4. OPEN FORUM
   A. Short presentation by Carl Hickman and Murali Pasumarthi from DPW Traffic Engineering of the plans to begin replacing HPS street lights with more efficient, less costly LED Smart Lights, beginning in 4-S Ranch. There are approx 6500 HPS lights that need to be replaced in the County. A loan from the California Energy Commission allows the program to move forward immediately. The replacements will reduce the cost of energy annually of $1.3Million by 60%. The new lights allow for more dark sky preservation, cheaper energy usage, cut green house gas emissions, and has the ability for dimming lights to match the application.
   B. Timothy Parillo, resident of Rancho Santa Fe, inquired whether the Planning Group had yet reviewed the proposed remodel plans for The Inn At Rancho Santa Fe, which will require an SPA as well as some Covenant revisions. This project has not yet been before the Planning Group.
   C. Don Willis reports that the project at El Camino Real and Via de la Valle has new momentum under new ownership (?) and/or planner and has been working with the City of San Diego. The applicant has not made any community reach-out or contact with the Planning Group. Chair Liska recommends that either he or Don should contact the City Planning Dept. to get some facts on the progress of this project, as it is understood that the intended usage is more intense than previously proposed.
   D. Doug Dill reports that he has taken the training class at the County. He recommends that continuing members do the online course. There will be another training class in January and new Form 700’s will be available after the first of the year.
