Dear Planning and Development Services,

My name is Debbie Larson and I have the privilege of living at 640 Deer Springs Road in San Marcos. We have enjoyed our home here for over 14 years, with my husband and his parents having lived here since the 1970's. The area has changed much, but it is still home.

I-243-1

I won't pretend to understand anything about EIR's, County Development, or all of the mumbo jumbo that goes with it...but here is what I do know:

1~We did not invite a new development to come into our area...

I-243-2

2~We choose to live in rural San Diego County to have a bit more land and a bit more privacy and peace and quiet from the city...

I-243-3

3~We already see an increase in the abundance of traffic with Cal State and Palomar College cars driving to and fro across Deer Springs Road; a development of 1900+ homes would make it next to impossible to get around our 'neck of the woods.' It's already a big wait to get out onto Deer Springs to take our daughters to school each morning...I can't imagine what a whole new housing development would add...no matter how many additional lanes are proposed...

I-243-4

Ultimately we trust YOU, the appointed officials to do right by us. It is your God given position and responsibility. We thank the Lord that the last group of Supervisors who voted on the Merriam Mountain Project in this same area, used their common sense and realized that this was a project for the wrong area. We never have been set up to accommodate all that Newland seeks to impose. We in the Twin Oaks area love our land...and seeing that San Diego County has so little of it left, we hope you will see the importance of saving some for our children and their children as well!

I-243-5

Thank you for listening to my concerns,

Gratefully,

Debbie Larson
