Subject: Say NO to the Newland Sierra Project

Please say no to the Newland Sierra Project as it has been rejected twice before, you see the danger of spoiling this whole area. The traffic congestion and our continued water shortage are only two of the problems. The damage to the peaceful character of this area will forever limit the next generation's spaces of beauty and regeneration. This area does not need new shopping and high density living. How can you consider the damage to our resources? Water will become an ever greater problem with the climate change. Please say NO to this damage to our area. You have read all the oppositional studies. You know this is a mistake for greed of the developers.
Sincerely, Sandra Marak
