Dear Ashley:

There is no reason to reiterate all the problems created by this project so I'll just give you my personal thoughts and that is: How soon we forget the fires of 2003 and 2007 which condemned the Merriam Mountain Project and do we remember the 6 year drought with this being the first year of no water shortage but this won't last the drought will continue in the years to come. How can 8,000 more people help the water situation? How can 6,000 more cars coming and going morning and night help the traffic situation when already we have a line up of cars at 4 pm that extends from I 15 to well past Buena Creek on Deer Springs Road.

Letting a developer come into our community to overbuild and take the cash and leave the problems for the rest of us to deal with is not a good plan no matter how you look at it..

Since the growth plan for the County calls for 99 homes to be built at this site leave it that way, lets not cause more problems for ourselves.

Sincerely Sanford V. Terrell
