#### 1) Presentation and discussion by PDS Planners Tara Lieberman and Noah Alvey of proposed Zoning Ordinance Updates [Appendix Attachment] that will be going to the Planning Commission on January 25, 2019 (Smith)

- Chair Smith introduced Planner Noah Alvey.

- Phil Bell (audience) spoke about the proposed revision to the medical trailer ordinance. Phil is a disabled firefighter and was injured on the job. He shared background about his specific conditions. Phil stated that he has had very good relations with all County officials, but implored the VCCPG to not allow any changes to **Item 9 - Section 6118 - Healthcare Trailers (Attachment B, Pages 5-6)**.
- The Clean-Up proposed to implement a maximum duration of use for a temporary health care trailer to five years. Phil shared his concerns about having a re-evaluation every five years for temporary health care trailers.
- Planner Noah Alvey shared that a doctor must sign off on a medical need that requires a healthcare trailer on a property.
- Mr. Hutchison shared concerns about how code enforcement currently operates. He also wanted to know why the temporary healthcare trailers are limited to five years.
- Ms. Chavez Harmes asked about the newly passed granny flat provision. Mr. Alvey stated that a granny flat is taxable, while a trailer is not. Mr. Del Pilar also asked for more information about why certain types of property are taxable, while others are not.
- Mr. Hutchison stated the County should consider having some sort of long term provision for individuals with certain medical conditions.
- Ms. Norwood asked about the reason behind the changes to code enforcement.
- Mr. Garritson wanted to know about the cost of the annual permits. Planner Alvey did not know the current permit fees.
- Ms. Norwood asked about **Section 1006 - Applicability of the Zoning Ordinance**. Parks and Recreation will need \$60,000 to meet CEQA (California Environmental Quality Act) <http://resources.ca.gov/ceqa/> requirements.
- Ms. MacKenzie, Ms. Lindley, and Ms. Boulos all agreed with the position of Phil Bell. Ms. Boulos asked for clarification about junior accessory units. She also wanted to know about accessory dwelling units.
- Mr. Del Pilar stated that the County should consider possible permit exemptions with certain types of conditions or circumstances.
- Ms. Chavez Harmes wanted clarification about Farm Worker Housing, Accessory Dwelling Units, and Junior Accessory Dwellings. Planner Alvey shared the differences between these types of dwellings. A Junior unit is under 500 sq. ft. She stated that it appears that some of these requirements appear like County overreach.
- Mr. Garritson would like to see all County fees in writing. He has concerns that it always seems the County is seeking additional fees.
- Mr. Hutchison shared concerns about the County distributing a four-page handout one hour before the meeting. He has concerns that granny flats might become permanent rentals. He asked for more clarification about the residential use permit. Planner Alvey explained that the zoning ordinance does allow this type of housing because the County sees a demand for more senior housing.
- Rossanna Upano (audience) would like a rewrite of the whole plan because it violates property rights.
- Mr. Dina (audience) asked for clarification about the Farm House permit. Planner Alvey was not familiar with all of the requirements.
- Kevin Smith (audience) asked about **Item 14 - Section 6910 - Wholesale Limited, Boutique and Small Wineries**. Planner Alvey explained that wineries must meet fire emergency response time requirements to receive permits.
- Mr. Vick shared that a medical condition that uses a healthcare trailer should not have a time specification. Mr. Vick also asked about how the tribes are able to violate light

ordinances. Planner Alvey explained that tribal government does not need to follow the same ordinances because they are independent nations.

- Ms. Fajardo asked about the number of healthcare trailers on properties. Planner Alvey stated that there are 81 units for the entire County. She wanted to know how the Planning Group can help Phil Bell's healthcare trailer. Planner Alvey shared some thoughts that the Planning Group might consider if making a motion about healthcare trailers.
- Chair Smith shared his concern that properties of 7.5 acres could potentially be divided into four lots. He stated that this is in violation of the general plan. He has concerns that a developer could take bigger lots and split these into more units than the current general plan guidelines.
- Chair Smith stated that the North and South Villages have areas that are zoned to provide more density. These areas will potentially have townhomes, apartments, and certain types of offices built by developers. The County cannot say that there are no apartments in Valley Center.
- Ms. Norwood would like to make a motion to help Phil Bell's healthcare trailer. Planner Alvey shared that a solution to the healthcare trailer ordinance is to not change the present rule, with the exception of removing the annual permit requirement. Mr. Vick requested that the five-year permit renewal be changed to every ten years. Mr. Garritson liked the idea of replacing annual permits with ten-year permits.
- Mr. Hutchison asked the Chair how the Planning Group can resolve a lot of the issues with the County Code Clean-Up Summary Table with one motion. The Chair suggested that the Planning Group vote on multiple motions.
- **Motion: *The VCCPG is against any changes to Item 9 - Section 6118 with the exception of doing away with the annual recertification rule.***
- **Maker/Second:** Norwood/Garritson
- **Motion Carries 12-0-0 (Y-N-Ab).**

- **Motion Carries 12-0-0 (Y-N-Ab).**

**2) Summary of actions taken from the last meeting regarding a proposed agreement, approved December 12, 2018, that has the County entering with the San Pasqual to mitigate off-reservation impacts associated with the Valley View Casino expansion. (Smith)**

RE: Proposed BOS and San Pasqual Band Intergovernmental Agreement for Valley View Casino Expansion

Director Wardlaw:

The Valley Center Community Planning Group reviewed the attached summary of a proposed Intergovernmental Agreement between the San Diego Board of Supervisors and the San Pasqual Band regarding off reservation mitigations supporting the in-process Valley View Casino Expansion project. It is our understanding that this is an item on the BOS agenda for December 12, 2018.

VCCPG would like to recommend PDS and the Board of Supervisors please consider required additional mitigation for any projects whose applicants have impacted the premature degradation of Lilac Road / Old Castle Road that has occurred in recent years. The county has previously acknowledged, through unplanned road repairs earlier this year, that the road degradation has been accelerated, in major part by the large buses using Lilac Road and Old Castle Road in Valley Center. This usage is brought about because the buses are excluded from using SR76 due to their length. These buses primarily support the casinos near Valley Center, including Harrah's Rincon, Pala, Valley View, and Pauma.

This recommendation was approved by the group members present at the regular meeting of the Valley Center Community Planning Group on December 10, 2018. The vote was 12 for, 1 against, 0 abstaining, and two not present.

If you have further questions, I can be reached at (760) 703-1455.

Respectfully,

Oliver Smith, Chair  
Valley Center Community Planning Group
