- Class IV Bikeways
- Project in Process
- Commercial
- Parks
- Village Boundary
- Potential Gateway Feature³
- Condition of Approved or Planned Project

1 Curb extensions are proposed at signalized intersections and at the controlled pedestrian crossing.

2 Signal warrants will be conducted at the time when signals are considered for installation. Signal warrants should be met prior to installation.

3 An approved discretionary permit has a condition for a traffic signal at the intersection of Valley Center Road and Miller Road; however, specific intersection control may be reconsidered at the time traffic signal warrants are met.
