

I-309 Lora Perkins

I-309-1 The comment explains that they are not in favor of the Project. The commenter explains that they are concerned about the reduction and chopping up of wildlife habitat. The commenter explains that wildlife should have space to live and thrive and once people move into their space, people are upset by their natural habits and want to remove or kill them. The comment states that protecting people from animals becomes paramount even though people moved into their space. The commenter explains that she is afraid that the development of the land would do irreparable damage to the wildlife ecosystem in the area.

The comment raises a general subject area, biological resources, which received extensive analysis in the Draft EIR, specifically Section 2.4. The County notes the comment expresses the opinions of the commenter, and does not specifically state which impacts to wildlife would occur. As the comment does not raise any specific issue regarding that analysis, no more specific response can be provided or is required. The County will include the comment as part of the Final EIR for review and consideration by the decision-makers prior to a final decision on the project.

I-309-2 The comment is a comment letter provided by Jan Woolsey. For a response to this comment letter, please see **Response to Comment I-425-1** through **I-425-4**.
