

I-159 Laura Glusha

- I-159-1** The comment expresses opposition to the project and states that we need to keep open corridors for the animals. For information on wildlife corridors and connectivity refer to **Topical Response BIO-2**. As described therein, the Draft EIR analyzed the proposed project's potential impacts to wildlife movement in Section 2.4.12.4, Wildlife Movement and Nursery Sites. The County acknowledges the comment letter, and notes it expresses general opposition for the project, but does not raise any specific issue concerning the adequacy of the Draft EIR. For that reason, the County provides no further response to this comment.
