As a long time Jamul resident I am opposed to the Proctor Valley housing project that would increase Jamul's residences by almost 50% and increase Jamul's population by an estimated 30% to 40% . Density like this only further exasperates traffic in SR 94 which is statistically the most dangerous SR in the state of California, with one injury accident every 6 weeks and 1 death every 6 months for the last 10 years running.
