Comment Letter I-294

Dear Ms. Smith:

We moved to Hidden Meadows specifically because it was a rural area, protected by the General Plan. The Newland Sierra project will destroy our rural community. Not only will we experience increased air and noise pollution over 10 years, the backroads and streets will be jammed. Beyond annoying, this also means a slower, more dangerous evacuation in a fire emergency.

I I-294-2
I I-294-3
I I-294-4

Anyone who represents this rural area will understand why people moved here and how Newland Sierra will devastate the peace and quiet we cherish. Do not ruin our community by allowing Newland Sierra to proceed.

The voters feel strongly about stopping this development. Please convey to the county supervisors the overwhelming sentiment of their constituents to stop Newland Sierra. Vote **NO**.

Sincerely,

Don and Laurel Nicholson
