Subject: DEIR Public Comments for Newland Sierra : General Plan Amendment and Specific Plan PDS2015-GPA- 15-001 (GPA); PDS2015-SP- 15-001 (SP); PDS2015-REZ-15-001; PDS2015-TM-5597;
Date: Monday, August 14, 2017 10:47:29 AM

To all concerned:

It is with great dismay that I find the County is considering yet another development project that exceeds current plans to such a magnitude. The size and scope of the project will subject many residents, the habitat, and the religious facilities in that area to extreme hardships and likely extermination for some. Traffic, noise, vibrations from both and worst of all the impact on emergency evacuations.

I-133-1

Having been evacuated during fires I am aware that any road closures can become life threatening. In 2007 I was evacuated with my mother on oxygen. We were unable to access oxygen because the 15 was closed ultimately the shelters that we were able to reach were out of oxygen and we had to travel from one to another until we finally ended up at Greens East Hospital. My mother suffered a heart attack within 24 hours.

I-133-2

Our roads are overburdened daily both the 15 and the 78. These roads cannot possibly handle this increase daily let alone in an emergency circumstance when one or more may be closed. The studies thus far are incomplete and need to be comprehensive. This project will impact far too many without even alleviating the need for affordable housing. This would be a really bad decision, I ask that you decide to reject this proposal.

I-133-3

Sincerely,
Mary
