

I-413 Douglas Weaver

I-413-1 The commenter explains that the Project should be built within walking distance to the Sprinter or Trolley and asks if that would be less polluting.

As stated in Section 1.0 Project Description on page 1-24, three Sprinter stations are within 6 miles of the project Site: the San Marcos Civic Center Sprinter Station, the Buena Creek Station, and the Palomar College Station. The County notes the comment; however, it does not raise an environmental issue within the meaning of CEQA. The County will include the comment as part of the Final EIR for review and consideration by the decision-makers prior to a final decision on the project. No further response is required because the comment does not raise an environmental issue concerning the adequacy of the Draft EIR.
