## New eComment for Planning Commission Hearing

Sally Tinker submitted a new eComment.

Meeting: Planning Commission Hearing

Item: 4. Organic Materials Ordinance Update; PDS2020-POD-20-015 (T. Farmer)

eComment: Community composting builds neighborhood relationships, and keeps organic matter in the ground right where it's created. Reducing transportation and mass processing of this valuable resource makes sense. I'm all for building rich topsoil to support local trees and gardens. Thank you.

## New eComment for Planning Commission Hearing

Wendy Miller submitted a new eComment.

Meeting: Planning Commission Hearing

Item: 4. Organic Materials Ordinance Update; PDS2020-POD-20-015 (T. Farmer)

eComment: I'm a Soil Farmer for Food2Soil, building soil from the food scraps of my neighbors in the City of San Diego. I support the changes to the ordinance so that the unincorporated County of San Diego can benefit from local composting jobs, less organic waste in the landfill and healthy soil for gardens and farms. Thank you to the committee that worked on this update.
