Subject: Re: Newland Sierra

Ashley,

One of my neighbors brought to my attention the Newland will use 19 tons TNT daily for the next 10 years! are we going to live in a combat zone? Is this safe to the people and environment?

I-131-1

Also moving 8 millions of rocks out of the site that will break all the roads around the site. Are we going to live with bad roads with super heavy truck for the next 10 years? can you condition Newland to upgrade the pavement to carry heavy trucks before the heavy trucks us the roads?

I-131-2

What if the reception hit again in the next 10 years who is going to fix the roads and make the site safe?

Thanks

Walid Farrukh
San Marcos
