

I-178 John Harrison

- I-178-1** The comment states that the community voted no on a very similar project recently and that the proposed project would compound unbearable traffic issues on I-15 and Deer Springs Road. Please refer to **Response to Comment O-1-377** and **Topical Response LU-1**. The comment also addresses the general subject area of traffic, which received extensive analysis in the Draft EIR in Section 2.13 Transportation and Traffic. See also **Topical Response TR-1**. The comment does not raise any specific issue regarding that analysis and, therefore, no more specific response can be provided or is required. The County will include the comment as part of the Final EIR for review and consideration by the decision-makers prior to a final decision on the project.
- I-178-2** The comment states that the project will eliminate wildlife, ruin the landscape, and create noise and light pollution. The County acknowledges the comment and notes that it expresses the opinion of the commentator. These impacts were adequately addressed in the DEIR. Specifically, impacts to wildlife were addressed in Section 2.4 Biological Resources; impacts to the landscape and creation of light pollution were addressed in Section 2.1 Aesthetics; and noise impacts were addressed in Section 2.10 Noise. The County will include the comment as part of the Final EIR for review and consideration by the decision-makers prior to a final decision on the project.
- I-178-3** The County acknowledges the comment and notes it raises economic, social, or political issues that do not appear to relate to any physical effect on the environment. The County will include the comment as part of the Final EIR for review and consideration by the decision-makers prior to a final decision on the project. No further response is required because the comment does not raise an environmental issue.
