Project No. 08175-06-08 October 31, 2014

Mr. Terry Plowden Douglas Wilson Companies 1620 Fifth Avenue, Suite 400 San Diego, California 92101

Subject: PHASE I ENVIRONMENTAL SITE ASSESSMENT

THE POINTE

SPRING VALLEY, CALIFORNIA

Dear Mr. Plowden:

As you requested on behalf of Douglas Wilson Companies (the Client), we have performed a Phase I Environmental Site Assessment (ESA) of the 54.12-acre property referred to as The Pointe and located west and south of the intersection of Sweetwater Springs Boulevard and Jamacha Boulevard (the Site) in Spring Valley, California. The Site is further identified by the following eight County of San Diego Assessor's Parcel Numbers (APNs): 505-672-03, 07, 09, 10, 17, 23, -32, and -37. No addresses are currently associated with the Site.

You requested a Phase I ESA to provide information regarding the potential for existing hazardous substances or petroleum impacts at the Site as part of due diligence activities prior to acquiring and developing a portion of the Site. The accompanying report presents the details of our Phase I ESA.

We appreciate the opportunity to have performed this Phase I ESA for Douglas Wilson Companies. Please contact us if you have any questions concerning this report or if we may be of further service.

Benjamin G. Eastman

Senior Geologist

Very truly yours,

GEOCON INCORPORATED

Crystal A. Castellanos

Staff Geologist

CAC:BGE:ejc

(e-mail) Addressee

#### PHASE I ENVIRONMENTAL SITE ASSESSMENT

#### 1. INTRODUCTION

This report presents the results of a Phase I Environmental Site Assessment (ESA) for a 54.12-acre property referred to as The Pointe in Spring Valley, California (the Site; Figure 1). The Site is located west and south of the intersection of Sweetwater Springs Boulevard and Jamacha Boulevard. Douglas Wilson Companies (the Client) requested this Phase I ESA as part of their due diligence process prior to acquiring and developing a portion of the Site.

# 1.1 Purpose and Objectives

The purpose of the Phase I ESA was to identify 'recognized environmental conditions' (RECs) as defined by the American Society for Testing and Materials (ASTM) *Designation E 1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process.*Section 1.1.1 of ASTM Designation E 1527-13 defines an REC as "the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. De minimis conditions are not recognized environmental conditions."

De minimis conditions are those that generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies.

ASTM E1527-13 also defines 'Historical' and 'Controlled' RECs. An 'Historical REC' is defined as "a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)." A 'Controlled REC' is defined as "a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)."

The Phase I ESA was also conducted in general accordance with the requirements of 40 Code of Federal Regulations (CFR) Part 312 titled *Standards and Practices for All Appropriate Inquiries*, as

required under Sections 101(35)(B)(ii) and (iii) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). The purpose of conducting an all appropriate inquiries investigation into the previous ownership and uses of a property is to meet the provisions necessary for the landowner, contiguous property owner, and/or bona fide prospective purchaser to qualify for certain landowner liability protections under CERCLA. The U.S. Environmental Protection Agency (USEPA) has determined that ASTM E1527-13 complies with requirements for conducting AAIs.

This Phase I ESA also included a vapor encroachment screening (VES) conducted in general accordance with the methods outlined in ASTM E 2600-10 Standard Guide for Vapor Encroachment Screening (VES). The purpose of the VES was to assess the potential for chemicals of concern (COC) to migrate as vapors onto a property as a result of contaminated soil and groundwater on or near the property. A VES is not a requirement of and does not constitute, expand, or in any way define "all appropriate inquiry" as defined and approved by the U.S. EPA. The goal of a VES is to identify whether or not a vapor encroachment condition (VEC) exists on the Site. A VEC is the presence or likely presence of COC vapors in the sub-surface of the Site caused by the release of vapors from contaminated soil or groundwater either on or near the Site.

The main components of this report and their objectives, as specified by the referenced standards, include the following:

- **Physical Setting:** The objective of reviewing physical setting references was to obtain information concerning the topographic, geologic, and hydrogeologic characteristics of the Site and vicinity. Such information may be indicative of the direction and/or extent that a contaminant could migrate in the event of a spill or release.
- **Records Review:** The objective of the records review was to obtain information that could potentially help identify RECs at or potentially affecting the Site. We reviewed publicly available federal, state, and local regulatory agency records for the Site.
- **Site History:** The objective of consulting historical references was to assess previous uses of the Site and surrounding area to identify those that could have led to RECs on or near the Site. Historical sources reviewed included aerial photographs, topographic maps, and city directories. In addition, we conducted interviews with persons who were expected to be reasonably knowledgeable about historical uses of the Site.
- **Site Reconnaissance:** The objective of the site reconnaissance was to observe site conditions and activities for indications of evidence of RECs. Offsite properties and features were also viewed, but solely from the vantage of the Site and public thoroughfares.

# 1.2 Scope of Services

The scope of services was performed in general accordance with ASTM Designation E 1527-13, ASTM Designation E 2600-10, and our Proposal No. EP-2014-023 dated April 25, 2014.

# 1.3 Report Limitations

The Phase I ESA report has been prepared exclusively for the Client. The information obtained is only relevant for the dates of the records reviewed or as of the date of the latest site visit. Therefore, the information contained herein is only valid as of the date of the report and will require an update to reflect recent records/site visits.

The Client should recognize that this report is not a comprehensive site characterization and should not be construed as such. The findings and conclusions presented in this report are predicated on the site reconnaissance, a review of the specified regulatory records, and a review of the historical usage of the Site, as presented in this report. The Client should also understand that wetlands, asbestos-containing building materials, lead-containing paint, lead in drinking water, radon, mercury related to mining activities, methane, and mold surveys were not included in the scope of services for this Phase I ESA. Assessment for potential naturally occurring hazards such as asbestos and arsenic also was not included.

Therefore, the report should only be deemed conclusive with respect to the information obtained. No guarantee or warranty of the results of the ESA is implied within the intent of this report or any subsequent reports, correspondence or consultation, either express or implied. We strived to conduct the services summarized herein in accordance with the local standard of care in the geographic region at the time the services were rendered.

#### 1.4 Data Gaps

A data gap is defined by ASTM Standard E 1527-13 as "a lack of or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information." Data gaps could include such things as insufficient historical information, the inability to interview persons with direct site knowledge (e.g., the owner(s), past owner(s), tenants, workers, etc.) or the lack of access to all parts of a site during the site reconnaissance.

No significant data gaps were identified during the preparation of the Phase I ESA.

#### 2. SITE DESCRIPTION

This section provides information regarding the location and physical characteristics of the Site including its size, topography, geologic, soil, and hydrogeologic conditions.

# 2.1 Location and Legal Description

The Site is an irregular shape, totaling 54.12-acres and eight parcels within The Pointe development in Spring Valley, California (Figure 1). A copy of the parcel map associated with the APNs is in Appendix A. The Site includes four contiguous and four non-contiguous parcels identified by the following San Diego County Assessor's Parcel Numbers (APNs):

Area	Assessor's Parcel Number	Acreage	
A	505-672-09	2.78	
	505-672-10	3.71	
В	505-672-03	25.19	
	505-672-07	2.85	
C 505-672-37		4.14	
	505-672-23	5.94	
D	505-672-32	3.82	
	505-672-17	5.69	

The Site is depicted in Sections 3 of Township 17 South, Range 1 West, San Bernardino Base and Meridian on the United States Geological Survey's (USGS) *Jamul Mountains, California, 7.5-minute Topographic Map* (USGS, 1994).

#### 2.2 Site and Vicinity General Characteristics

The Site is part of the larger The Pointe master development formerly known as Hansen's Ranch, which includes adjacent properties in all directions. The Site is located in an area of commercial properties, suburban residential communities, and undeveloped vacant land. A Site Plan depicting the site boundaries, features and surrounding properties is presented in Figure 2.

#### 2.2.1 Topography

According to the United States Geological Survey's (USGS 1994) *Jamul Mountains, California*, 7.5-minute topographic map, elevations range from approximately 500 feet above mean sea level (msl) in the northern portion of APN 505-672-37 to approximately 330 feet above msl on the southern portion of APN 505-672-07. Topography at the Site and in the site vicinity is generally characterized by gently rolling hills, moderate to steep slopes, and incised tributary drainage channels of Sweetwater Spring that connects with the Sweetwater Reservoir.

Project No. 08175-06-08 - 4 - October 31, 2014

# 2.2.2 Geologic Conditions

The Site is located in the Peninsular Ranges geomorphic province of Southern California (Norris and Webb, 1990). This geomorphic province encompasses an area that extends 900 miles from the Transverse Ranges and the Los Angeles Basin south to the tip of Baja California. In general, the province consists of rugged mountains underlain by Mesozoic igneous and metamorphic rocks to the east, and a dissected coastal plain underlain by Cenozoic sediments to the west. The province varies in width from approximately 30 to 100 miles, and is traversed by a group of faults and fault zones trending roughly northwest.

Information concerning the surface geologic conditions at and in proximity to the Site was obtained from a review of the *Geologic Map of the Jamul Mountains 7.5' Quadrangle, San Diego County, California*. The geologic map indicates that the Site is underlain by Cretaceous Gabbro (Kggb) and Jurassic and Cretaceous metavolcanic rocks (KJmv). The Kggb is described as medium-grained and dark colored, peridotites, norites, and quartz gabbros. The metavolcanic rocks are characterized as mildly metamorphosed volcanic, volcaniclastic and sedimentary rocks. Volcanic rocks range from basalt to rhyolite, but are predominantly andesite and dacite.

We obtained information concerning the soil conditions in proximity to the Site from the United States Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS), Web Soil Survey (http://websoilsurvey.nrcs.usda.gov/app/HomePage.htm). Information obtained from the website indicates the site soil is predominantly characterized by seven soil units: Las Posas fine sandy loam, 9 to 15 percent slopes; Diablo clay, 15 to 30 percent slopes; Diablo-Urban land complex, 15 to 50 percent slopes; Linne clay loam, 9 to 30 percent slopes; Friant rocky fine sandy loam, 30 to 70 percent slopes; and San Miguel-Exchequer rocky silt loams, 9 to 70 percent slopes.

# 2.2.3 Hydrologic and Hydrogeologic Conditions

Two man-made reservoirs and Sweetwater Spring traverse the central portion of the Site. An unnamed creek, across Jamacha Boulevard, traverses the southeastern portion of the Site. Both springs flow from north-northeast to south-southwest and ultimately flow into the Sweetwater Reservoir approximately 1.8 miles southwest of the Site.

Information pertaining to groundwater quality and occurrence in the vicinity of the Site available from the California Department of Water Resources (DWR) and the California State Water Resources Control Board (SWRCB) was reviewed. Based on this information, the Site is located in the Jamacha Hydrologic Subarea (909.21) within the Middle Sweetwater Hydrologic Area (909.20) of the Sweetwater Hydrologic Unit (909.00) (SWRCB, 1994). The SWRCB Basin Plan indicates that groundwater occurring within the Jamacha Hydrologic Subarea has existing beneficial uses for municipal, agricultural, and industrial service supply purposes.

No DWR wells are located on the Site or within approximately one mile of the Site (DWR, 2014). We reviewed the State Water Resources Control Board (SWRCB) GeoTracker website (http://geotracker.waterboards.ca.gov/) for groundwater information at the Site or within approximately one mile of the Site. Groundwater monitoring was conducted from 1995 to 2005 at the USPS Spring Valley Station located at 10174 Austin Drive, approximately 1,160 feet north of the Site. Depth to groundwater at this facility ranged from 24 to 26 feet, but based on the distance from the facility is probably not representative of Site conditions. Groundwater flow direction at the Site likely follows topography and flows towards the south and southwest. Depth to groundwater and groundwater flow directions and gradients vary as a result of seasonal precipitation, pumping withdrawals, irrigation, and land use, among other factors.

#### 2.3 Current and Planned Uses of the Site

The Site consists mostly of undeveloped vacant land, two man-made reservoirs, a desilting basin, Sweetwater Spring and an unnamed creek. The southwest parcel consists of graded lots with existing underground utilities. We understand that the Client plans to develop this property for commercial and residential use. A detailed description of the current use and conditions observed at the Site is in Section 6.0.

#### 2.4 Descriptions of Structures, Roads, Other Improvements on the Site

The Site currently consists mostly of undeveloped vacant land with stockpiles of various material, two access driveways, and six abandoned mobile construction office conex boxes. A retaining wall is located on the southwestern portion of the Site. Utilities observed included storm water inlets, an electrical transformer, and municipal water and sewer systems. Further description of the Site is in Section 6.0.

# 2.5 Current Uses of Adjoining Properties

Adjoining properties consist of commercial properties to the northeast and east, suburban residential communities to the north, northwest, and southwest, and vacant undeveloped land to the west, south, and southeast. Pointe Lakeview Condominiums are located between the southwest detached parcel and the remaining parcels. Additional information is provided in Section 6.4.

#### 3. USER-PROVIDED INFORMATION

This section provides responses to inquiries made to the Client for site information. The Client was asked via a questionnaire (Appendix B) if they are aware of previous environmental reports or documents that may exist for the Site and if so, whether copies could be provided. They were also asked if they have knowledge of legal or administrative proceedings involving the Site. The

Project No. 08175-06-08 - 6 - October 31, 2014

questionnaire was completed by Mr. Terry Plowden, the Senior Managing Director of Douglas Wilson Companies, and the Purchaser's representative.

#### 3.1 Title, Appraisal and Sale Agreement Records

The Client provided a Preliminary Title Report prepared by First American Title Company for the street address 2723 Lake Pointe Drive 232, Spring Valley, CA, which is referenced as the Lakeview Homes. The report indicates that the parcels referenced as A and B (APNs: 505-672-03, 07, 09, and 10) are owned by "Pointe SDMU, L.P." agreement dated March 4, 1992, and August 28, 1996. The report also indicates that the parcels referenced as C and D (APNs: 505-672-17, 22, and 23) are owned by "Lakeview Homes at the Pointe, LLC agreement dated October 5, 2005 and June 6, 2005." No environmental liens were referenced in the title report. Agreements for public utilities have been recorded for the Site, but the location of easements could not be determined from this record.

# 3.2 Environmental Liens or Activity and Use Limitations

The Client stated that they are unaware of any environmental liens on the Site. According to the Client, much of the undeveloped Site is not useable due to biological resource constraints.

# 3.3 Specialized Knowledge

The Client representative indicated that he has no specialized knowledge regarding the Site or nearby properties.

# 3.4 Commonly Known or Reasonably Ascertainable Information

The Client representative indicated that he is aware the Site was formerly approved for a 720-room resort in the early 1990's, but the developer was unable to secure financing.

