RE: COMMENTS ON DRAFT ENVIRONMENTAL IMPACT REPORT FOR
THE HARMONY GROVE VILLAGE SOUTH PROJECT (PDS2015-GPA-
15-002)

Dear Ms. Smith:

We, the San Luis Rey Band of Mission Indians ("Tribe"), have received and reviewed the County of San Diego's ("County's") Draft Environmental Impact Report ("DEIR") and all of its supporting documentation as it pertains specifically to the protection and preservation of Luisefño tribal cultural resources that may be located within the parameters of the Harmony Grove Village South Project's ("Project's") property boundaries and areas of impact. After our review of the DEIR, the Tribe is satisfied and concurs with the proposed Tribal Cultural Resource Mitigation Measures (CULT#1-2 and CULT#GR-1-4) contained within the DEIR's Conditions of Approval.

O9-1

The San Luis Rey Band of Mission Indians appreciates this opportunity to provide the County of San Diego with our comments on the Harmony Grove Village South Project. As always, we look forward to working with the County to guarantee that the requirements of the CEQA are rigorously applied to this Project and all projects. We thank you for your continuing assistance in protecting our invaluable Luisefño tribal cultural resources and sacred places.

Sincerely,

Merri Lopez-Keifer
Chief Legal Counsel

cc: Melvin Vernon, SLR Tribal Captain
Carmen Mojado, SLR Secretary of Government Relations

Response to Comment O9-1

The comment acknowledges the receipt of the EIR as well as accepting the impacts and mitigation measures under Cultural Resources and Tribal Cultural Resources (FEIR Subchapter 2.4). The comment will be included as part of the administrative record and made available to the decision makers prior to the final decision on the Proposed Project.
