Please add me to public notices regarding Newland Sierra Santa San Diego@yahoo.com

NO TRANSIT
NO I-15 IMPROVEMENTS
NO GHG STANDARDS
NO TO 28,000 CARS PER DAY
NO FIRE EVACUATION PLAN
NO BLASTING
NO NEWLAND SIERRA!

We moved 10 years ago and have lived in Orange County (south) where urban sprawl pushed us to San Diego - it was not pleasant to see in Orange County and will be worse here - The congestion is already here - I-15 already comes to a stand still at times and we've seen confusion when fire evacuations have occurred - We couldn't even move on Phoenician Village Dr after being told to leave!
Do Not Proceed with any project until the area is prepared to take the impact of I-15
