**To:** Smith, Ashley  
**Subject:** Newland Sierra project

Dear Ashley Smith,  
This project would cause great harm to our San Diego north county area and to our family personally.  
Our roadways are already congested with traffic from overdevelopment of North county and southbound traffic from Riverside County.

The overdevelopment of this area will add so much time to an already frustrating commute into Escondido and San Marcos.

We have already been subjected to water use restrictions which decimated our avocado grove and income, the impact from this project will bring more harm.

The noise and environmental impact are so stressful to even think about and the fire danger worries us greatly.

Please think of the huge negative impact on the existing taxpayers and residents of this beautiful area and just say no to developers.

Thank you,  
Joey Westmoreland  
8001 West Lilac Road  
Bonsall CA 92003