#### 3.5 Owner, Property Manager, and Occupant Information

The Client indicated that the undeveloped parcels on the Site are currently owned and managed by Pointe SDMU, L.P. and the proposed 88-unit complex is currently owned and managed by Lakeview Homes at the Pointe, LLC.

#### 3.6 Valuation Reduction for Environmental Issues

The Client representative indicated no knowledge of any environmental conditions that could lead to a potential valuation reduction of the Site.

# 3.7 Reason for Performing the Phase I ESA

The Phase I ESA was requested by the Client to provide information regarding the potential for existing hazardous substances/petroleum products at the Site prior to acquiring the loan on the Site.

# 4. RECORDS REVIEW

This section summarizes our review of readily available agency records for the Site and properties and facilities in the surrounding vicinity.

#### 4.1 Standard Environmental Record Sources

Environmental Data Resources, Inc. (EDR) performed a search of federal, state, and local databases for the Site and surrounding area. The search distance for the review extended one mile from the site boundaries. The listings identified in a database are summarized in the table below. A copy of the report entitled *The EDR Radius Map<sup>TM</sup> Report with GeoCheck*, dated October 24, 2014, is in Appendix C.

Database Name	Search Radius (Mile)	Number of Listings		
FEDERAL DATABASES				
RCRA-NonGen (Resource Conservation Recovery Act – Non Generators)	1/4	1		
RCRA-CESQG (RCRA – Conditionally Exempt Small Quantity Generators)	1/4	1		
RCRA-LQG (RCRA – Large Quantity Generators)	1/4	2

Project No. 08175-06-08 - 8 - October 31, 2014

#### 4.1.1 Site

The Site is not referenced in any of the databases searched by EDR.

# 4.1.2 Offsite Properties

Based on the database search summarized in Section 4.1, the following table summarizes additional information regarding properties listed on regulatory databases searched by EDR that are within  $\frac{1}{8}$ -mile of the Site, the status of their listings, and their potential, if any, to impact (or to have impacted) the Site.

Property Name	Property Address (approximate distance and direction from the Site)	Database Listings	Pertinent Information/ Potential to Impact the Site	
Otay Water District	10595 Jamacha Boulevard (26 feet East)	HIST CORTESE LUST	HIST CORTESE – This facility is listed in the database under Reg. ID 9UT381.  LUST – A case was opened in May 1991 that aquifer had been impacted by waste oil. No additional information provided. Another case was opened in November 1986 when impacted soil was discovered during the removal of a gasoline UST. The incident was minor and did not require remedial action.  Additional information is provided in Sections 4.2 and 4.3.1.	
Main Yard	Iain Yard  10595 Jamacha Boulevard (32 feet East)		HIST UST and SWEEPS UST indicate that two 12,000-gallon unleaded gasoline UST's installed in 1979, one 4,000-gallon diesel UST and one 1,000-gallon diesel USTs installed in 1971 for a gas station. No violations noted.  Additional information is provided in Sections 4.2 and 4.3.1.	
California AB Texaco and 2615 Sweetwater Springs Boulevard	System Springs   Springs Boulevard		Referenced in the EDR US Hist Auto Station database as Marco Sweetwater in 2003, ARCO Sweetwater Springs in 2004 through 2007, and A & F Gas Station in 2010.  Based on the type of listing for this facility, we requested additional information from the County of San Diego Department of Environmental Health (DEH) (Section 4.3.5).	

Property Name	Property Address (approximate distance and direction from the Site)	Database Listings	Pertinent Information/ Potential to Impact the Site
			Referenced in the EDR US Hist Cleaners database as Dee's Alterations & Dry Cleaner in 2010.
2615 Sweetwater Springs Boulevard (Dee's Alteration & Dry Cleaners)	2615 Sweetwater Springs Boulevard (137 feet East)	EDR US Hist Cleaners	Based on the type of listing, we requested additional information from the County of San Diego Department of Environmental Health (DEH) regarding this facility (Section 4.3.5). We also conducted an interview with a representative of the Cleaners (Section 7.0).
			LUST Cleanup case and San Diego Co. SAM databases reference Case No. H04908-002 – Aquifer was impacted by waste oil in May 1991. Soil was impacted by gasoline. Case listed as "Case Closed" as of April 2004.
	2554 Sweetwater Springs Boulevard (195 feet East)	LUST	NPDES database reference Case No. CAG679001. No additional information is provided.
Otay Water District Main		AST ENF San Diego Co. HMMD San Diego Co. SAM NPDES	AST – The database lists the facility with a 1,800-gallon AST.
District CS			One 12,000-gallon UST with unleaded product, one 4,000-gallon UST with diesel product, one 10,000-gallon UST with diesel product and 250-gallon UST waste oil product were reported at this facility. Multiple violation notices for this facility include clerical, housekeeping, equipment and staff notices.
			Additional information is provided in Sections 4.2 and 4.3.1.
Fleet Supply, Inc.	2555 Sweetwater Springs Boulevard (266 feet East)	SWEEPS UST San Diego Co. HMMD	One 1000-gallon UST was reported at this facility with leaded product and M.V. Fuel tank use. No additional information is provided. No violations noted.
			Low potential to impact the Site.
10127 Calle Marinero	10127 Calle Marinero	EDR US Hist Auto Station	Referenced in the EDR US Auto Station database as G & Q Auto Service & Repair in 2009.
	(20) 100(1101(11))		Low potential to impact the Site.
2211 Durasno Lane	2211 Durasno Lane (439 feet Northwest)	EDR US Hist Cleaners	Referenced in the EDR US Hist Cleaners database as Raul Carpets Cleaning in 2008.
Yard, and Otay Water District CS  Fleet Supply, Inc.  10127 Calle Marinero	Springs Boulevard (195 feet East)  2555 Sweetwater Springs Boulevard (266 feet East)  10127 Calle Marinero (269 feet North)  2211 Durasno Lane (439 feet	AST ENF San Diego Co. HMMD San Diego Co. SAM NPDES  SWEEPS UST San Diego Co. HMMD  EDR US Hist Auto Station	is provided.  AST – The database lists the facility with a 1,800-gallon AST.  One 12,000-gallon UST with unlead product, one 4,000-gallon UST with diesel product, one 10,000-gallon UST with diesel product and 250-gallon Us waste oil product were reported at the facility. Multiple violation notices for this facility include clerical, housekeeping, equipment and staff notices.  Additional information is provided in Sections 4.2 and 4.3.1.  One 1000-gallon UST was reported this facility with leaded product and M.V. Fuel tank use. No additional information is provided. No violation noted.  Low potential to impact the Site.  Referenced in the EDR US Auto State database as G & Q Auto Service & Repair in 2009.  Low potential to impact the Site.  Referenced in the EDR US Hist Cleaners database as Raul Carpets

Project No. 08175-06-08 - 10 - October 31, 2014

SAM databases reference a case was opened in July 1986 when impacted soil was discovered during the removal of a gasoline UST. The incident was minor and did not require remedial action.  Case No. H20872-002 is listed as 'Completed – Case Closed' as of August 19, 1986.  Referenced in the EDR US Hist Auto Station database as Turulli Tire Inc. in 2004.  HIST UST indicates that one 2,000-gallon waste oil UST, and two 5,000-gallon diesel UST's were at this facility.  Low potential to impact the Site.
Iron Co (Formerly Raphael's Inc)	2500 Sweetwater Springs Boulevard (604 feet East - Southeast	RCRA-CESQG FINDS	This facility generates 100 kg or less of hazardous waste during any calendar month, and accumulates 1,000 kg or less of hazardous waste at any time. No violations were found.  Low potential to impact the Site.

Based upon the closed case status, lack of indication of a chemical release to the environment, and/or the distance for the database listings, no significant adverse impact to the Site is expected from the nearby properties identified in the database search with the exception of Otay Water District which is discussed further in Sections 4.2 and 4.3.1, the dry cleaning facility which is discussed further in Section 4.3.5 and Section 7.0, and the gas station which is discussed further in Section 4.3.5. The remaining listings are located greater than ½-mile from the Site and are not located adjacent to the Site, and based on the status of their listings the potential, if any, to impact (or to have impacted) the Site is low.

#### 4.1.3 Orphan Summary

The Orphan Summary in the EDR report identifies properties that have incomplete information and therefore could not be accurately assessed or plotted. The Orphan Summary lists twenty facilities and/or properties. Based on information provided for the listed properties, their locations, and the databases on which the properties were listed, no significant adverse impact to the Site is expected from these facilities and/or properties.

Project No. 08175-06-08 - 11 - October 31, 2014

# 4.2 Vapor Encroachment Screening/Conditions

The VEC application provided by EDR is a Tier 1 screening process that follows ASTM E 2600-10. The VEC application screens known or suspected contaminated properties with volatile or semi-volatile COCs within an area of concern (AOC) around the Site to determine if COCs in vapor from those properties could encroach upon the Site. If the length and widths of a contaminant plume from a property are known, then the AOC for a VEC extends 100 feet beyond the known plume dimensions. If the plume dimensions are not known, then ASTM E 2600-10 specifies AOC dimensions based on each type of COC plume (non-petroleum or petroleum).

The AOC for volatile, non-petroleum hydrocarbon COCs (i.e., COCs from dry cleaner sites, industrial sites, manufactured gas plants, hazardous waste disposal sites, and landfills) extends 1,760 feet (1/3 mile) from the site boundary. The AOC for volatile petroleum hydrocarbon COCs (i.e., COCs from gasoline stations or bulk distribution facilities) extends 528 feet (1/10 mile) from the site boundary. However, the AOC around the Site for both types of COCs can be reduced based on known groundwater flow direction, as summarized in the following table:

Location of COC Release	AOC Distance			
Relative to Groundwater Flow Direction	Volatile Non-Petroleum Hydrocarbon COCs	Volatile Petroleum Hydrocarbon COC		
Up-gradient of the Site	1,760 feet or 1/3 mile	528 feet or 1/10 mile		
Cross-gradient from the Site	365 feet	165 feet		
Down-gradient of the Site	100 feet	100 feet		

If a known release of volatile COCs is within the AOC, there is a potential that a VEC exists on the Site unless it can be ruled out based on the presence of a hydraulic or physical barrier. A river can act as a hydraulic barrier or a clay layer in soil can act as a physical barrier that would impede the migration of volatile COCs in vapor onto the Site. Manmade or natural features or conditions such as utility corridors or fractured bedrock can also create preferential vapor pathways that enable vapor to encroach onto the Site.

According to *The EDR Vapor Encroachment Screen Report*, dated October 29, 2014, provided by EDR (Appendix D), one property was identified within the AOC for the Site having releases of volatile petroleum hydrocarbon COCs. The *Vapor Encroachment Screen* database listed Otay Water District located at 10595 Jamacha Boulevard approximately 27 feet east of the Site. A letter prepared by the Department of Environmental Health entitled *Underground Storage Tank Case H04908-002* (*Waste Oil Tank*), dated April 1, 2004, documents a completion of a site investigation and corrective action for the underground storage tank formerly located at 2554 Sweetwater Springs Boulevard. Additional information is provided in Section 4.3.1.

#### 4.3 Additional Environmental Record Sources

We performed a search of additional readily available environmental record sources. The search distance for the review extended approximately one mile from the Site, unless otherwise noted. A summary of our findings is presented below.

#### 4.3.1 GeoTracker and EnviroStor Websites

We reviewed the SWRCB GeoTracker database (http://geotracker.swrcb.ca.gov/) and the Department of Toxic Substances Control (DTSC) EnviroStor database (http://www.envirostor.dtsc.ca.gov/public/) for information regarding properties/facilities located within approximately 1/8 mile of the Site. The GeoTracker database contains summary information on wells and facilities associated with USTs, LUSTs, SLIC cases, land disposal, and non-US Department of Defense facilities. We identified the following facility on the GeoTracker website:

• Otay Water District Main Yard, 2554 Sweetwater Springs Boulevard - located approximately 27 feet east of Area A. DEH Case No. H04908-001 is listed as "Completed – Case Closed as of April 7, 2004" for a LUST Cleanup Site. The GeoTracker website indicates that gasoline may have potentially affected soils where the leak occurred. The GeoTracker website also indicated that a motor/hydraulic/lubricating/waste oil release affected an aquifer used for drinking water supply. DEH noted 22-cubic yards of soil were removed and transported offsite for disposal. Groundwater is estimated to be 66 bgs and may be greater than 100 feet bgs. No additional information is provided. Based on the information provided in the closure summary, and closed status of the former DEH cases, it is unlikely that historical operations have adversely impacted the Site.

# 4.3.2 State of California Department of Conservation, Division of Oil, Gas and Geothermal Resources (DOGGR)

We reviewed information available from the DOGGR website (http://maps.conservation.ca.gov/doms/index.html) for existing/former oil, gas, or geothermal wells on or within the site vicinity. According to the website, no wells are located within one-mile of the Site.

#### 4.3.3 County of San Diego Department of Agriculture, Weights and Measures

We submitted a request to the County of San Diego, Department of Agriculture, Weights and Measures (DAWM), Pesticide Use Enforcement Division regarding possible use of restricted pesticides/herbicides at the Site. The Department maintains such records for approximately four years. According to the County, no record of restricted pesticide/herbicide use was reported for the APNs associated with the Site for the period of 2011 through 2014.

# 4.3.4 San Diego Air Pollution Control District

We submitted a request to the San Diego Air Pollution Control District (APCD) for records pertaining to the Site. According to the APCD, no records were on file for the APNs associated with the Site.

#### 4.3.5 County of San Diego Department of Environmental Health

We submitted a request to the County of San Diego Department of Environmental Health (DEH) for records pertaining to the Site. According to the DEH, no records are on file for the APNs associated with the Site.

We also submitted a request to the DEH for records pertaining to the gas station at 2615 Sweetwater Springs Boulevard to determine if any unauthorized releases have occurred at this facility. According to the DEH representative, permits were available dating back to 1997 through 2006. The facility has multiple records of housekeeping violations but there is no indication of impact to the Site.

We also submitted a request to the DEH for records pertaining to Dee's Alterations & Dry Cleaners at 2615 Sweetwater Springs Boulevard to determine if solvents have been stored at this facility. According to the DEH representative, no records are on file for that address.

#### 4.4 Previous Documents/Reports

The Site is located within portions of The Pointe development formerly known as Hansen's Ranch. The following documents address portions of the Site and/or the site vicinity.

• Preliminary Site Assessment for Hansen's Ranch, Spring Valley, California dated September 25, 1990 (Project No. 08175-06-01).

This Preliminary Site Assessment (PSA) report addresses an 827-acre property referred to as Hansen's Ranch that incorporated the current site boundaries and the properties in the site vicinity to the north, south, east, and west. This PSA addressed the Site, referred to as Hansen's Ranch-West (Area B, C, and D), as well as the eastern adjacent parcel across Jamacha Boulevard referred to as Hansen's Ranch-East (Area A). The PSA included a review of records, a site reconnaissance, and soil and surface water sampling at selected locations to assess the potential for the presence of detectable concentrations of pesticides on the Site (Hansen's Ranch-East).

