Dear Miss Smith:

I am writing to voice my support for the Newland Sierra project proposal. I want to thank Newland for its outreach efforts for the past 5 years. There were numerous community planning workshops and 17 community organization meetings that were held. I was one of those residents who had the opportunity to give my input at a workshop. Hundreds of residents and businesses attended those meetings and give input. This project is a result of all those residents and organizations input, including those in support and those in opposition.

The applicant has reached out to countless stakeholders, including business chambers, rotaries, and advisory groups. This proposal is a culmination of input from all of us in the community, business and residents. This project should not be undermined by a few minority voices when we have come so far, after so many meetings, to get to where we are today.

I-417-1

Sincerely,

Eric Weitz
