

I-401 Dan and Susan Wagner

I -401-1 The comment states the commenter is a resident of Champagne Village. The comment states that the Draft EIR shows the proposed project will impact the land, water, traffic, schools, wildlife and fire hazards. The comment states there is “no promise from Caltrans” to build anything and notes that on-ramps fall under Caltrans’ jurisdiction. The comment states that traffic has always been a problem during fire evacuations.

The County acknowledges the comment letter, and notes it restates information in the Draft EIR, as well as providing background information. The comment notes general issues which received extensive analysis in the Draft EIR, including Sections 2.4, Biological Resources, 2.8.3, Wildfire Hazards and Evacuation Plans, 2.13, Transportation and Traffic, 2.14, Utilities and Service Systems, and Section 3.5, Public Services. The comment does not raise any specific issue regarding that analysis and, therefore, no more specific response can be provided or is required. The County will include the comment as part of the Final EIR for review and consideration by the decision-makers prior to a final decision on the project.

I-401-2 The County acknowledges the comment, and notes it expresses general opposition for the project, but does not raise any issue concerning the adequacy of the Draft EIR. For that reason, the County provides no further response to this comment.
