C. PUBLIC COMMUNICATION

Judy Strang with PTA expressed concern with new marijuana ordinances from the County. Says that parents who come to County and PTA meetings are against the ordinances. Would like to encourage public to speak at these meetings.

Becky Rapp also expressed concerns with the County marijuana ordinances. Emphasized the overuse of groundwater as a result of these ordinances would disrupt the communities especially as to the cultivation of marijuana. Also emphasized the need to speak at meetings.
D. CONSENT ITEMS

None were agendized.

CPG Comments

Herron asked about how long it takes, after it has been submitted, for an approved list to come back to the CPG. Mr. Chun said about two weeks with omissions that are ineligible. Also asked about the funding process and Mr. Chun said that funding information may not be ready with the approved list but can direct us to what pot of money can be used for the project. Herron also asked for the list of VDO projects in the works and Mr. Chun said that he can provide that list.

Conway asked whether already approved projects by the Board also need funding from these same pots. Mr. Chun responded that those projects usually already have funding but it would be project specific.

Applicant Comments

Discussed the process of project priority lists which includes the group picking projects, their priority order, and then sending to County for review. Types of projects include road reconstruction, bridge repair, sidewalks/pathways, drainage, traffic signals, and intersections. Also explained funding sources in order to do these projects. Mr. Chrun’s email is sam.chrun@sdcounty.gov

CPG Comments
### Applicant Comments
Herron gave an updated on the Casa de Oro Specific Plan. They told him that consultants have heard all the feedback from County and the consultants have only responded to half. The other half will come in the next few weeks.

Shared a list of goals and questions that the CPG can use to "judge" the end results of the specific plan. Questions were about land use, implementation, business, urban design, walkability, visibility, maintenance, enforcement of code, design, streetscape, public safety, roof materials, colors, and themes.

Herron continued that with these questions we will be acting as a somewhat “property manager” so that we can make sure we have standards that attract businesses and make the shopping centers more community connected.

Johnston asked Herron whether old landlords, that do not sell to developers, will be committed to the new rules. Herron responded that there will be a transition period and that land use changes will likely come before building changes.

### CPG Comments
Yepiz began by explaining the location and reason for the deviation. Applicant wants a backlit sign, the same as the other signs in the shopping center. Yepiz gave dimensions. Applicants only want this sign and no others in the future. The business sells sports cards, Pokémon cards, and other memorabilia. The sign would be in line with other decisions. Fits within the VDO design goals and specific plan because it is in other business, has pedestrian access, and within design controls. County has no sign limits, just that it fits within County ruled. Yepiz recommended approval of the minor deviation.

Burley asked if the space allotted is within the County guidelines. Yepiz responded that it was within the guidelines, the only thing is the illumination.

### Applicant Comments
Mr. Hanish responded to questions about the time it will be illuminated. He answered that it will likely close at 8:00pm even though the store closes at 6:00pm.
