eComment: The rural communities of San Diego county are lacking in telecommunication services. Too many of our residents have little to no options for internet and cell phone services. Those that can get service, it is poor and spotty. It is more important than ever that rural areas have an opportunity for services. I am pleased to see towers proposed for Lakeside, Julian, and Shelter Valley. Please consider more towers for communities like Warner Springs, Borrego Springs, Alpine, and Pine Valley. Thanks!