According to the report, the Site was mostly undeveloped land covered with native grasses, brush, numerous trails/roads, three aboveground water storage tanks, a satellite dish, and their

associated structures. Two man-made reservoirs were noted on the eastern portion of the Site formerly known as Hansen's reservoirs (later renamed Sweetwater Springs). Uncontrolled fill soils were reportedly encountered north of the two reservoirs and along Sweetwater Springs Boulevard. A small portion of the Site was graded for the proposed Highway 54 parallel to Jamacha Boulevard. More than a dozen stockpiles were identified including numerous deposits of undocumented end-dump fill soils and items of domestic trash, some containing cement and asphalt chunks along with other construction debris. Information obtained during a review of title documents did not suggest that the Site had been owned by entities whose name suggested the use, generation, storage or disposal of hazardous materials/wastes onsite. Prior to Hansen's Ranch-West being partially graded in 1990, the Site appeared to be utilized for grazing and/or agricultural activities from at least 1953 to sometime after 1970 that may have included the application of pesticides. The report discussed the results of previous soil and groundwater sampling conducted by others for pesticides and herbicides on the Hansen Ranch-East project. The concentrations of pesticides detected in soil were below regulatory standards for classifying the soil as hazardous waste, as defined in the California Code of Regulations (CCR) Title 22. The results of limited surface water sampling and laboratory testing of the two on-site reservoirs indicated that detectable concentrations of organochlorine and organophosphorus pesticides were not present in the samples obtained. No RECs were identified relative to the property.

A review of information obtained from governmental agency listings and files indicated that a property located to the northeast of the Site (10595 Jamacha Boulevard, Otay Water District) was referenced as having an unauthorized release (UAR) of petroleum hydrocarbons resulting in impact to soils. The impacted soils were removed from the property.

The 1990 PSA of Hansen's Ranch-West and Hansen's Ranch-East stated that the Site was not referenced in the searched records review of governmental regulatory databases. Geocon concluded that the Site had not likely been impacted by hazardous materials at levels requiring regulatory mitigation action. Geocon also concluded that the Site had not likely been impacted by the documented UAR from the underground storage tank on adjacent Otay Water District property. Geocon indicated that soil sampling and analysis would be necessary to assess potential impacts to the site associated with the documented unauthorized release and end-dumped fill materials.

Preliminary Site Assessment Update for Hansen's Ranch – Units 4, 5, 6, Spring Valley, California dated October 7, 1993 (Project No. 08175-06-03).

This PSA update report addresses the property to the west and south of the intersection of Sweetwater Springs Boulevard and Jamacha Boulevard, north of Pointe Parkway (Area B

and C) and Unit 6 located south of Pointe Parkway, which includes the Site except for the parcel to the east across Jamacha Boulevard (Area D). At the time of the PSA update, the Site was referred to as Units 4, 5, and 6. The report included a review of the PSA report of September 1990, preliminary research, a review of records, and a site reconnaissance.

The Site was being graded for onsite improvements including single-family and multi-family residences associated with the proposed resort and golf course. The site reconnaissance summarized Unit 4 having a landscaped area with a water fountain located on the northeastern corner. A trailer described as the main office for the onsite grading was accessed by an unpaved road located adjacent to the west of the northern entrance of the Site (Sweetwater Springs Boulevard). Grading machinery was stored in the northeastern section of Unit 4, approximately 700 feet southeast of the main field office trailer. Approximately twelve surficial stains were noted adjacent to the grading machinery: eight of the stains were approximately 6 square feet and approximately 12 to 18 inches deep. Additional staining was evident under the parked grading machinery; however, limited access to the affected areas prohibited an estimate of the number and the volume of these stains. Pieces of cardboard were observed to be used to absorb the leaking oil from the grading machinery. Mr. Pat Donnelly, a representative of Pointe Builders, was interviewed regarding current and historical uses of the Site. Mr. Donnelly indicated that the subject property was vacant at the time and further indicated that hazardous material/wastes had not been used, stored, generated, or disposed of at the Site and that USTs/ASTs had not been located onsite.

A review of the information obtained from governmental agencies indicated that permits for the installation and removal of USTs were not available for adjacent properties; hazardous materials/wastes were reportedly generated, stored, used, or disposed of at 29 properties located in the site vicinity; and an UAR of hazardous materials/wastes was reported for two properties in the vicinity of the Site: 2520 Sweetwater Springs Boulevard, Burns & Sons Trucking, located approximately ¼-mile north of the Site and 10595 Jamacha Boulevard, Otay Water District, located approximately 1/8-mile northeast of the site. A review of a regulatory agency file for the site at 10595 Jamacha Boulevard indicated that the UAR was discovered during a tank removal and the impacts appeared to be limited to soil. The impacted soil from the tank excavation had reportedly been removed and stockpiled on-site. The case remained open, requiring further site assessment.

• Limited Environmental Site Assessment, Hansen's Ranch, Spring Valley, California dated December 19, 1995 (Project No. 08175-06-04).

We performed a Limited Environmental Site Assessment (LESA) for the 827-acre property referred to as Hansen's Ranch that incorporated the current site boundaries and the properties in the site vicinity to the north, south, east, and west (Area A, B, C, and D). The LESA

included a review of the PSA reports dated September 1990 and October 1993, and a site reconnaissance.

The LESA concluded that it was unlikely the Site had been impacted by hazardous materials/wastes at levels likely to warrant mitigation action pursuant to current regulatory guidelines. Visible indications of impact from hazardous materials/wastes were not apparent in the end-dumped piles of soil and other materials observed on the property. However, soil sampling and analysis would be necessary to provide quantitative evidence that impacts to the subject site have not occurred relating to the Otay Water District property or the end-dumped piles.

• Phase I Environmental Site Assessment, Hansen's Ranch, Spring Valley, California dated September 26, 1997 (Project No. 08175-06-05):

This Phase I ESA report addresses an 827-acre property referred to as Hansen's Ranch that incorporated the current site boundaries and the properties in the site vicinity to the north, south, east, and west (Area A, B, C, and D).

Geocon interviewed Mr. Peter Barton, a Pointe Builders representative, who indicated the only potentially hazardous materials stored on-site, if any, were chlorine and acid associated with the maintenance of the swimming pool located on the adjacent property to the west. According to Mr. Barton, the grading contractor utilized an area west of the intersection of Jamacha Boulevard and Sweetwater Springs Boulevard for receipt of soil from a construction project on State Highway 54 for processing. After processing, the soil was returned to the construction project.

The 1997 Phase I ESA of Hansen's Ranch concluded that the potential for impacts to the Site from hazardous materials/wastes on-site or on properties in the vicinity is considered low. Impacted soil associated with the surficial soil staining observed southwest of and adjacent to the intersection of Jamacha Boulevard and Sweetwater Springs Boulevard should be removed from the Site and disposed of in an appropriate manner. The documented UAR of fuel hydrocarbons from the UST at the Otay Water District property has not likely impacted the subject property. In addition, visible indications of hazardous materials/wastes were not apparent in the end-dumped piles of soil and other materials observed on the property. However, soil sampling and analysis would be necessary to provide quantitative evidence that impacts to the Site have not occurred relating to the Otay Water District property or the end-dumped piles.

• Phase I Environmental Site Assessment, Hansen's Ranch, Spring Valley, California dated February 4, 2002 (Project No. 08175-06-07):

This Phase I ESA report addresses the property bound by Pointe Parkway to the southwest and Spring Glen Lane to the northeast, which includes the southwestern portion of the Site identified by APN 505-672-17 (Area D).

At the time of the site reconnaissance, the Site appeared to be undeveloped and covered with sparse to dense areas of native grasses, shrubs, and trees. The majority of the Site appeared to be graded as 2:1 slopes and level terraces. Ponded water was observed. Scattered trash and debris was observed including landscape waste, wood fragments, glass and plastic bottles, 5-gallon plastic buckets, stockpiles of concrete rubble, brick, rock fragments, and miscellaneous paper products. No odors, drums, significantly stained soil, distressed vegetation, or pits were observed.

The Phase I ESA concluded that the potential for impacts to the Site from hazardous materials/wastes on-site or on properties in the vicinity is considered low. Trash and debris should be removed from the Site and disposed of according to applicable laws and regulations.

#### 5. HISTORICAL USE

This section summarizes information obtained from a variety of sources regarding the historical uses of the Site and identifies those uses that could have led to RECs. The sources of information included a Sanborn fire insurance search, historical aerial photographs, historical topographic maps, and an abstract of city directories provided by EDR.

#### 5.1 Sanborn, Inc. Fire Insurance Maps

According to EDR's Sanborn Map Report dated July 11, 2014, Sanborn maps do not exist for the Site or site vicinity.

# 5.2 Aerial Photographs

Historical aerial photographs provided by EDR for the years 1953, 1966, 1974, 1981, 1990, 1994, 2005, 2009, 2010 and 2012 (Appendix E) were reviewed for indications of past land uses that had the potential to have impacted the Site through the use, storage or disposal of hazardous substances and/or petroleum. The following table summarizes our observations of the Site and adjacent properties visible on the aerial photographs.

<b>V</b> 7	Observations			
Year	Site	Adjacent Properties		
1953 (1" = 500')	On the north-central portion of the Site, cultivated fields and two ponds appear to be on the Site. An unimproved road appears to lead towards a residential structure. Across Jamacha Boulevard on the southeastern portion, a natural drainage is present near the center and trends towards the southwest. Otherwise, the Site was largely undeveloped and covered with grasses and underbrush.	The adjacent property to the north appears to be undeveloped land and a natural drainage present trending towards the northern boundary of the Site. Adjacent properties to the southwest and west appear to have been undeveloped land, covered with grasses, brush, and scattered trees. The adjacent property, across Sweetwater Springs Boulevard, to the northeast appears to be undeveloped land.		
1966 (1" = 500')	The central portion of the Site appears to have several unpaved roads and trails extended across portions of the Site. Otherwise, the use and condition of the Site to the southwest and southeast appears the same as in 1953.	The adjacent properties to the north and northeast, across Sweetwater Springs Boulevard, appeared to have been used as agricultural land with unimproved roads traversing the area. The property adjacent to the southwest of the Site appeared to be a residential development. Adjacent properties to the southeast, across Jamacha Boulevard, appeared to have been a commercial properties and undeveloped land with several unimproved roads/trails across them.		
1974 (1" = 500')	The northern boundary of the Site appears to be disturbed land and the residential structure is no longer. Otherwise, the use and condition of the Site to the southwest and southeast appears the same as in 1966.	The adjacent property to the north appears to be graded vacant pads with unimproved roads. The adjacent property to the northeast, across Sweetwater Springs Boulevard, appears to be a retail/commercial building and agricultural land. The remaining adjacent properties were similar to those observed on the 1966 aerial photograph.		
1981 (1" = 500')	Site conditions were similar to those observed on the 1974 aerial photograph.	The adjacent property to the north appears to be a single-family residential development. Grading was present to the northeast, across Sweetwater Springs Boulevard. The remaining adjacent properties were similar to those observed on the 1974 aerial photograph.		
1990 (1" = 500')	On the southwest intersection of Jamacha Boulevard and Sweetwater Springs Boulevard, the Site appears to have been graded and stockpiles of soil appear to have been placed on site. Across Jamacha Boulevard, a small portion appears to have been cleared. Otherwise, the use and condition of the Site to the southwest and southeast appears the same as in 1981.	Properties in the vicinity to the northeast and southeast appeared to be further developed as commercial. Otherwise, the use and condition of the adjacent properties to the north and west appeared the same as in 1981.		

<b>\$</b> 7	Observations			
Year	Site	Adjacent Properties		
1994 (1" = 500')	On the southeastern portion, the Site appears to have been graded and used as a construction storage yard. Trailers were observed. Several parking areas were present in the central and western portion of the Site. Stockpiles of soil appear to have been placed on land in several locations. One structure was present in the northeastern portion of the Site. On the southwestern portion of the Site, a rectangular reservoir appeared to be present. Otherwise, the use and condition of the Site to the southeast appears the same as in 1990.	The adjacent property to the southwest, residential structures and grading appear to have been adjacent to the Site in the southwestern portion. Pointe Parkway appears to be rough graded. Otherwise, the use and condition of the adjacent properties to the north and west appeared the same as in 1990.		
2005 (1" = 500')	Portions of the Site appear to be graded vacant pads, several parking areas, trailers were observed on the northeast and the southwestern portion of the Site. A network of unimproved roads traversed the Site in various locations. Otherwise, the use and condition of the Site to the southeast appears the same as in 1994.	Conditions were similar to those observed on the 1994 aerial photograph.		
2009 (1" = 500')	Site conditions were similar to those observed on the 2005 aerial photograph.	Conditions were similar to those observed on the 2005 aerial photograph with the exception to the adjacent property to the southwest which is a residential development.		
2010 (1" = 500')	Site conditions were similar to those observed on the 2009 aerial photograph.	Conditions were similar to those observed on the 2009 aerial photograph.		
2012 (1" = 500')	Site conditions were similar to those observed on the 2010 aerial photograph.	Conditions were similar to those observed on the 2010 aerial photograph.		

The Site and adjacent properties appear to have been used for agricultural purposes from at least 1953 to sometime after 1966 suggesting that pesticides may be present in soil beneath the Site and surrounding properties.

# 5.3 Topographic Maps

Historical topographic maps provided by EDR for the years 1903, 1904, 1943, 1955, 1971, 1991, and 1994 were reviewed and are in Appendix F. The following table summarizes observations of the Site and adjacent properties on the historical topographic maps.

\$7	Observations			
Year	Site	Adjacent Properties		
1903 (1:125,000)	No structures or land use are depicted on the Site.	No structures or land use are depicted on adjacent properties. Unimproved roads depicted to the north and Jamacha Boulevard is depicted southeast of the Site, respectively.		
1904 (1:250,000)	The scale of this map is too large to discern details of development on the Site.	The scale of this map is too large to discern details of development on the Site.		
1943 (1:62,500)	The Site is depicted as undeveloped land with a structure in the central portion. Two creeks are depicted on the Site and one is labeled "Isham Springs".	Similar to conditions depicted on the 1903 topographic map with the exception of residential development and Sweetwater Reservoir southwest of the Site. Two creeks are depicted in the vicinity.		
1955 (1: 62,500)	Conditions are similar to those depicted on the 1943 topographic map.	Similar to conditions depicted on the 1943 topographic map with the exception that the adjacent property to the west is depicted as a portion of an orchard and labeled "Dictionary Hill".		
1971 (1:24,000)	Conditions are similar to those depicted on the 1955 topographic map with the exception of two small bodies of water depicted on the central portion of the Site labeled "Sweetwater Springs Reservoirs".	The adjacent property to the southwest is depicted as a residential development. The adjacent property, across Jamacha Boulevard, to the southeast is depicted with small and larger structures. The adjacent property, across Sweetwater Springs Boulevard, to the northeast depicts a small structure. The adjacent property to the west is depicted as undeveloped land.		
1991 (1:50,000)	Conditions are similar to those depicted on the 1971 topographic map.	Similar to conditions depicted on the 1971 topographic map.		
1994 (1:24,000)	Conditions are similar to those depicted on the 1991 topographic map.	Tinting on the map indicates that the adjacent property, across Sweetwater Springs Boulevard, to the northeast of the Site are "built-up" urban areas. Otherwise, the remaining adjacent properties are similar to conditions depicted on the 1991 topographic map.		

