

County of San Diego

Housing Affordability Workshops

Housing Affordability

In April 2018, the County of San Diego Board of Supervisors directed Planning & Development Services (PDS) staff to investigate options that would further promote and expedite the building of homes in the unincorporated County and identify ways to close the housing gap through incentive programs and or reductions in regulations.

The County is developing a Housing Affordability Strategy that identifies short and long-term solutions for increasing housing supply, addresses regulatory and process barriers, and expands housing opportunities throughout the County.

Housing Affordability Workshops

The County would like to receive your input on housing affordability before we return to the Board of Supervisors in October 2018.
