Dear County Planners,
Thank you for your service.

There is a problem ~~for~~ Developers are trying to get you to approve develop. in open space, these do not approve.

One reason that you should not approve is, there are animals just munching away at the herbs and sipping water, where are they supposed to go?

Another reason is that there will be a lot of traffic so firetrucks and ambulances can not get through when there is a fire. And the traffic will cause pollution.

Finally ~~these~~ you should not approve. ~~is because~~ it is in open space. The best place to develop is by cities where there is already development.

In conclusion,
The developers are messing with the wrong neighborhood. Please don't.
