The developments will bring too many people into the area and put their lives at risk. There is a lack of available exits needed during an emergency, particularly a fire. It seems financial profits for a few are being favored over lives of the many. Stop the development and choose love of people and the environment over personal gain. Save lives. Thank you - Mindy Sloan</p> <p>Sent from my iPhone</p> <div style="text-align: right; margin-top: 20px;"> <span style="font-size: 2em;">}</span> PCI1-1         </div>	<p><b>Response to Comment PCI1-1</b></p> <p>Comments noted. The County disagrees that the Project would put lives at risk. Please see the Global Responses to Fire Hazards Impact Analysis and Adequacy of Emergency Evacuation, and Access regarding Project planning relative to fire and emergency exits. Financial profits are not a CEQA environmental issue, and were not considered during preparation of the EIR.</p> <p>Opposition to the Project is noted, is part of the administrative record, and will be before decision makers during consideration of the Project.</p>
