Please take one minute to quickly answer each of the following questions.

1. What changes regarding comprehensive renewable energy planning, if any, would you like to see in San Diego County?

2. Earlier in the meeting, EMpower shared a slide listing some local issues and priorities in the County; are there additional issues related to the CREP not listed below that you would like to see addressed?

- Environmental protection
- Land use
- Job creation and economic development
- Regional equity
- Healthy communities

3. What ideally would you like the CREP to accomplish?

4. What policies and programs from other communities and counties do you think the County should emulate? (Please list which ones, where they are from, and why you think the county should pursue them.)