The topographic maps depict the Site as having been vacant and undeveloped since at least 1903. No obvious indications of RECs associated with the Site or adjacent/nearby properties are depicted on the topographic maps.

Project No. 08175-06-08 - 21 - October 31, 2014

# 5.4 City Directory

EDR prepared an abstract of city directories including city, cross-reference, and telephone directories. The directories were reviewed at approximately 5 year intervals, if available, from 1970 to 2013. A copy of the EDR city directory abstract dated July 18, 2014, is included with information regarding offsite facilities in Appendix G.

No addresses are currently associated with the Site; however, the Site is referenced in the city directories as occupied by The Pointe San Diego at 10590 Jamacha Boulevard in 1996.

A dry cleaner was referenced for Dee's Alterations & Dry Cleaners at 2615 Sweetwater Springs Boulevard in 2003 and 2013. A gas station was referenced for the address 2615 Sweetwater Springs as Sweetwater Arco, Marco Sweetwater and Ultramar Sweetwater Springs in the years 2013, 2003, 1999 and 1996.

Additional information regarding these facilities is in Section 4.3.5 and 7.0. EDR researched multiple addresses associated with the following streets in the site vicinity: Jamacha Boulevard and Sweetwater Springs Boulevard. According to EDR, the available property-use listings for the above-referenced adjacent properties are primarily for commercial and residential uses. Based on the identified property uses and/or distance from the Site, the potential for these properties to have negatively impacted the Site appears low.

Project No. 08175-06-08 - 22 - October 31, 2014

#### 6. SITE RECONNAISSANCE

This section summarizes observations of the Site and surrounding properties made during the site reconnaissance.

# 6.1 Methodology and Limiting Conditions

Ms. Crystal Castellanos, a Geocon representative, performed the site reconnaissance on July 23 and October 16, 2014, by walking unimproved trails on the Site. She was accompanied by Mr. Terry Plowden, a site representative for Douglas Wilson Companies on July 23, 2014. Our observations of the Site and adjacent properties were limited by tall dense brush and access to unimproved trails. The offsite survey was performed by observing adjacent properties from the Site and adjacent private unimproved trails. Weather on the day of the site reconnaissance was sunny with temperatures in the low-80s. Photographs of various site features and offsite properties are appended. The approximate locations and orientations of photographs of selected site features are also shown on Figure 2.

# 6.2 General Site Setting

The Site vicinity consists of commercial properties to the northeast, and intermingled suburban residential communities and vacant undeveloped land elsewhere. The Site is bound by portions of Spring Glen Lane and Pointe Parkway to the southwest, Jamacha Boulevard to the southeast, and Sweetwater Springs Boulevard to the northeast.

# 6.3 Onsite Survey

The onsite survey of the Site will be described in three parts since public and private streets not associated with the planned residential development separate the Site into sections. The Site is currently low to moderately relieved land, covered primarily with grasses, shrubs, gravel beds and a series of undeveloped graded lots. An unimproved driveway adjacent to Sweetwater Springs Boulevard and another driveway at the northern termination of Pointe Parkway provide access to the Site.

#### 6.3.1 Area A: Southeastern Portion of the Site, APNs 505-672-09 and -10

The southeastern portion of the Site (designated as Area A) is bound by Sweetwater Springs Boulevard to the north, Pointe Parkway to the south, vacant land and residential to the east, and Jamacha Boulevard to the west. The southeastern portion of the Site is located across Jamacha Boulevard, and consists of moderate slopes trending east and undeveloped open space with an unnamed creek extending across the Site from northeast to southwest (Photograph Nos. 14 and 15).

Project No. 08175-06-08 - 23 - October 31, 2014

# 6.3.2 Area B & C: North and Central Portion of the Site, APNs 505-672-03, -37, -23, and -07

The northern and central portions of the Site (designated as Areas B and C) are four contiguous parcels consisting of moderate slopes and overgrown vegetation (Photograph Nos. 6 and 7). This portion of the Site is bound by single-family residences to the north, Sweetwater Springs Boulevard to the northeast, Jamacha Boulevard to the southeast, Pointe Parkway to the southwest, residential community and undeveloped vacant land to the west. A creek lined with dense foliage extends across the central portion of Area B trending northeast to southwest (Photograph No. 10). Five transient camps were found in the eastern portion of the Site within the dense foliage. We observed debris, including household trash, stockpiles of various materials such as soil, construction material, drywall, scrap wood, PVC pipes in various locations throughout the Site (Photograph Nos. 8 and 9). Soil stockpiles appeared to have been generated from site grading. Six abandoned temporary mobile office units owned by previous owners (Pointe Builders) were located on the northeast and southwest and one was connected to a temporary septic tank (Photograph Nos. 11 and 12). Subsequent to the preparation of this Phase I ESA, the abandoned mobile office units and temporary septic tank were removed. At the northern termination of Pointe Parkway on the southwestern portion of the Site, an access driveway leads to an area with surficial soil staining measuring approximately 50 feet by 30 feet which was previously an equipment storage yard (Photograph No. 13). Undocumented fill was observed along the eastern boundary of the Site along Jamacha Boulevard. Utilities observed included storm water inlets, one pad-mounted electrical transformer, municipal water and sewer systems, telecommunications, and electrical services.

#### 6.3.3 Area D: Southwestern Portion of the Site, APN 505-672-17 and -32

The southwestern portion of the Site (designated as Area D) is bound by Pointe Parkway to the north, vacant land and Spring Glen Lane to the southwest, and Pointe Lakeview Condominiums to the east and Jamacha Boulevard to the southeast. This portion of the Site which is planned for development of Phase I of the Pointe Lakeview Condominiums currently consists of three vacant graded pads enclosed by concrete block walls and chain-link fences and separate this area of the Site from adjacent properties. We observed stockpiles of various materials such as soil, construction material, drywall, scrap wood, PVC pipes and over grown vegetation. An empty 55-gallon steel drum was located near the southwest corner of the Site. Utilities observed included storm water inlets, sewer lines, transformers, and municipal water and sewer systems (Photograph Nos. 1 through 5). A trail and driveway provided access to a graded pad and the desilting basin in the southern most portion of Area D and we observed debris and household trash (Photograph Nos. 16 through 19).

No evidence of underground storage tanks, aboveground storage tanks, polychlorinated biphenyl-containing equipment, or petroleum products was observed at the Site. No evidence of stressed vegetation was observed at the Site.

# 6.4 Offsite Survey

Properties within the site vicinity are developed with single- and multi-family residences, undeveloped vacant land, and commercial properties. Observations of properties adjacent to the Site are summarized below:

- North: The Site is bordered by single-family residences (Photograph No. 20).
- **South:** The Site is bordered by a residential development (Photograph No. 21).
- Northeast and Southeast: The Site is bordered by Sweetwater Springs Boulevard adjacent to the northeast with a commercial strip mall occupied by Pho Minh & Grill, Oasis Hookah Lounge, Dee's Alterations and Dry Cleaning, Pro Nails, Fabulous Cuts, Palomino's Mexican Food (including a Chevron gasoline station) beyond. To the southeast is Pointe Parkway and undeveloped vacant land (Photograph Nos. 22 and 23).
- **West:** The Site is bordered by intermingled residential development and undeveloped vacant land (Photograph No. 24).

There were no obvious indications that activities associated with adjacent/nearby properties had impacted the Site with the exception of Dee's Alteration and Dry Cleaners and the Chevron gas station located at 2615 Sweetwater Springs Boulevard. Additional information regarding these facilities are in Section 4.3.5 and Section 7.0. No other evidence of RECs was observed on the surrounding properties and facilities.

Project No. 08175-06-08 - 25 - October 31, 2014

#### 7. INTERVIEWS

# 7.1 Mr. John R. Williams, Representative of the Site Owner

We interviewed Mr. John R. Williams, a representative of the current site owner, via a questionnaire, regarding the current and past uses of the Site (Appendix B). Mr. Williams stated that the Site currently consists of raw land that he has owned for 35 years. He is aware the Site is used as a camp for 14-20 homeless occupants. The property has soil stockpiles and undocumented fill in excess of 300,000 cubic yards, and he notes that the contents of some of the stockpiled material is unknown and may have been unsupervised. Mr. Williams also indicated the stockpiles may be in violation of county ordinances, and underground utilities exist on the site installed on the LakeView Condominium Phase I site. He was aware that motorized construction equipment and materials stored during construction of nearby home sites of the LakeView Phase II produced the soil staining located off of Pointe Parkway near the present guard gate where the Jamacha Boulevard contractor stored supplies during the road improvements.

Historically, Mr. Williams stated that the Site was occupied and owned by the Fred Hansen Trust (1900 - 1981) and formerly utilized for farming and cattle-raising. To his knowledge, there may be ruins of a historic bottling plant and two large watering tanks for cattle. He is unaware if pesticides have been applied from historical farming activities as indicated in the previous report summarized in Section 4.4. He indicated that beginning in 1981, the site use transitioned from agricultural to a master planned residential community. No hazardous materials or fuel are stored onsite. He was not aware of any environmental liens for the property. To his knowledge, there is no existing historical environmental concerns or evidence of RECs at the Site, nor is he aware of any ASTs, USTs, fill or vent pipes at the Site.

According to Mr. Williams, the Otay Water District provides water and Spring Valley Sanitation District provides sewer service to the Site. San Diego Gas and Electric provides electricity and natural gas for the Site.

# 7.2 Dee's Alterations and Dry Cleaners

A representative of Dee's Alterations and Dry Cleaners, who declined to provide their name, indicated that they do not have a dry-cleaning machine at the facility and that they transport dry cleaning items to an offsite warehouse. The representative also indicated that they do not store chemicals at the facility.

Project No. 08175-06-08 - 26 - October 31, 2014

#### 8. SUMMARY OF FINDINGS

We have performed a Phase I ESA, in general conformance with the scope and limitations of ASTM E 1527-13, of the 54.12-acre property referred to as The Pointe and located west and south of the intersection of Sweetwater Springs Boulevard and Jamacha Boulevard in Spring Valley, California. We understand the Client intends to develop the Site for residential and commercial purposes.

The following table presents a summary of findings and opinions associated with the Phase I ESA performed at the Site, including known or suspect RECs, historical RECs, and de minimis environmental conditions.

Assessment Category	Observed (Y/N)	REC or HREC (Y/N)	Recommended Actions
Hazardous Substances/Petroleum Products	N	N	NFA
Hazardous Wastes	N	N	NFA
Non-Hazardous Wastes	Y	N	NFA
Aboveground/Underground Storage Tanks	N	N	NFA
Unidentified Substance Containers	N	N	NFA
<b>Equipment Potentially Containing PCBs</b>	N	N	NFA
Wastewater Systems	N	N	NFA
Evidence of Releases	Y	Y	AA
Pools of Liquid, Pits, Ponds, Lagoons	N	N	NFA
Wells	N	N	NFA
Other Site Issues	Y	Y	AA
Adjacent Properties	Υ	N	NFA
Historical Land Use – Site	Y	Y	AA
Historical Land Use – Adjacent Properties	N	N	NFA

#### **Recommended Action:**

AA = Additional action recommended.

NFA = No further action required at this time.

DM = De minimis condition where additional activities do not appear warranted at this time.

#### 8.1 Non-Hazardous Wastes

Stockpiles of various waste materials such as soil, broken concrete, construction material, drywall, scrap wood, and PVC pipes were observed throughout the southeastern, northern, and central areas of the Site (Areas B, C and D) along with household trash and debris. However, the presence of these

Project No. 08175-06-08 - 27 - October 31, 2014

items is unlikely to adversely impact the environmental condition of the Site, and is not considered a REC for the Site.

#### 8.2 Evidence of Releases

As discussed in Section 6.3.2, surficial soil staining was observed in the area of the previous equipment storage yard (Area B). Other areas of de minimis soil staining do not appear to be an environmental concern at the Site. Due to the aerial extent of the surficial soil staining in the former equipment storage yard, we consider this to be a REC for the Site.

#### 8.3 Other Site Issues

Review of previous documents (Section 4.4), the aerial photographs (Section 5.2) and information obtained from interviews (Section 7) indicates that undocumented fill has been placed in various areas at the Site (Areas B, C, and D), including near the eastern portion of the Site (APN 505-67-03) from 1990 through 2005, reportedly from the construction of the 54 Freeway. Due to the lack of information regarding the placement and unknown contents of the undocumented fill, we consider this to be a REC for the Site.

# 8.4 Adjacent Properties

As discussed in Section 4.3.5, the facility located at 2615 Sweetwater Springs Boulevard is currently a Chevron gas station and is listed on the EDR US Historical Auto Stations database from 2003 to 2010. This facility is also listed on the City Directory as early as 1996 to 2013. Based on the type of listing and lack of information provided in the database, this facility initially could not be ruled out as an environmental concern. However, information provided by the DEH indicates there is no chemical release to the environment. Based on this information, there is a low potential for this facility to have a negative impact on the Site, and is therefore is not considered a REC for the Site.

As discussed in Section 4.3.5 and 7.0, Dee's Alterations and Dry Cleaners, located at 2615 Sweetwater Springs Boulevard adjacent to the northwest of the Site, is listed on the EDR US Historical Cleaners database in 2013. This facility is also listed on the City Directory as early as 2003 to 2013. Based on the type of listing and lack of information provided in the EDR US Historical Cleaners database, this facility initially could not be ruled out as an environmental concern or VEC for the Site. However, information provided by the cleaner's representative indicates that drycleaning equipment and solvents have not been utilized or stored at this facility. Based on this information, there is a low potential for this facility to have a negative impact on the Site and is not considered a REC for the Site.

#### 8.5 Historical Land Use- Site

Our review of historical aerial photographs indicates that the northeastern portion of the Site (Area B; APN 505-672-03) may have been used for agricultural purposes from as early as 1953 to sometime after 1966. Agricultural operations may have included the use of pesticides, which may be present in the onsite soils. No soil assessment appears to have been performed at the Site to evaluate the potential presence of pesticides. A REC exists based on the historical agricultural use of the Site.

