

I-216 Jeffrey A. Johnson

I-216-1 The comment states that Newland EIR was very comprehensive. The commenter states that they are interested in the trails and open space and that securing 1,209 acres is a great compromise for guaranteed open space and helping to retain rural character while addressing the County's lack of housing in a responsible manner. The comment states that opponents to the Project do not want to see a loss of rural and unincorporated areas, but the commenter believes that the Project is a compromise to what the commenters want and need. The comment states that the Project guarantees open space and trails while providing market rate housing.

The County acknowledges the comment and notes it expresses the opinions of the commenter, and does not raise an issue related to the adequacy of any specific section or analysis of the Draft EIR. The County will include the comment as part of the Final EIR for review and consideration by the decision-makers prior to a final decision on the project. No further response is required or necessary.
