Subject: NOOOOOOOO Newland Sierra

Valued County Officials,

We are new residents of Hidden Meadows. We are yet to move to the tax rolls of our retirement property with 17 acres of avocado trees at 27908 High Vista Drive. On a peaceful corner. Out in the boonies.

I have done some commuting around the area. First to search for the right place to spend out retirement, next to deal with various crews rehabing, then to San Diego to search for finishing and furnishings.

There is no way you can approve the development proposed and have anything but a constant traffic jam without major changes in I-15 Which is already dysfunctional southbound passing the Mountain Meadow exit in the morning and northbound from the 79 to the 215 interchange in the evening.

The proposed changes to the exit/entrance ramps and Deer Springs Road are not near enough to improve the congestion that already occurs, let alone the added difficulties of construction vehicles, looky loo real estate folks. The folk who buy in the new development have a choice to take Deer Springs and risk their life on a winding, already bustling road that is going to become very VERY busy. The folks of Hidden Meadows will have no choice. There is one way out of our neighborhood. If this development goes in, the seven minute trip to the hospital we counted on will have become a half an hour at the least.

Not to mention the years of dust and noise and turning a rural area into a freeway suburb. And how long before the water rates go up and our trees have to die?

Thank you,
Julie Brooks
