**To:** Smith, Ashley  
**Subject:** Newland Project, Deer Springs Rd. Deer Springs Oaks resident

To Whom it may concern;

I am extremely concerned with this project Newland is proposing, in particular the road widening.

I-169-1

My house space 34 already shakes when the multitude of semi-trucks, cement trucks and even loud motorcycles go flying by all hours of the night. I can only imagine the impact once it is multiple lanes and people will be more aggressive in passing each other. I fear a vehicle coming through my living room window now, and propose it being even worse once it is multiple lanes.

I-169-2

I have seen a vehicle flip and fly over multiple lanes of traffic and landing 100's of feet away. I believe our place is not more than 25ft. from Deer Springs, and I mean the dwelling not the property.

I-169-3

The general traffic is another concern and worry, being someone who drives that road twice a day 4-5 times a week the traffic is *already* horrendous. I drive from 1299 Deer Springs all the way through past San Elijo Hills, and the traffic and delays are already so bad.

I-169-4

My last big cause for great concern is the pollution issues. With most people here being retired, my husband included, to be breathing the polututed air day in and day out concerns me greatly.

I-169-5

Thank you for your time,  
Cris & Lori Greene
