

I-37 Karen Binns (1)

I-37-1 The comment states that only the Draft EIR was available at the San Marcos library in hard copy and not the appendices or maps. The comment questions why these were not available in hard copy form. The commenter states she was told the San Marcos Library would have a full hard copy. The comment also states that there was a mix-up and the Draft EIR was sent to the Vista Law Library instead of the San Marcos Library.

The County acknowledges the comment and notes that the Draft EIR and all technical appendices were available on the County's website. Further, as indicated in the comment, a hard copy of the Draft EIR as well as all technical appendices were available for review on DVD at the San Marcos Library, including all maps. However, the County's practice on large EIR's is to provide technical appendices on DVD for review, not hard copies. The County notes the comment does not raise an issue as to the adequacy of the analysis contained in the Draft EIR; therefore, no further response is required.
