Dear Miss Smith:

San Diego County needs housing and that is especially true in North County San Diego. We are most susceptible to our workers leaving with their hard earned money to live in the Temecula Area. Our workforce is forced to spend long hours on the road away from their families and extracurricular activities because we don't have the housing supply we need in San Diego. San Diego County needs to stop talking about the shortage and make it easier to build houses here. Newland Sierra should be applauded for planning a well thought out community right where we need houses the most. This project has my support; I think it's lovely and exactly what we need.
