Subject: Merriam Mountain

Att : Ashley Smith please be informed that as a long term resident of the Twin Oaks Valley I so strongly oppose this Huge project. I have been involved in the General Plans for the City of San Marcos, it just befuddles me after all the time and expense of forming General Plans why the County of San Diego would even consider allowing a project that is 20 times larger then the existing General Plan. I would compare it to you or another person living in a single family dwelling and then have a city or county allow a 20 unit apartment building to become your next door neighbor!!! Not Good !!! If you can somehow pass on my concerns to the correct parties to hear my pleas to stop this project, it would be greatly appreciated. Best Regards. Robert Patten