Project No. 08175-06-08 - 29 - October 31, 2014

#### 9. CONCLUSIONS AND RECOMMENDATIONS

We have performed a Phase I ESA, in general conformance with the scope and limitations of ASTM E 1527-13, of the 54.12-acre property referred to as The Pointe in Spring Valley, California. Exceptions to, or deletions from, this practice are described in Section 1.4 of this report.

#### 9.1 Non-hazardous Waste

The presence of these items is unlikely to adversely impact the environmental condition of the Site, and is not considered a REC for the Site.

#### 9.2 Evidence of Releases

Due to the aerial extent of the surficial soil staining observed in the former equipment storage yard, we consider this to be a REC for the Site.

#### 9.3 Other Site Issues

The results of the Phase I ESA indicate that undocumented fill has been placed in various areas at the Site, including near the eastern portion of the Site between 1990 through 2005, reportedly from the construction of the 54 freeway. Based on the lack of information regarding the placement and unknown contents of the undocumented fill, we consider this to be a REC for the Site.

#### 9.4 Adjacent Properties

Information provided by the DEH indicates there is no chemical release to the environment from the gas station or dry cleaner located at 2615 Sweetwater Springs Boulevard. Based on this information, there is a low potential for this facility to have a negative impact on the Site and is not considered a REC for the Site.

#### 9.5 Historical Land Use- Site

Based on a review of aerial photographs it appears the Site was used for agricultural purposes from as early as 1953 to sometime after 1966. Agricultural operations may have included the use of pesticides, which may be present in the onsite soils. No soil assessment appears to have been performed at the Site to evaluate the potential presence of pesticides. A REC exists based on the historical agricultural use of the Site.

Based on the results of the Phase I ESA, it is our opinion that the historic agricultural use, the undocumented fill, and the surficial soil staining at the Site are RECs.

#### 11. QUALIFICATIONS

This Phase I ESA report was prepared by Ms. Crystal Castellanos with oversight by Mr. Benjamin G. Eastman. Mr. Eastman declares that, to the best of his professional knowledge and belief, he meets the definition of Environmental Professional as defined in Section 312.10 of 40 CFR Part 312. He has the specific qualifications based on education, training, and experience, to assess a property of the nature, history, and setting of the subject property. He has developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Mr. Eastman is a California Professional Geologist with over 26 years of professional geologic experience and training in environmental, geotechnical, and marine geology and engineering. Mr. Eastman received his BS degree and MS degree in Geological Sciences and has over 20 years of experience in the assessment and remediation of petroleum-related impacts to soil and groundwater at fuel terminals, retail service stations, and other commercial and industrial sites. He has extensive project management experience involving multi-site portfolios for major clients, as well as extensive drilling, sampling, field control, and technical writing experience.

Ms. Castellanos has a BS degree in Geological Science and experience in the preparation and management of Phase I ESAs and other site investigation activities. Ms. Castellanos performs research, environmental assessments and field sampling programs for industrial sites, commercial/retail areas, residential and agricultural properties throughout Southern California.

### **CLIENT-PROVIDED INFORMATION FOR THE SITE**

### SITE:

1.	If possible, please provide us with the title, appraisal, or sale agreement records to review and discuss in the Phase I ESA. A title Report has been provided.
	Are you aware of any environmental liens or activity and use limitations associated with the Site?  I am Not aware of any enviornmental liens. Much of the undercloped  Site is not useable due to biological resources Gustraints.
3	Do you have any specialized knowledge of the Site?  Only information gained during The past 45 days conducting due diligence
4.	Please provide any commonly known or reasonably ascertainable information about the Site.  The Site was approved for a 720 room resort in the enry early 1980'S but The developer was unable to secure financing. All approvals have expire Who currently owns manages and operates the Site?
5.	Who currently owns, manages, and operates the Site? Pointe SDM U, LP. as to The undereloged parciels Lakevicin Homes at the Pointe, LCC as to the 88 unit site
6.	Has the monetary value of the Site been reduced due to environmental issues associated with the Site or adjacent properties?
	Not to my knowledge
7.	Why are you requesting a Phase I ESA for the Site?
	We are acquiring the LOAN ON The Site.

### PROPERTY BACKGROUND INFORMATION QUESTIONNAIRE FOR SITE OWNER, OCCUPANT, OR REPRESENTATIVE

$\alpha$	гл	וח	<b>-</b> 71	
•			ĸ	1
1.71			٠,	'n

*Please elaborate on any question answered "yes." If the question does not apply to the site, please answer "N/A".
1) Describe the current uses of the Site. The Site is approximately 47.2 acres. 41.5 acres is unimproved Land and 5.7 acres is an improved site for an 88 unit multi-family residential project.  2) How long has the Site been used for theses purposes? N/A
3) How long have you occupied the Site? N/A
4) List the existing structures on the property and their age. None
5) Describe the past uses, owners, and operators of the Site. (Be as detailed as possible and note approximate time periods.) Current ownership has held title since approximately 1980. The 88 unit site was improved in approximately 2006.
6) Utilities including electricity, natural gas, water, sewer, and trash removal are provided to the Site by which utility/companies.
Water - OTAY Water District Sewer - Spring Valley Sanitation District Electricity - SDG; E Natural Gas - SDG/E Trash - Unknown
7) What type of heating, ventilating, and air conditioning (HVAC) system is located at the Site and how is the HVAC system powered?
8) Have the Site or adjoining properties been used for industrial activities, such the following? (Please note that an adjoining property is a property that is contiguous with, or directly across the street from the Site.)  Gasoline Station - across The Street  Yes [] No  Printing Facility  [] Yes [] No  Metal Plating Manufacturing  Landfill  [] Yes [] No  Motor Repair Facility  [] Yes [] No  Dry Cleaners  [] Yes [] No  Junkyard  [] Yes [] No  Waste Treatment  [] Yes [] No  Storage, Disposal, or Recycling Facility  [] Yes [] No

Describe other industrial activities, if any. None

9) Have any hazardous substances,	petroleum products, unidentified	waste materials, tires, automotive or
industrial batteries, or other waste r	naterials been dumped abovegrou	nd, buried, or burned on the Site?

Paint [] Yes [] No Chemicals [] Yes [] No Pesticides [] Yes [] No

11) Are hazardous wastes generated at the Site? If yes, describe the means of disposal and frequency of disposal.

[] Yes [] No

12) Have petroleum products been stored on the Site or transferred across the Site in pipelines, either above or belowground?

[] Yes [] No

13) Has fill dirt been brought onto the Site from an offsite source?

Yes [] No

14) Is there evidence that the fill dirt in Question 13 may be contaminated?

[] Yes [/No

15) Are there currently any pits, ponds, or lagoons on the Site?

Yes No (Seasonel)

16) Have any pits, ponds, or lagoons previously existed on the Site?

[] Yes [] No (Secsonal)

17) Are there currently areas on the Site with stained soil?

[] Yes [] No

18) Have stained soils previously existed on the Site?
[] Yes [] No
19) Do chemical-containing underground or aboveground storage tanks exist, or have they existed previously on the Site?
[] Yes [] No
20) Do fill pipes, vent pipes, or access ways indicating the presence of current or former underground storage tanks exist on the Site?
[] Yes [] No
21) Have fill pipes or vent pipes which may indicate the presence of a current or former underground storage tank been removed from the Site? Unknown
[] Yes [] No
22) Are floor drains stained with anything other than water in any area on the Site?
[] Yes [] No
23) Do floor drains on the Site emit foul odors?
[] Yes [/] No
24) Is the Site served by a private well or a non-public water source?
[] Yes J/No
25) Are contaminants known to exist in any private well or non-public water system serving the Site?
[] Yes [/ No
26) Does the Site discharge wastewater, other than domestic wastewater or storm water, into the sewer?
[] Yes JYNo
27) Other than permission for domestic hookup, have any city, county, or local permits for wastewater discharge been issued to the Site?  [] Yes No

28) Does a septic tank exist, or has one existed previously on the Site?
[] Yes J No
29) Do cesspools or cisterns currently exist on the Site?
[] Yes L] No
30) Have cesspools or cisterns previously existed on the Site?
[] Yes [] No
31) Other than storm water, does the Site discharge waste water onto the neighboring Site?
[] Yes J] No
32) Is there a transformer or capacitor that may contain PCBs on the Site? WKnowN
[] Yes [] No
33) Is there hydraulic equipment such as automobile lifts or elevators on the Site?
[] Yes J No
34) Are PCBs contained in hydraulic oil associated with hydraulic equipment located on the Site?
[] Yes I No
35) Has an asbestos and/or lead-based paint survey been conducted at the Site? If so, what were the findings?
[] Yes [] No
36) Other than small quantities of legal pesticides used for landscape maintenance (e.g., Roundup), have pesticides, herbicides, or insecticides been applied on the Site? **Unknown** [ ] Yes [ ] No
37) Are you aware of any environmental liens against the Site that are filed or recorded under federal, tribal, state, or local law?
[] Yes [] No

38) Have any environmental violations or citations associated with activities conducted on the Site been issued?
[] Yes J/No
39) Has the Site been included in other environmental assessments? If so, can copies of the reports be provided? Unknown
[] Yes [] No
40) Have other environmental assessments identified hazardous substances or petroleum products that exist, or may have existed on the Site? Unknown
[] Yes [] No
41) Are there any pending law suits that involve the release or threatened release of hazardous substances associated with the Site?
[] Yes J No
42) Are you aware of any activity and land use limitations, such as engineering controls, land use restrictions or institutional controls that are in place on the Site and/or have been filed or recorded in a registry under federal, tribal, state or local law?
[] Yes LTNo
43) Are you aware of any commonly known or reasonably ascertainable information about the Site that would help the environmental professional to identify conditions indicative of hazardous substance releases or threatened hazardous substance releases?
[] Yes J/No
44) Do you have any specialized knowledge or experience related to the Site or nearby properties, including the knowledge of the chemicals and processes used by this type of business?
[] Yes J No
45) Based in your knowledge or experience related to the Site, are there any obvious indicators that point to the presence or likely presence of contamination at the Site?
[] Yes J\ No
46) If the purchase price of the Site was below fair market value, did this occur because contamination

was/is known or believed to be present on the Site?

# [] Yes [] No [] N/A

# First American Title INFORMATION

The Title Insurance Commitment is a legal contract between you and the company. It is issued to show the basis on which we will issue a Title Insurance Policy to you. The Policy will insure you against certain risks to the land title, subject to the limitations shown in the policy.

The Company will give you a sample of the Policy form, if you ask.

The Commitment is based on the land title as of the Commitment Date. Any changes in the land title or the transaction may affect the Commitment and the Policy.

The Commitment is subject to its Requirements, Exceptions and Conditions.

This information is not part of the title insurance commitment.

### COMMITMENT FOR TITLE INSURANCE

### Issued by

### First American Title

Agreement to Issue Policy

We agree to issue a policy to you according to the terms of this Commitment.

When we show the policy amount and your name as the proposed insured in Schedule A, this Commitment becomes effective as of the Commitment Date shown in Schedule A.

If the Requirements shown in this Commitment have not been met within six months after the Commitment Date, our obligation under this Commitment will end. Also, our obligation under this Commitment will end when the Policy is issued and then our obligation to you will be under the Policy.

Our obligation under this Commitment is limited by the following:

The Provisions in Schedule A.

The Requirements in Schedule B-1.

The Exceptions in Schedule B-2.

The Conditions.

This Commitment is not valid without Schedule A and Sections 1 and 2 of Schedule B.

Commitment No.: NCS-511607-LA2

Page Number: 4

#### **SCHEDULE B**

#### **SECTION ONE**

## REQUIREMENTS

The following requirements must be met:

- (A) Pay the agreed amounts for the interest in the land and/or the mortgage to be insured.
- (B) Pay us the premiums, fees and charges for the policy.
- (C) Documents satisfactory to us creating the interest in the land and/or the mortgage to be insured must be signed, delivered and recorded.
- (D) You must tell us in writing the name of anyone not referred to in this Commitment who will get an interest in the land or who will make a loan on the land. We may then make additional requirements or exceptions.
- (E) Releases(s) or Reconveyance(s) of Item(s): 33, 56 thru 106, 117 and 118
- (F) Other: None
- (G) You must give us the following information:
  - 1. Any off record leases, surveys, etc.
  - 2. Statement(s) of Identity, all parties.
  - 3. Other: None

The following additional requirements, as indicated by "X", must be met:

[X] (H) Provide information regarding any off-record matters, which may include, but are not limited to: leases, recent works of improvement, or commitment statements in effect under the Environmental Responsibility Acceptance Act, Civil Code Section 850, et seq.

The Company's Owner's Affidavit form(as provided by company) must be completed and submitted prior to close in order to satisfy this requirement. This Commitment will then be subject to such further exceptions and/or requirements as may be deemed necessary.

- [] (I) An ALTA/ACSM survey of recent date, which complies with the current minimum standard detail requirements for ALTA/ACSM land title surveys, must be submitted to the Company for review. This Commitment will then be subject to such further exceptions and/or requirements as may be deemed necessary.
- [X] (J) The following LLC documentation is required:
  - (i) a copy of the Articles of Organization
  - (ii) a copy of the Operating Agreement, if applicable
  - (iii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State
  - (iv) express Company Consent to the current transaction

Form No. 1068-2 Commitment No.: NCS-511607-LA2
ALTA Plain Language Commitment Page Number: 8

[X] (K) The following partnership documentation is required: (i) a copy of the partnership agreement, including all applicable amendments thereto (ii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State (iii) express Partnership Consent to the current transaction [](L) The following corporation documentation is required: (i) a copy of the Articles of Incorporation (ii) a copy of the Bylaws, including all applicable Amendments thereto (iii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State (iv) express Corporate Resolution consenting to the current transaction [**X**] (M) Based upon the Company's review of that certain partnership/operating agreement dated **not disclosed** for the proposed insured herein, the following requirements must be met: Any further amendments to said agreement must be submitted to the Company, together with an affidavit from one of the general partners or members stating that it is a true copy, that said partnership or limited liability company is in full force and effect, and that there have been no further amendments to the agreement. This Commitment will then be subject to such further requirements as may be deemed necessary. П (N) A copy of the complete lease, as referenced in Schedule A, #3 herein, together with any amendments and/or assignments thereto, must be submitted to the Company for review, along with an affidavit executed by the present lessee stating that it is a true copy, that the lease is in full force and effect, and that there have been no further amendments to the lease. This Commitment will then be subject to such further requirements as may be deemed necessary. [X] (O) Approval from the Company's Underwriting Department must be obtained for issuance of the policy contemplated herein and any endorsements requested thereunder. This Commitment will then be subject to such further requirements as may be required to obtain such approval. [](P) Potential additional requirements, if ALTA Extended coverage is contemplated hereunder, and work on the land has commenced prior to close, some or all of the following requirements, and any other requirements which may be deemed necessary, may need to be met: [X] (Q) The Company's "Mechanic's Lien Risk Addendum" form must be completed by a Company employee, based upon information furnished by the appropriate parties involved. [X] (R) The Company's "Indemnity Agreement I" must be executed by the appropriate parties. [X] (S) Financial statements from the appropriate parties must be submitted to the Company for review. [X] (T) A copy of the construction contract must be submitted to the Company for review. [X] (U) An inspection of the land must be performed by the Company for verification of the phase

of construction.

