Subject: Do what is right for our wildlife - NO VILLAGE 14!

I I-17-1

Dear Supervisor,

Are you going to destroy 1,284 acres of golden eagle habitat in the middle of the sensitive Proctor Valley? I think NOT! Over 10 Golden eagles have used this area for nesting and foraging continually since the 1920's. This area is critical for Golden eagles in our county and should not be destroyed.

I I-17-2
I I-17-3

In spite of a scientific report on the status of Golden eagles in that area and recommending protection, the County of San Diego is fast-tracking this devastating project. Please read this excellent report here http://www.sandiegoeco.org/wp-content/uploads/BBI-Letter-Rancho-San-Diego-GOEA-Territory-Status.pdf and do the RIGHT thing for our county wildlife!

I I-17-4
I I-17-5

We must keep our open spaces OPEN and you must not cower to development dollars. We cannot keep going on like this and filling our county with homes and more development. STOP THE NONSENSE and SAVE our backcountry for Golden Eagles and other wildlife.

I I-17-6

Thanks for taking a stand for wildlife. #WatchingWildlifeRocks.com®
