Dear Ms. Smith, I live at 318 Cassou Rd off of Twin Oaks Valley Rd. I am writing because I am against the Newland project. This was voted down before and I'm not sure what has changed to make it come up again. Just the thought of blasting in an area that hasn't burned in years, scares me to death. I'm surrounded by horse ranches and nurseries and I hope it stays that way. Do we need to have homes on every hill in San Diego? We will end up looking like L.A. The traffic is already bad on Twin Oaks, I can't imagine what it would look like if thousands of more cars came into San Marcos. It's already over run with cars. There are several new homes and apartments being built in San Marcos and that will add a toll on our streets. Please don't let this plan go through. Please keep our Valley out of the hands of developers who just want to make money and don't live here.

Thank you,
Katherine Wagner
