RE: Newland Sierra Project

Dear Miss Ashley Smith:

I have reviewed the environmental impact report for the Newland Sierra Project. Being a resident of North County for 30 years, I am in full support for the protection of open space Newland Sierra has proposed. This new development will incorporate new housing but will also retain a large area of the natural environment that will maintain a balance between development and nature.

I read that approximately twelve hundred acres will be preserved from future development. I feel this will be extremely important as it will conserve the outdoor space for families to enjoy outdoor amenities for years to come.

As an avid bicyclist, the development of comprehensive trails set-up between the homes and parks will provide more outdoor areas for the local community to enjoy. Please guarantee that the trail designs will be incorporated with enough space for hikers, bikers and even Equestrians to share the outdoor space together. Thank you.

Sincerely,

Patricia Roosen
