDO Funds.

ITEM 9: GROUP BUSINESS (Possible Action)

9-A: DESIGN REVIEW REPORT (Ensign) – Update on Projects Reviewed

Mr. Ensign said Mr. Dardeen from the former One-Stop business location made a presentation on putting in a 30,000 gallon propane tank. It is 230 feet from the scenic corridor and there will be screening on the east, north and south sides of the tank. The new building on site will block the view of the tank. The waiver for the tank was approved. Marinade on Main presented an elongated carport for outdoor dining to be used temporarily. It will have a metal roof. Once they no longer need to use the elongated carport for outdoor dining, they will convert the area back to be used for parking. Mr. Ensign announced there was an open seat on the DRB and they would be working to fill it at the next meeting on August 27.

9-B: Discussion Items (Possible Action)

9-B-1: Concerns from Members

Mr. Summers has concerns with the number of members on the RSRS Subcommittee, and he would like to recruit more members. He invited members of the public and the RCPG to join the RSRS Subcommittee.

9-B-2: Future Agenda Item Requests – *None brought forward*

9-B-3: Addition and Confirmation of New/Continuing Subcommittee Members – *No New Members Brought Forward*

9-C: Meeting Updates

9-C-1: Board of Supervisors, Planning Commission and TAC Meetings – *No Information Brought Forward*

9-C-2: Future Group Meeting Dates – Next RCPG Meeting to be September 3, 2020, Meeting Format Undetermined at this Time

ITEM 10: ADJOURNMENT

Respectfully submitted,

Kristi Mansolf

The RCPG is advisory only to the County of San Diego. Community issues not related to planning and land use are not within the purview of this group. **Item #5: Opportunity for members of the public to speak to the RCPG on any subject within the group's jurisdiction that does not appear as an item on this agenda. The RCPG cannot discuss these matters except to place them on a future agenda, refer them to a subcommittee, or to County staff. Speakers will be limited to 3 minutes. Please fill out a speaker request form located at the rear of the room and present to Vice Chairperson.**