#### **INFORMATIONAL NOTES**

1. The property covered by this report is vacant land.

(Affects Parcels A, B and C)

2. According to the latest available equalized assessment roll in the office of the county tax assessor, there is located on the land a(n) Commercial Condominium known as 2723 Lake Pointe Drive 232, Spring ValleyCalifornia.

(Affects Parcels D)

3. According to the public records, there has been no conveyance of the land within a period of twenty-four months prior to the date of this report, except as follows:

None

4. This preliminary report/commitment was prepared based upon an application for a policy of title insurance that identified land by street address or assessor's parcel number only. It is the responsibility of the applicant to determine whether the land referred to herein is in fact the land that is to be described in the policy or policies to be issued.

The map attached, if any, may or may not be a survey of the land depicted hereon. First American Title Insurance Company expressly disclaims any liability for loss or damage which may result from reliance on this map except to the extent coverage for such loss or damage is expressly provided by the terms and provisions of the title insurance policy, if any, to which this map is attached.

Form No. 1068-2 ALTA Plain Language Commitment

Commitment No.: NCS-511607-LA2

Page Number: 30

#### **CONDITIONS**

#### 1. **DEFINITIONS**

(a)"Mortgage" means mortgage, deed of trust or other security instrument.

(b)"Public Records" means title records that give constructive notice of matters affecting the title according to the state law where the land is located.

#### 2. LATER DEFECTS

The Exceptions in Schedule B - Section Two may be amended to show any defects, liens or encumbrances that appear for the first time in the public records or are created or attached between the Commitment Date and the date on which all of the Requirements (a) and (c) of Schedule B - Section One are met. We shall have no liability to you because of this amendment.

#### 3. **EXISTING DEFECTS**

If any defects, liens or encumbrances existing at Commitment Date are not shown in Schedule B, we may amend Schedule B to show them. If we do amend Schedule B to show these defects, liens or encumbrances, we shall be liable to you according to Paragraph 4 below unless you knew of this information and did not tell us about it in writing.

#### 4. LIMITATION OF OUR LIABILITY

Our only obligation is to issue to you the Policy referred to in this Commitment, when you have met its Requirements. If we have any liability to you for any loss you incur because of an error in this Commitment, our liability will be limited to your actual loss caused by your relying on this Commitment when you acted in good faith to:

comply with the Requirements shown in Schedule B - Section One

eliminate with our written consent any Exceptions shown in Schedule B - Section Two.

We shall not be liable for more than the Policy Amount shown in Schedule A of this Commitment and our liability is subject to the terms of the Policy form to be issued to you.

#### 5. CLAIMS MUST BE BASED ON THIS COMMITMENT

Any claim, whether or not based on negligence, which you may have against us concerning the title to the land must be based on this commitment and is subject to its terms.

Commitment No.: NCS-511607-LA2

Page Number: 31

#### We Are Committed to Safeguarding Customer Information

In order to better serve your needs now and in the future, we may ask you to provide us with certain information. We understand that you may be concerned about what we will do with such information - particularly any personal or financial information. We agree that you have a right to know how we will utilize the personal information you provide to us. Therefore, together with our subsidiaries we have adopted this Privacy Policy to govern the use and handling of your personal information.

This Privacy Policy governs our use of the information that you provide to us. It does not govern the manner in which we may use information we have obtained from any other source, such as information obtained from a public record or from another person or entity. First American has also adopted broader guidelines that govern our use of personal information regardless of its source. First American calls these guidelines its Fair Information Values.

Depending upon which of our services you are utilizing, the types of nonpublic personal information that we may collect include:

- Information we receive from you on applications, forms and in other communications to us, whether in writing, in person, by telephone or any other means;
- Information about your transactions with us, our affiliated companies, or others; and
- Information we receive from a consumer reporting agency.

#### **Use of Information**

We request information from you for our own legitimate business purposes and not for the benefit of any nonaffiliated party. Therefore, we will not release your information to nonaffiliated parties except: (1) as necessary for us to provide the product or service you have requested of us; or (2) as permitted by law. We may, however, store such information indefinitely, including the period after which any customer relationship has ceased. Such information may be used for any internal purpose, such as quality control efforts or customer analysis. We may also provide all of the types of nonpublic personal information listed above to one or more of our affiliated companies. Such affiliated companies include financial service providers, such as title insurers, property and casualty insurers, and trust and investment advisory companies, or companies involved in real estate services, such as appraisal companies, home warranty companies and escrow companies. Furthermore, we may also provide all the information we collect, as described above, to companies that perform marketing services on our behalf, on behalf of our affiliated companies or to other financial institutions with whom we or our affiliated companies have joint marketing agreements.

#### Former Customers

Even if you are no longer our customer, our Privacy Policy will continue to apply to you.

#### Confidentiality and Security

We will use our best efforts to ensure that no unauthorized parties have access to any of your information. We restrict access to nonpublic personal information about you to those individuals and entities who need to know that information to provide products or services to you. We will use our best efforts to train and oversee our employees and agents to ensure that your information will be handled responsibly and in accordance with this Privacy Policy and First American's Fair Information Values. We currently maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

#### Information Obtained Through Our Web Site

First American Financial Corporation is sensitive to privacy issues on the Internet. We believe it is important you know how we treat the information about you we receive on the Internet. In general, you can visit First American or its affiliates' Web sites on the World Wide Web without telling us who you are or revealing any information about yourself. Our Web servers collect the

domain names, not the e-mail addresses, of visitors. This information is aggregated to measure the number of visits, average time spent on the site, pages viewed and similar information. First American uses this information to measure the use of our site and to develop ideas to improve the content of our site.

There are times, however, when we may need information from you, such as your name and email address. When information is needed, we will use our best efforts to let you know at the time of

collection how we will use the personal information. Usually, the personal information we collect is used only by us to respond to your inquiry, process an order or allow you to access specific account/profile information. If you choose to share any personal information with us, we will only use it in accordance with the policies outlined above.

First American Financial Corporation's site and its affiliates' sites may contain links to other Web sites. While we try to link only to sites that share our high standards and respect for privacy, we are not responsible for the content or the privacy practices employed by other sites.

#### Cookies

Some of First American's Web sites may make use of "cookie" technology to measure site activity and to customize information to your personal tastes. A cookie is an element of data that a Web site can send to your browser, which may then store the cookie on your hard drive.

FirstAm.com uses stored cookies. The goal of this technology is to better serve you when visiting our site, save you time when you are here and to provide you with a more meaningful and productive Web site experience.

#### Fair Information Values

Fairness We consider consumer expectations about their privacy in all our businesses. We only offer products and services that assure a favorable balance between consumer benefits and consumer

Public Record We believe that an open public record creates significant value for society, enhances consumer choice and creates consumer opportunity. We actively support an open public record and emphasize its importance and contribution to our economy.

**Use** We believe we should behave responsibly when we use information about a consumer in our business. We will obey the laws governing the collection, use and dissemination of data. **Accuracy** We will take reasonable steps to help assure the accuracy of the data we collect, use and disseminate. Where possible, we will take reasonable steps to correct inaccurate information.

When, as with the public record, we cannot correct inaccurate information, we will take all reasonable steps to assist consumers in identifying the source of the erroneous data so that the consumer can secure the required corrections.

Education We endeavor to educate the users of our products and services, our employees and others in our industry about the importance of consumer privacy. We will instruct our employees on our fair information values and on the responsible collection and use of data. We will encourage others in our industry to collect and use information in a responsible manner.

Security We will maintain appropriate facilities and systems to protect against unauthorized access to and corruption of the data we maintain.

## EXHIBIT A LIST OF PRINTED EXCEPTIONS AND EXCLUSIONS (BY POLICY TYPE)

## 1. CALIFORNIA LAND TITLE ASSOCIATION STANDARD COVERAGE POLICY - 1990 SCHEDULE B

#### **EXCEPTIONS FROM COVERAGE**

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

- Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records. Proceedings by a public agency which may result in taxes or assessments, or notice of such proceedings, whether or not shown by the records of such agency or by the public records.
- 2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
- 3. Easements, liens or encumbrances, or claims thereof, which are not shown by the public records.
- 4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
- 5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the public records.

#### **EXCLUSIONS FROM COVERAGE**

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

- 1. (a) Any law, ordinance or governmental regulation (including but not limited to building and zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating to (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
  - (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
- 2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
- 3. Defects, liens, encumbrances, adverse claims or other matters:
  - (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant; (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
  - (c) resulting in no loss or damage to the insured claimant;
  - (d) attaching or created subsequent to Date of Policy; or
  - (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
- 4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with applicable "doing business" laws of the state in which the land is situated.
- 5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
- 6. Any claim, which arises out of the transaction vesting in the insured the estate or interest insured by their policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

## 2. AMERICAN LAND TITLE ASSOCIATION OWNER'S POLICY FORM B - 1970 SCHEDULE OF EXCLUSIONS FROM COVERAGE

- 1. Any law, ordinance or governmental regulation (including but not limited to building and zoning ordinances) restricting or regulating or prohibiting the occupancy, use or enjoyment of the land, or regulating the character, dimensions or location of any improvement now or hereafter erected on the land, or prohibiting a separation in ownership or a reduction in the dimensions of area of the land, or the effect of any violation of any such law, ordinance or governmental regulation.
- 2. Rights of eminent domain or governmental rights of police power unless notice of the exercise of such rights appears in the public records at Date of Policy.
- 3. Defects, liens, encumbrances, adverse claims, or other matters (a) created, suffered, assumed or agreed to by the insured claimant; (b) not known to the Company and not shown by the public records but known to the insured claimant either at Date of Policy or at the date such claimant acquired an estate or interest insured by this policy and not disclosed in writing by the insured claimant to the Company prior to the date such insured claimant became an insured hereunder; (c) resulting in no loss or damage to the insured claimant; (d) attaching or created subsequent to Date of Policy; or (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the estate or interest insured by this policy.

## 3. AMERICAN LAND TITLE ASSOCIATION OWNER'S POLICY FORM B - 1970 WITH REGIONAL EXCEPTIONS

When the American Land Title Association policy is used as a Standard Coverage Policy and not as an Extended Coverage Policy the exclusions set forth in paragraph 2 above are used and the following exceptions to coverage appear in the policy.

Form No. 1068-2 ALTA Plain Language Commitment

Commitment No.: NCS-511607-LA2 Page Number: 33

This policy does not insure against loss or damage by reason of the matters shown in parts one and two following: Part One

- Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real 1. property or by the public records.
- 2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of said land or by making inquiry of persons in possession thereof.
- Easements, claims of easement or encumbrances which are not shown by the public records. 3.
- Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and 4. which are not shown by public records.
- 5. Unpatented mining claims; reservations or exceptions in patents or in Acts authorizing the issuance thereof; water rights, claims or title to water.
- 6. Any lien, or right to a lien, for services, labor or material heretofore or hereafter furnished, imposed by law and not shown by the public records.

#### 4. AMERICAN LAND TITLE ASSOCIATION LOAN POLICY - 1970 WITH A.L.T.A. ENDORSEMENT FORM 1 COVERAGE SCHEDULE OF EXCLUSIONS FROM COVERAGE

- 1. Any law, ordinance or governmental regulation (including but not limited to building and zoning ordinances) restricting or regulating or prohibiting the occupancy, use or enjoyment of the land, or regulating the character, dimensions or location of any improvement now or hereafter erected on the land, or prohibiting a separation in ownership or a reduction in the dimensions or area of the land, or the effect of any violation of any such law ordinance or governmental regulation.
- Rights of eminent domain or governmental rights of police power unless notice of the exercise of such rights appears in the public records at 2.
- Defects, liens, encumbrances, adverse claims, or other matters (a) created, suffered, assumed or agreed to by the insured claimant, (b) not 3. known to the Company and not shown by the public records but known to the insured claimant either at Date of Policy or at the date such claimant acquired an estate or interest insured by this policy or acquired the insured mortgage and not disclosed in writing by the insured claimant to the Company prior to the date such insured claimant became an insured hereunder, (c) resulting in no loss or damage to the insured claimant; (d) attaching or created subsequent to Date of Policy (except to the extent insurance is afforded herein as to any statutory lien for labor or material or to the extent insurance is afforded herein as to assessments for street improvements under construction or completed at Date of Policy).
- Unenforceability of the lien of the insured mortgage because of failure of the insured at Date of Policy or of any subsequent owner of the 4. indebtedness to comply with applicable "doing business" laws of the state in which the land is situated.

#### 5. AMERICAN LAND TITLE ASSOCIATION LOAN POLICY - 1970 WITH REGIONAL EXCEPTIONS

When the American Land Title Association Lenders Policy is used as a Standard Coverage Policy and not as an Extended Coverage Policy, the exclusions set forth in paragraph 4 above are used and the following exceptions to coverage appear in the policy.

#### **SCHEDULE B**

This policy does not insure against loss or damage by reason of the matters shown in parts one and two following: Part One

- 1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
- 2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of said land or by making inquiry of persons in possession thereof.
- Easements, claims of easement or encumbrances which are not shown by the public records. 3.
- Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by public records.
- Unpatented mining claims; reservations or exceptions in patents or in Acts authorizing the issuance thereof; water rights, claims or title to 5. water.
- Any lien, or right to a lien, for services, labor or material theretofore or hereafter furnished, imposed by law and not shown by the public 6. records.

#### 6. AMERICAN LAND TITLE ASSOCIATION LOAN POLICY - 1992 WITH A.L.T.A. ENDORSEMENT FORM 1 COVERAGE **EXCLUSIONS FROM COVERAGE**

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

(a) Any law, ordinance or governmental regulation (including but not limited to building and zoning laws, ordinances, or regulations) 1. restricting, regulating, prohibiting or relating to (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy; (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.

Form No. 1068-2 Commitment No.: NCS-511607-LA2
ALTA Plain Language Commitment Page Number: 34

2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.

