**Subject:** Newland Sierra Project

**Hello Ashley,**

**My husband and I live in Valley Center and this time last year we were fighting against Lilac Hills Ranch. Enough is enough! We have a carefully developed General Plan and the developers don't want to follow it. Rural areas are zoned that way for many environmental reasons.**

**Accretive spent millions buying signatures, elected officials, and a slick advertising campaign to get their plan on the ballot and what happened? Major backfire! Two-thirds of the county understood that by-passing the GP is a bad idea. And earlier last year a similar incident with the same outcome occurred in Carlsbad. The people have spoken time and time again!**

**I don't need to rehash the details as to why the County Board of Supervisors should not approve this project. We can't let developers destroy our beautiful county with hopscotch projects that create sprawl. Let's keep the balance in tact.**

**Please let it be known that many backcountry residents are happy with the General Plan, as is!**

**Thank you,**

**Lee Marzano-Schwarz**
