Subject: Borrego Valley Groundwater Sustainability Plan (GSP)

Dear Mr. Bennett,

Our family owns two lots on the Air Ranch plus a residence. I also own 5 acres on the north end of the Air Ranch and 5 hangars.

In agreement with the other objection letters submitted from Borrego Air Ranch residents, including letters from my two sons, in my opinion the idea of limiting residential water that won't use as much in a year as one golf course does in a month is not only disagreeable but ridiculous. We have owned property there since 1986 bought directly from Mr. Fletcher and to this point had no interest in selling it. The proposed GSP will have severe impact on property values. Don't like much getting into politics but sometimes it's necessary.

In closing I disagree and will do all I can to work against what you are trying to do to the Air Ranch.

Larry Grismer
Borrego Air Ranch