- 3. Defects, liens, encumbrances, adverse claims, or other matters:
  - (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant; (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy; (c) resulting in no loss or damage to the insured claimant;
  - (d) attaching or created subsequent to Date of Policy (except to the extent that this policy insures the priority of the lien of the insured mortgage over any statutory lien for services, labor or material or the extent insurance is afforded herein as to assessments for street improvements under construction or completed at date of policy); or
  - (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage.
- 4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable "doing business" laws of the state in which the land is situated.
- 5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
- 6. Any statutory lien for services, labor or materials (or the claim of priority of any statutory lien for services, labor or materials over the lien of the insured mortgage) arising from an improvement or work related to the land which is contracted for and commenced subsequent to Date of Policy and is not financed in whole or in part by proceeds of the indebtedness secured by the insured mortgage which at Date of Policy the insured has advanced or is obligated to advance.
- 7. Any claim, which arises out of the transaction creating the interest of the mortgagee insured by this policy, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that is based on:
  - (i) the transaction creating the interest of the insured mortgagee being deemed a fraudulent conveyance or fraudulent transfer; or
  - (ii) the subordination of the interest of the insured mortgagee as a result of the application of the doctrine of equitable subordination; or
  - (iii) the transaction creating the interest of the insured mortgagee being deemed a preferential transfer except where the preferential transfer results from the failure:
  - (a) to timely record the instrument of transfer; or
  - (b) of such recordation to impart notice to a purchaser for value or a judgment or lien creditor.

#### 7. AMERICAN LAND TITLE ASSOCIATION LOAN POLICY - 1992 WITH REGIONAL EXCEPTIONS

When the American Land Title Association policy is used as a Standard Coverage Policy and not as an Extended Coverage Policy the exclusions set forth in paragraph 6 above are used and the following exceptions to coverage appear in the policy.

#### **SCHEDULE B**

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

- 1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
- 2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of said land or by making inquiry of persons in possession thereof.
- 3. Easements, claims of easement or encumbrances which are not shown by the public records.
- 4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by public records.
- 5. Unpatented mining claims; reservations or exceptions in patents or in Acts authorizing the issuance thereof; water rights, claims or title to water.
- 6. Any lien, or right to a lien, for services, labor or material theretofore or hereafter furnished, imposed by law and not shown by the public records.

#### 8. AMERICAN LAND TITLE ASSOCIATION OWNER'S POLICY - 1992 EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

- 1. (a) Any law, ordinance or governmental regulation (including but not limited to building and zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating to (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.

  (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or a notice of a
  - defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
- 2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
- 3. Defects, liens, encumbrances, adverse claims, or other matters:
  - (a) created, suffered, assumed or agreed to by the insured claimant;
  - (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
  - (c) resulting in no loss or damage to the insured claimant;
  - (d) attaching or created subsequent to Date of Policy; or

ALTA Plain Language Commitment Page Number: 35

- (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the estate or interest insured by this policy.
- 4. Any claim, which arises out of the transaction vesting in the insured the estate or interest insured by this policy, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that is based on:
  - (i) the transaction creating the estate or interest insured by this policy being deemed a fraudulent conveyance or fraudulent transfer; or
  - (ii) the transaction creating the estate or interest insured by this policy being deemed a preferential transfer except where the preferential transfer results from the failure:
  - (a) to timely record the instrument of transfer; or
  - (b) of such recordation to impart notice to a purchaser for value or a judgment or lien creditor.

#### 9. AMERICAN LAND TITLE ASSOCIATION OWNER'S POLICY - 1992 WITH REGIONAL EXCEPTIONS

When the American Land Title Association policy is used as a Standard Coverage Policy and not as an Extended Coverage Policy the exclusions set forth in paragraph 8 above are used and the following exceptions to coverage appear in the policy.

#### **SCHEDULE B**

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of: Part One:

- 1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
- 2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of said land or by making inquiry of persons in possession thereof.
- 3. Easements, claims of easement or encumbrances which are not shown by the public records.
- 4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by public records.
- 5. Unpatented mining claims; reservations or exceptions in patents or in Acts authorizing the issuance thereof; water rights, claims or title to water.
- 6. Any lien, or right to a lien, for services, labor or material theretofore or hereafter furnished, imposed by law and not shown by the public records.

# 10. AMERICAN LAND TITLE ASSOCIATION RESIDENTIAL TITLE INSURANCE POLICY - 1987 EXCLUSIONS

In addition to the Exceptions in Schedule B, you are not insured against loss, costs, attorneys' fees and expenses resulting from:

- 1. Governmental police power, and the existence or violation of any law or government regulation. This includes building and zoning ordinances and also laws and regulations concerning:
  - \* land use

\* land division

\* improvements on the land

\* environmental protection

This exclusion does not apply to violations or the enforcement of these matters which appear in the public records at Policy Date. This exclusion does not limit the zoning coverage described in items 12 and 13 of Covered Title Risks.

- 2. The right to take the land by condemning it, unless:
  - \* a notice of exercising the right appears in the public records on the Policy Date
  - \* the taking happened prior to the Policy Date and is binding on you if you bought the land without knowing of the taking.
- Title Risks:
  - \* that are created, allowed, or agreed to by you
  - \* that are known to you, but not to us, on the Policy Date unless they appeared in the public records
  - \* that result in no loss to you
  - \* that first affect your title after the Policy Date this does not limit the labor and material lien coverage in Item 8 of Covered Title Risks
- 4. Failure to pay value for your title.
- 5. Lack of a right:
  - \* to any land outside the area specifically described and referred to in Item 3 of Schedule A, or
  - \* in streets, alleys, or waterways that touch your land

This exclusion does not limit the access coverage in Item 5 of Covered Title Risks.

#### 11. EAGLE PROTECTION OWNER'S POLICY

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE - 1998 ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE - 1998

Covered Risks 14 (Subdivision Law Violation). 15 (Building Permit). 16 (Zoning) and 18 (Encroachment of boundary walls or fences) are subject to Deductible Amounts and Maximum Dollar Limits of Liability

#### **EXCLUSIONS**

In addition to the Exceptions in Schedule B, you are not insured against loss, costs, attorneys' fees, and expenses resulting from:

Form No. 1068-2 Commitment No.: NCS-511607-LA2
ALTA Plain Language Commitment Page Number: 36

1. Governmental police power, and the existence or violation of any law or government regulation. This includes ordinances, laws and regulations concerning:

a. building b. zoning

c. land use d. improvements on the land

e. land division f. environmental protection

This exclusion does not apply to violations or the enforcement of these matters if notice of the violation or enforcement appears in the Public Records at the Policy Date.

This exclusion does not limit the coverage described in Covered Risk 14, 15, 16, 17 or 24.

- 2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not apply to violations of building codes if notice of the violation appears in the Public Records at the Policy Date.
- 3. The right to take the Land by condemning it, unless:
  - a. a notice of exercising the right appears in the Public Records at the Policy Date; or
  - b. the taking happened before the Policy Date and is binding on You if You bought the Land without Knowing of the taking.
- 4. Risks
  - a. that are created, allowed, or agreed to by You, whether or not they appear in the Public Records;
  - b. that are Known to You at the Policy Date, but not to Us, unless they appear in the Public Records at the Policy Date;
  - c. that result in no loss to You; or
  - d. that first occur after the Policy Date this does not limit the coverage described in Covered Risk 7, 8.d, 22, 23, 24 or 25.
- 5. Failure to pay value for Your Title.
- 6. Lack of a right:
  - a. to any Land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
  - b. in streets, alleys, or waterways that touch the Land.

This exclusion does not limit the coverage described in Covered Risk 11 or 18.

## 12. THIRD GENERATION EAGLE LOAN POLICY AMERICAN LAND TITLE ASSOCIATION EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (1/01/08)

#### **EXCLUSIONS FROM COVERAGE**

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

- 1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to (i) the occupancy, use, or enjoyment of the Land; (ii) the character, dimensions, or location of any improvement erected on the Land; (iii) the subdivision of land; or(iv) environmental protection; or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or
  - (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
- 2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
- 3. Defects, liens, encumbrances, adverse claims, or other matters
  - (a) created, suffered, assumed or agreed to by the Insured Claimant;
  - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
  - (c) resulting in no loss or damage to the Insured Claimant;
  - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
  - (e) resulting in loss or damage which would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
- 4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing business laws of the state where the Land is situated.
- 5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
- 6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
- 7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
- 8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.

# 13. AMERICAN LAND TITLE ASSOCIATION LOAN POLICY - 2006 EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

- 1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
  - (i) the occupancy, use, or enjoyment of the Land;
  - (ii) the character, dimensions, or location of any improvement erected on the Land;
  - (iii) the subdivision of land; or
  - (iv) environmental protection;

Commitment No.: NCS-511607-LA2 Page Number: 37

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.

- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
- 2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
- 3. Defects, liens, encumbrances, adverse claims, or other matters
  - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
  - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
  - (c) resulting in no loss or damage to the Insured Claimant;
  - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or
  - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
- Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-4. business laws of the state where the Land is situated.
- Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the 5. Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
- 6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
  - (a) a fraudulent conveyance or fraudulent transfer, or
  - (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
- 7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

#### 14. AMERICAN LAND TITLE ASSOCIATION LOAN POLICY - 2006 WITH REGIONAL EXCEPTIONS

When the American Land Title Association policy is used as a Standard Coverage Policy and not as an Extended Coverage Policy the exclusions set forth in paragraph 13 above are used and the following exceptions to coverage appear in the policy.

#### **SCHEDULE B**

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

- (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real 1. property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
- Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or 2. that may be asserted by persons in possession of the Land.
- Easements, liens or encumbrances, or claims thereof, not shown by the Public Records. 3.
- Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate 4. and complete land survey of the Land and not shown by the Public Records.
- (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims 5. or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.

#### 15. AMERICAN LAND TITLE ASSOCIATION OWNER'S POLICY - 2006 **EXCLUSIONS FROM COVERAGE**

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

- (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, 1. prohibiting, or relating to
  - (i) the occupancy, use, or enjoyment of the Land;
  - (ii) the character, dimensions, or location of any improvement erected on the Land;
  - (iii) the subdivision of land; or
  - (iv) environmental protection; or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.

Commitment No.: NCS-511607-LA2 Page Number: 38

- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
- 2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
- 3. Defects, liens, encumbrances, adverse claims, or other matters
  - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
  - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
  - (c) resulting in no loss or damage to the Insured Claimant;
  - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risks 9 and 10); or
  - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
- 4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors rights laws, that the transaction vesting the Title as shown in Schedule A, is
  - (a) a fraudulent conveyance or fraudulent transfer; or
  - (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
- Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of 5. Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

#### 16. AMERICAN LAND TITLE ASSOCIATION OWNER'S POLICY - 2006 WITH REGIONAL EXCEPTIONS

When the American Land Title Association policy is used as a Standard Coverage Policy and not as an Extended Coverage Policy the exclusions set forth in paragraph 15 above are used and the following exceptions to coverage appear in the policy.

#### **SCHEDULE B**

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason

- (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real 1. property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
- 2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
- Easements, liens or encumbrances, or claims thereof, not shown by the Public Records. 3.
- Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate 4. and complete land survey of the Land and not shown by the Public Records.
- (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims 5. or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.

#### **EXECUTIVE SUMMARY**

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

#### **SURROUNDING SITES: SEARCH RESULTS**

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in **bold italics** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

#### STANDARD ENVIRONMENTAL RECORDS

#### Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 06/10/2014 has revealed that there are 2 RCRA-LQG sites within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
GOLDEN STATE METAL FINISHING	2737 VIA ORANGE WAY	NE 1/8 - 1/4 (0.228 mi.)	D31	76
GOLDEN STATE METAL FINISHING	2737 VIA ORANGE WAY	NE 1/8 - 1/4 (0.228 mi.)	D33	78

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 06/10/2014 has revealed that there are 4 RCRA-SQG sites within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
JAYCRAFT CORP	2780 VIA ORANGE WY	NE 1/8 - 1/4 (0.190 mi.)	D18	46

THE COLOR FACTORY	2830 VIA ORANGE WAY	NNE 1/8 - 1/4 (0.205 mi.)	D24	54

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list, as provided by EDR, and dated 06/10/2014 has revealed that there is

1 RCRA-CESQG site within approximately 0.25 miles of the target property.

#### State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 08/05/2014 has revealed that there is 1 ENVIROSTOR site within approximately 1 mile of the target property.

# State and tribal leaking storage tank lists

LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the State Water Resources Control Board Leaking Underground Storage Tank Information System.

A review of the LUST list, as provided by EDR, and dated 07/30/2014 has revealed that there are 4 LUST sites within approximately 0.5 miles of the target property.

### State and tribal registered storage tank lists

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, and dated 07/30/2014 has revealed that there are 2 UST sites within approximately 0.25 miles of the target property.

### ADDITIONAL ENVIRONMENTAL RECORDS

### Local Lists of Registered Storage Tanks

HIST UST: Historical UST Registered Database.

A review of the HIST UST list, as provided by EDR, and dated 10/15/1990 has revealed that there are 3 HIST UST sites within approximately 0.25 miles of the target property.

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 3 SWEEPS UST sites within approximately 0.25 miles of the target property.

#### Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/10/2014 has revealed that there is 1 RCRA NonGen / NLR site within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
UNI FIBER USA	2830 VIA ORANGE WAY	NNE 1/8 - 1/4 (0.205 mi.)	D25	56

HIST CORTESE: The sites for the list are designated by the State Water Resource Control Board [LUST], the Integrated Waste Board [SWF/LS], and the Department of Toxic Substances Control [CALSITES]. This listing is no longer updated by the state agency.

A review of the HIST CORTESE list, as provided by EDR, and dated 04/01/2001 has revealed that there are 4 HIST CORTESE sites within approximately 0.5 miles of the target property.

#### **EDR HIGH RISK HISTORICAL RECORDS**

#### **EDR Exclusive Records**

EDR US Hist Auto Stat: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR US Hist Auto Stat list, as provided by EDR, has revealed that there are 7 EDR US Hist Auto Stat sites within approximately 0.25 miles of the target property.

EDR US Hist Cleaners: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR US Hist Cleaners list, as provided by EDR, has revealed that there are 5 EDR US Hist Cleaners sites within approximately 0.25 miles of the target property.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and

corrective action activities required under RCRA.

