To: Smith, Ashley
Subject: NEWLAND SIERRA PROJECT

Ashley,

The community voted NO on a very similar project recently. Does the board think that crossing the freeway will lessen the potential congestion or eliminate the concerns or the outcry of the community? This project will compound what is already an unbearable commute on the 15 corridor and the construction on Deer Springs road will create a nightmare for the commuters heading to and from San Marcos.

I-178-1

This is a rural community. We all moved "out here" to get away from the city life, away from the noise and so we could see the stars at night. We love that there are coyotes, bob cats, eagles and hawks. Building this community will eliminate the wildlife. This will ruin the landscape and create noise and light pollution. Is the board of supervisors going to eliminate the sanctuary of this rural environment just so a developer can get rich? We are happy and we don't want the change.

I-178-2

The developer dumped an 8000 page document on the city similar to the Obama "care package". It was signed by the majority for the sake of politics and to line the pockets of the developers, in the end it did not go well. It cost the tax payers BILLIONS and created overwhelming National grief. Passing this newland sierra project will produce the same result.

I-178-3
