

### I-341 Yvonne Scott

**I-341-1** The comment states the quality of life of residents in Champagne Village would be impacted by the proposed project due to the “noise, pollution, congested roadways, extreme drain on our water resources.” The comment states that the project would also impact wildlife and natural corridors, the California gnatcatcher and fairy shrimp.

The County acknowledges the comment and notes that it addresses general subject areas, which received extensive analysis in the Draft EIR, specifically in Sections 2.3, Air Quality; 2.4, Biological Resources; 2.10, Noise; 2.13, Transportation and Traffic; and 2.14, Public Utilities and Service Systems. The comment also restates information contained in the Draft EIR regarding impacts to biological resources, and does not raise an environmental issue within the meaning of CEQA. The comment does not raise any specific issue regarding that analysis and, therefore, no more specific response can be provided or is required. The County will include the comment as part of the Final EIR for review and consideration by the decision-makers prior to a final decision on the project.