Local Agency: SAN DIEGO COUNTY LOP

RB Case Number: 9UT3104
LOC Case Number: H20861-001
File Location: Local Agency

Potential Media Affect: Aquifer used for drinking water supply

Potential Contaminants of Concern: MTBE / TBA / Other Fuel Oxygenates, Gasoline

Site History: On August 9, 1995, an underground storage tank (UST) containing

gasoline and associated piping was removed from the site. Total petroleum hydrocarbons (TPH) from kerosene and diesel were detected in soil samples from under the north end of the UST and in the piping trench at a maximum of 810 and 790 milligrams per kilogram (mg/kg), respectively. Based upon these results, Unauthorized Release H20861-001 was opened. It was determined later that the results matched the chromatogram for weathered gasoline. In October 1995, the

UST excavation was extended to approximately 40 feet by 20 feet

laterally and up to 23 feet deep, resulting in the removal of

approximately 1,101 tons (approximately 750 cubic yards) of soil from the site. A new UST and dispenser were installed in the excavation in November 1995. This UST, dispenser, and associated piping were removed on November 3, 2004. TPH from diesel (TPHd) was detected in the soil sample collected from beneath the north end of the UST at 100 mg/kg and MTBE was detected in the soil sample collected from

Map ID MAP FINDINGS
Direction

Distance Elevation

Site Database(s) EPA ID Number

#### **USPS SPRING VALLEY STATION (Continued)**

S100731781

**EDR ID Number** 

beneath the dispenser at 0.0069 mg/kg. No other petroleum constituents were detected. Petroleum constituents were not detected in the excavated soil, so it was used to backfill the UST excavation. Currently there are no USTs on site. Soil assessment proceeded with the installation of five monitoring wells and drilling of two soil borings in 1999. Soil samples were collected during drilling, and TPH from gasoline was detected in five samples at a maximum of 0.5 mg/kg. Xylenes were also detected in one soil sample at 28 mg/kg. No other petroleum constituents were detected. Based upon the soil sampling data, the consultant concludes that the extent of petroleum-impacted soil has been assessed and is limited to soil in the immediate vicinity of the former USTs. The consultant estimates that there is less than 10 cubic yards of petroleum hydrocarbon-impacted soil with concentrations that exceed 100 mg/kg remaining on site. Groundwater monitoring and sampling has been conducted on site in 1999, 2000, 2005, 2006, and 2010 through 2012. During this time period, benzene was detected above the maximum contaminant level (MCL) of 1 microgram per liter (ug/l) in monitoring well MW-3 only at a maximum concentration of 5.2 ug/l. Benzene has not been detected in any of the monitoring wells since 2000. MTBE has been detected above the primary MCL of 13 ug/l in three of the monitoring wells at a maximum of 590 ug/l. MTBE was detected at 7 ug/l in monitoring well MW-3 and at 22 ug/l in monitoring well MW-6 during the last monitoring event in June 2012. MTBE concentrations exceed the primary MCL in monitoring well MW-6 only, and concentrations of MTBE have been stable in this well since it was installed in 2006. The Corrective Action Plan (CAP) prepared for the site recommends remediation of the site by natural attenuation. Using the observed degradation rates of MTBE in monitoring MW-3, the consultant estimates that the concentration of MTBE in monitoring well MW-6 will decrease to below the primary and secondary MCLs within 2 and 5 years, respectively. The CAP discusses potential impacts of the residual petroleum-impacted soil and groundwater to sensitive receptors, including surface waters, supply wells, and human health. The consultant states that the nearest surface water is approximately one mile down-gradient and that there are two supply wells within 600 and 650 feet of the site. Based upon the stability and limited extent of the dissolved-phase plume and distance to surface water and the supply wells, the consultant concludes that these receptors are unlikely to be impacted by the release. Since impacted soil and groundwater is limited to the site and located under asphalt at depths exceeding 20 feet below ground surface, potential health risks are limited to occupants of the site and to potential vapor migration into the building on site. The consultant

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

### STANDARD ENVIRONMENTAL RECORDS

#### Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 10/25/2013 Source: EPA
Date Data Arrived at EDR: 11/11/2013 Telephone: N/A

Number of Days to Update: 78 Next Scheduled EDR Contact: 01/19/2015
Data Release Frequency: Quarterly

Telephone 206-553-8665

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 10/25/2013 Source: EPA
Date Data Arrived at EDR: 11/11/2013 Telephone: N/A

Number of Days to Update: 78 Next Scheduled EDR Contact: 01/19/2015
Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991 Date Data Arrived at EDR: 02/02/1994 Date Made Active in Reports: 03/30/1994

Next Scheduled EDR Contact: 11/28/2011 Data Release Frequency: No Update Planned

#### Federal Delisted NPL site list

**DELISTED NPL: National Priority List Deletions** 

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 10/25/2013 Date Data Arrived at EDR: 11/11/2013 Date Made Active in Reports: 01/28/2014

Last EDR Contact: 10/08/2014

Next Scheduled EDR Contact: 01/19/2015 Data Release Frequency: Quarterly

#### Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

### Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Date of Government Version: 10/25/2013 Date Data Arrived at EDR: 11/11/2013 Date Made Active in Reports: 02/13/2014

### Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 06/10/2014

### Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 06/10/2014 Date Data Arrived at EDR: 07/02/2014 Date Made Active in Reports: 09/18/2014

State- and tribal - equivalent CERCLIS

### **ENVIROSTOR:** EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

## ADDITIONAL ENVIRONMENTAL RECORDS

### Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 09/22/2014 Date Data Arrived at EDR: 09/23/2014 Date Made Active in Reports: 10/20/2014

**DEED: Deed Restriction Listing** 

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Next Scheduled EDR Contact: 12/22/2014 Data Release Frequency: Annually

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

Date of Government Version: 09/14/2010 Date Data Arrived at EDR: 10/07/2011 Date Made Active in Reports: 03/01/2012

Number of Days to Update: 146

### HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006 Date Data Arrived at EDR: 03/01/2007 Date Made Active in Reports: 04/10/2007

### RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995 Date Data Arrived at EDR: 07/03/1995 Date Made Active in Reports: 08/07/1995

Source: EPA

Telephone: 202-564-4104 Last EDR Contact: 06/02/2008

Next Scheduled EDR Contact: 09/01/2008 Data Release Frequency: No Update Planned

### RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

Date of Government Version: 04/01/2014 Date Data Arrived at EDR: 05/23/2014 Date Made Active in Reports: 07/28/2014

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method.

### 2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

## EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

#### US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

#### **EDR HIGH RISK HISTORICAL RECORDS**

#### **EDR Exclusive Records**

#### EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

### EDR US Hist Auto Stat: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

#### OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

### AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services,

a federal agency within the U.S. Department of Health and Human Services.

#### **Nursing Homes**

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

### Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary

and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Licensed Facilities Source: Department of Social Services

Telephone: 916-657-4041

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

Target Property Map: 32116-F8 JAMUL MOUNTAINS, CA

Most Recent Revision: 1994

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

- 1. Groundwater flow direction, and
- 2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

## **GROUNDWATER FLOW DIRECTION INFORMATION**

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

## **TOPOGRAPHIC INFORMATION**

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

### TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General ESE

#### SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

## HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

**FEMA FLOOD ZONE**

YES - refer to the Overview Map and Detail Map

## **HYDROGEOLOGIC INFORMATION**

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

## Site-Specific Hydrogeological Data\*:

Search Radius: 1.25 miles Status: Not found

## **AQUIFLOW®**

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

 The state of the

## **GROUNDWATER FLOW VELOCITY INFORMATION**

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

## GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

## PHYSICAL SETTING SOURCE RECORDS SEARCHED

#### **TOPOGRAPHIC INFORMATION**

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

#### HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

#### HYDROGEOLOGIC INFORMATION

AQUIFLOW<sup>R</sup> Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

#### **GEOLOGIC INFORMATION**

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map. USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

## PHYSICAL SETTING SOURCE RECORDS SEARCHED

Last EDR Contact :09/30/2014

RMP: Risk Management Plans

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: Property

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

**DEED**: Deed Restriction Listing

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: 0.333 Mile

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Date of Government Version: 09/08/2014 Source: DTSC and SWRCB Number of Days to Update: 42 Telephone: 916-323-3400

Last EDR Contact :09/10/2014

**DRYCLEANERS**: Cleaner Facilities

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: 0.25 Mile

A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial; garment pressing and cleaner's agents; linen supply; coin-operated laundries and cleaning; drycleaning plants, except rugs; carpet and upholster cleaning; industrial launderers; laundry and garment services.

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: Property

A listing of Water Board Enforcement Actions. Formal is everything except Oral/Verbal Communication, Notice of Violation,

Expedited Payment Letter, and Staff Enforcement Letter.

Date of Government Version: 08/11/2014 Source: State Water Resoruces Control Board

Number of Days to Update: 49 Telephone: 916-445-9379

Last EDR Contact :08/08/2014

**ENVIROSTOR**: EnviroStor Database

Standard Environmental Record Source: State and tribal - equivalent CERCLIS

Search Distance: 0.333 Mile

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

Date of Government Version: 08/05/2014 Source: Department of Toxic Substances Control

Last EDR Contact :08/14/2014

**HAZNET**: Facility and Manifest Data

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: Property

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method.

2020 COR ACTION: 2020 Corrective Action Program List

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: 0.25 Mile

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

Date of Government Version: 11/11/2011 Source: Environmental Protection Agency

Number of Days to Update: 7 Telephone: 703-308-4044

Last EDR Contact :08/15/2014

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

Standard Environmental Record Source: Federal CERCLIS

Search Distance: 0.333 Mile

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 10/25/2013 Source: EPA

Number of Days to Update: 94 Telephone: 703-412-9810

Last EDR Contact :08/28/2014

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: 0.333 Mile

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

**EPA WATCH LIST**: EPA WATCH LIST

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: Property

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: Property

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

**US HIST CDL**: National Clandestine Laboratory Register

Standard Environmental Record Source: Other Standard Environmental Records

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 07/25/2014 Source: Drug Enforcement Administration

Number of Days to Update: 41 Telephone: 202-307-1000

Last EDR Contact :09/03/2014

**US INST CONTROL**: Sites with Institutional Controls

Standard Environmental Record Source: Federal institutional controls / engineering controls registries

Search Distance: Property

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 09/18/2014 Source: Environmental Protection Agency

Number of Days to Update: 31 Telephone: 703-603-0695

Last EDR Contact :09/08/2014

**US MINES**: Mines Master Index File

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: Property

Contains all mine identification numbers issued for mines active or opened since 1971. The data also includes violation

information.

Date of Government Version: 01/30/2014 Source: Department of Labor, Mine Safety and Health

Administration

Number of Days to Update: 132 Telephone: 303-231-5959

Last EDR Contact :09/04/2014

AOCONCERN: San Gabriel Valley Areas of Concern

Standard Environmental Record Source: State and tribal - equivalent CERCLIS

Search Distance: 0.333 Mile

San Gabriel Valley areas where VOC contamination is at or above the MCL as designated by region 9 EPA office.

Date of Government Version: 03/30/2009 Source: EPA Region 9
Number of Days to Update: 206 Telephone: 415-972-3178

Last EDR Contact :09/22/2014

DOD: Department of Defense Sites

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: 0.333 Mile

This data set consists of federally owned or administered lands, administered by the Department of Defense, that have any area equal to or greater than 640 acres of the United States, Puerto Rico, and the U.S. Virgin Islands.

Date of Government Version: 12/31/2005 Source: USGS

Last EDR Contact :10/15/2014

INDIAN RESERV: Indian Reservations

Standard Environmental Record Source: Other Standard Environmental Records

This map layer portrays Indian administered lands of the United States that have any area equal to or greater than 640 acres.

Date of Government Version: 12/31/2005 Source: USGS

Number of Days to Update: 34 Telephone: 202-208-3710

Last EDR Contact: 10/15/2014

PWS: Public Water System Data

Standard Environmental Record Source: Other Standard Environmental Records

Search Distance: Property

This Safe Drinking Water Information System (SDWIS) file contains public water systems name and address, population served and the primary source of water

Date of Government Version: 12/17/2013 Source: EPA

Number of Days to Update: 279 Telephone: Not Reported

Last EDR Contact:09/08/2014

#### HISTORICAL USE RECORDS

RGA LF: Recovered Government Archive Solid Waste Facilities List

Standard Environmental Record Source: Exclusive Recovered Govt. Archives

Search Distance: Property

The EDR Recovered Government Archive Landfill database provides a list of landfills derived from historical databases and includes many records that no longer appear in current government lists. Compiled from Records formerly available from the Department of Resources Recycling and Recovery in California.

Date of Government Version: Not Reported Source: Department of Resources Recycling and Recovery

Number of Days to Update: 196 Telephone: Not Reported

Last EDR Contact :06/01/2012

**RGA LUST**: Recovered Government Archive Leaking Underground Storage Tank Standard Environmental Record Source: Exclusive Recovered Govt. Archives

Search Distance: Property

The EDR Recovered Government Archive Leaking Underground Storage Tank database provides a list of LUST incidents derived from historical databases and includes many records that no longer appear in current government lists. Compiled from Records formerly available from the State Water Resources Control Board in California.

Date of Government Version: Not Reported Source: State Water Resources Control Board

Number of Days to Update: 182 Telephone: Not Reported

Last EDR Contact :06/01/2012

EDR MGP: EDR Proprietary Manufactured Gas Plants

Standard Environmental Record Source: Former manufactured Gas Plants

Search Distance: 0.333 Mile

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

Date of Government Version: 08/28/2009 Source: EDR, Inc.

Number of Days to Update: 55 Telephone: Not Reported

Last EDR Contact :11/30/2012

EDR US Hist Auto Stat: EDR Exclusive Historic Gas Stations
Standard Environmental Record Source: Historical Gas Stations

Search Distance: 0.25 Mile

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

Date of Government Version: 02/20/2007 Source: EDR, Inc.

Number of Days to Update: 42 Telephone: Not Reported

Last EDR Contact :02/21/2007

EDR US Hist Cleaners: EDR Exclusive Historic Dry Cleaners
Standard Environmental Record Source: Historical Dry Cleaners

Search Distance: 0.25 Mile

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

Date of Government Version: 02/20/2007 Source: EDR, Inc.

Number of Days to Update: 42 Telephone: Not Reported

Last EDR Contact :02/21/2007

#### **TOPOGRAPHIC INFORMATION**

#### **USGS 7.5' Digital Elevation Model (DEM)**

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5' minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

#### HYDROLOGIC INFORMATION

**Flood Zone Data:** This data, available in select counties across the country, was obtained by EDR in 1999 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

**NWI:** National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

#### HYDROGEOLOGIC INFORMATION

#### **AQUIFLOW®** Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

#### **GEOLOGIC INFORMATION**

#### STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services. The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

#### SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

## The EDR Aerial Photo Decade Package

#### **EDR Aerial Photo Decade Package**

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

When delivered electronically by EDR, the aerial photo images included with this report are for ONE TIME USE ONLY. Further reproduction of these aerial photo images is prohibited without permission from EDR. For more information contact your EDR Account Executive.

Thank you for your business.
Please contact EDR at 1-800-352-0050 with any questions or comments.

#### **Disclaimer - Copyright and Trademark Notice**

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OF DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT. Purchaser accepts this Report AS IS. Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

#### **EXECUTIVE SUMMARY**

#### **DESCRIPTION**

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

#### **RESEARCH SUMMARY**

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.
